

### IN BED FOR WEEKS

Mr. Smith Was in a Bad Way, But Doan's Restored Him to the Best of Health.

April, 1916. Louis Smith, 90 New Backenack, N. J., said: "Words to describe the misery I endured in my work I do not have. It was a heavy lifting and to do a lot of heavy lifting, and this weakened my kidneys. At first I only suffered from a slight backache, but almost before I knew it, I was all bent over like a man a hundred years old. I began to grow worse as the days passed and finally I had to take to my bed where I remained for weeks. My head pained terribly and my back just throbbled. I was always dizzy and it seemed as if my head was swimming. Little black spots were coming before my eyes and I also suffered from painful and scanty urination. My kidneys were completely ruined and I was enjoying the best of health before me."

E. M. Johnson, Justice Peace, March 19, 1917, Mr. Smith added: "I will never forget what Doan's Kidney Pills did for me. Whenever I catch cold or get a headache, I can depend on Doan's Kidney Pills to get me up all right."

A Sad Memory.

She herself of her ecclesiastical duties, the clergyman's wife asked which, coming from anybody, would have been thought impertinent. "I carry a memento of my husband in that locket you wear?"

"Am" said the parishioner, looking at my husband's hair. "My husband is still alive," she exclaimed. "Am, but his hair is gone."

## What Well Dressed Women Will Wear

**First of the New Fall Suits.**

The first of the new fall suits and the last of those for summer invite comparison in the picture above. It will be seen that they have several points in common but that the fall model shows departures in the direction of greater length in coats, in the matter of trimming and in trim, definite lines, that give the figure a smart, well-set-up look.

The fall suit is made of gaberdine in dark blue with black silk braid and bone buttons used on the coat for decoration. The skirt in this suit, as in nearly all the new models for fall, is plain, finished with a hem and cut about ankle length. The rule for length is six or eight inches above the floor, so the day of the very short skirt appears to have departed. It is not so definitely relegated to the past as the long skirt for street wear. That is a folly to which women are not likely to return.

The coat is almost three-quarter length and heralds the advent of longer coats with suits for fall and winter. The insert of rows of braid over the hips also reflects a style feature which is evidenced in many models, and this is the emphasis of this portion of the new coats with decorations. Large pockets still play an important part in coat schemes along with wide cape collars, surmounted by smaller collars and a careful use of buttons. In the last regard the new suits are an improvement upon spring designs in which designers went to such lengths in the prodigious use of buttons that handsome suits were really cheapened by them.

New models in tailored suits are rarely without decoration of some sort. Broad fur, fur fabrics, velvet and buttons are all used on them, but with much moderation.

### Style and Character in Capes.

There are capes and capes; not so many of them, but a variety as to size and design and a promise of cape made of fur and fur fabrics when winter comes. Small capes rule the modes in summer furs and lead up to the larger capes and mantles that are prominent in the August fur showings. Small capes finish many of the coats in new suits for fall and a novelty has appeared in a one-piece frock with a long, detachable cape made of the same material as the gown.

Whatever may be the fate of the cape in the race for popular favor, it is a garment of character and good style at all times. A handsome example appears in the long cape of fancy plush which fits into the needs of its wearer in almost any season. Developed in taupe-colored silk plush, lined with white satin, and with a wide white satin collar, it is an overgarment equal to gracing any occasion. The model pictured is cut to hang straight at the front and fall from the shoulders and back.

The introduction of white in the collar and lining adapts this particular cape to late summer and early fall wear, but its usefulness is not hinted as to seasons. It makes a presentable evening wrap for any time of the year. It fastens at the front with three very large buttons, and slits at each side, finished with wide bands, provide openings for the hands and arms. There is nothing quite so convenient as a cape for wear over fragile and elaborate evening gowns or dance frocks and the cape pictured, considered from this angle, is a great success.

**A New Pullman Coat.**

The woman who travels across the continent—or takes even an overnight journey—will rely in a new Pullman coat of thin pongee, designed for use as a negligee when trips are made from sleeping berth to dressing room, and for comfortable lounging all day in one's section. All-covering and loose enough to feel cool and comfortable, like a negligee, the garment is cut and finished to look like a smart coat. It would be quite presentable in the dining car, or on a station platform when one gets out a moment during a stop, to stretch muscles and breathe the fresh air.

### Pig Essentials Lacking.

The man who is trying to raise hogs without pasture and forage crops is like a puppy chasing his tail. He gets plenty of exercise, but nothing else.

### Pedigreed Corn.

Pedigreed corn has years of breeding back of it. It is the result of infinite pains.

### Best Seed Obtainable.

Sow a small amount of the best seed obtainable per acre.

### Unduly Sour Cream.

The acid of cream unduly sour destroys more or less of the butterfat and if kept too long or too cold a bitter condition is the result.

### Progressive Farmer.

Study the soil. Study how to preserve its fertility and you will thus become a progressive farmer.

### Ration for Brood Sow.

## Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

### A TRIBUTE TO DRY TOWNS.

Writing for the Atlantic Monthly, Ida M. Tarbell tells of her experience on a Chautauque circuit in western Pennsylvania, central Ohio and Michigan.

"We came to know almost as soon as we reached a new place whether the town was dry or not," she says. "A town that had been dry over a period of a dozen years had a trimness about the streets and buildings, a look of freshness and energy about young people and old which stood out in almost incredible contrast to what we found in the wet town of the same size. We went to one town in Ohio which had been dry for 31 years, so the hotel-keeper told me. He claimed to be a much-traveled person, and said that in all the many towns which he had known intimately, he had never found one in which there was such a fine lot of young people as here. In health, in vigor, in initiative, he believed that the young men and women, particularly of the working classes, were tremendously ahead of the same group in the towns where liquor was freely dispensed."

### BEER NOT COOLING.

Dr. W. A. Evans, conductor of the Chicago Tribune's health column, and a man of high rank in his profession, gives the following facts:

All kinds of beer contain eight-tenths of an ounce of alcohol, equivalent to nearly a tablespoonful of whisky.

While cold beer tastes cool and pleasant to a hot man, it does not cool him off; it heats him up. The alcohol and solids will bring increased heat.

The effect of alcohol is to induce an excess of blood to the skin.

Whenever a large amount of blood goes to the skin, it causes a feeling of heat.

When a man drinks beer, he causes himself to feel hot.

He also actually increases his bodily heat.

He increases his chance of sunstroke at least a hundred per cent.

### MORE IN WET THAN IN DRY.

The liquor interest would have the public believe that prohibition increases the number of illicit stills. What does the internal revenue office say about it? The figures for the year ending June 30, 1916, show that the number of moonshine plants seized was 3,285, or 540 fewer than in the year 1915—in spite of the fact that dry territory has been steadily increasing. Not a single illicit still was reported for seizure in the prohibition states of Arizona, Dakota, Oregon or Washington. There were only six in Mississippi, four in Arkansas, and six in West Virginia. More gallons of illicit whisky were seized in any one of the wet states of Illinois, Kentucky, Massachusetts, Ohio and Pennsylvania than in any prohibition state.

### GENERAL PERSHING'S BLOW.

Gen. J. J. Pershing, commander of the first United States troops to go to the battle front in France, is an ardent advocate of prohibition. Pershing's punitive expedition into Mexico was, to quote a writer in the New York Tribune, "the driest body of troops that ever marched. It traveled absolutely on the water wagon, and the going was hard. Some of those soldiers went into Mexico soft and moderately run-soaked. But they came out lean, clear-eyed and hard as nails. The sanitary corps reports on that expedition will show some wonderful results. Despite the hardships of the first rush, the sick reports were startlingly meager."

### SALOONS ROB CHILDREN.

W. H. Rice, a veteran circus man, recently put out a chart showing comparative figures of his earnings in typical cities while they were wet, and after they became dry. Decatur, Ill., wet, gave him \$3,271; dry, \$6,580. Bloomington, Ill., wet, \$5,327; dry, \$9,403. Boise, Idaho, wet, \$7,794; dry, \$10,811. Spokane, Wash., wet, \$6,200; dry, \$11,582. Seattle, wet, \$3,128; dry, \$6,710; Portland, Ore., wet, \$3,264; dry, \$8,426. Average—wet, \$4,468; dry, \$8,708. Prohibition means more surplus money in the family and more happiness for the children.

### BUSY MR. BONE.

The story is told of a diplomat in Washington who inquired very earnestly as to the identity of "this Mr. Bone" who is introducing so many dry bills.

### DESTROYING THE NATION'S ASSETS.

A state that deliberately debauches a citizen for profit or otherwise, debauches a potential soldier and a citizen of the nation.

### DRY TOWN HAS MONEY.

"City in excellent shape financially. All bills paid and surplus on hand, auditor's report shows." No, these are not headlines from some wet town newspaper telling of booze-bought municipal prosperity. Oh, no. They refer to Freeport's good financial condition without any liquor license money.—Illinois Issue.

### NEVER.

To advertise the liquor traffic you never see an exhibit marked "before and after taking."

### SIGNS OF THE TIMES.

What is said to be the oldest saloon in Ohio has voluntarily gone out of business because of lack of business. It has sold liquor since 1829. Four other Columbus saloons recently gave up their licenses. And the parent distillery of Cincinnati—the Fleischmann—built in 1860, has closed its doors. They all see what's coming!

### A DRY COMMENCEMENT.

This year, for the first time in the history of the university, Harvard commencement was bone dry.

### GIRL OF 14 SOLDIER'S WIFE

#### While Her Husband Fights in France Young Bride Will Go to School in This Country.

A fourteen-year-old schoolgirl became a soldier's wife in Brooklyn recently, thus following the example of her mother, who became the bride of one of Uncle Sam's men in khaki 14 months ago.

Mattie Lee Hudsbeth of Douglas, Ariz., was the latest bride, says the Brooklyn Eagle. The soldier boy who became her husband is David Eugene Henry of Spring, Tex. The bridegroom is only twenty-two, and a member of the Twenty-second Infantry, now stationed at Fort Hamilton.

The girl's stepfather went abroad with General Pershing and is now "somewhere in France." His wife planned to join him and come East. While waiting passports here her daughter met Henry, with whom she became acquainted in Arizona, two years ago.

While the bride's mother is absent in France her daughter will remain here and will attend school.

### Knew Father's Weakness.

Johnny B—, who has seen eight summers go by, not very long ago developed a fondness for playing "hooky" from school. After two or three offenses of this kind he was taken to task by his teacher.

"Johnny," she said, "the next time you are absent I want you to bring me an excuse from your father telling me why you were not here."

"I don't want to bring any excuse from father," protested the boy.

"Why not?" asked the teacher, her suspicion plain.

"Cause father isn't any good at making excuses. Mother finds him out every time."—Rehoboth Sunday Herald.

### Once Was Enough.

"My wife never rouses me up to cut the grass before breakfast."

"Is that so?"

"Yes; she tried it once and I was so sleepy that I ran the lawn mower all over her flower beds."

### Couldn't Do It.
