Why That Lame Back.

The morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this McConnellsburg resident's example.

P. F. Black, McConnellsburg, says: "while at work, I slipped and wrenched my back badly. After that I had great pain across my loins and my back often got lame and sore. I used Doan's Kidney Pills, procured at Trout's Drug Store and they soon gave me relief."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Black had Foster-Milburn Co., Props, Buffalo, N. Y.

Make Democracy Safe for Woman.

"Nine million of women, whom men could not or would not support, were employed before the war in commerce and industry in this country. Before our transports have ceased plowing their way to France, nine millions more may stand in men's shoes, doing men's work. And millions more, cradling the sons of men and making the world safer for democracy, will ask: Is it right is it just, that we who have fought the battles with you to perpetuate the great principles of the Declaration shall alone of all the world be denied the privileges those principles assure?"

"Women need not be discouraged. The clouds have broken for them. Not long now must they endure the stench of dirty streets, death-bearing to their children, the saloon thrusting its nose into their backyards, the thousand and one evils which result from masculine law-making, which knows no woman's pity in its sentences, no woman's soul in its phrases and no woman's thirst for justice in its conception. Woman will be loosed here, as she will be in England from the tyrant of subjection, and the march toward our ideals will be visibly quickened by the warm spirit of her participation."

"The world can be made safe for democracy only when democracy is made safe for woman."
—Public Ledger, Philadelphia.

The Newspaper.

Why is a newspaper like a pretty woman? To be perfect it must be the embodiment of many types. It is always chased, though inclined to be giddy. It enjoys a good press; the more rapid the better. It has a weakness for gossip. Talks a good deal. Can stand some praise, and it's awfully proud of a new dress.

YOU CAN'T IMAGINE FLYING SAYS MINEOLA OFFICER; MAKES OTHER SPORTS SEEM FLAT

By Sergeant George D. Dodge, Mineola Aviation School

How do you feel when you make your first flight? Its hard to describe, but—you don't feel anything like you expect to.

Before I enlisted I tried to imagine flying. I thought of my sensations on all the high places I had been. But it isn't like that at all. There is no more of that kind of feeling than when you are riding in an elevated train. The idea of height never bothers you.

At first you never know when the airplane leaves the ground, the start is so smooth. Suddenly you find yourself in the air with the earth dropping away.

Where the air is smooth you have the sensations of rushing along a boulevard in a motor car at a mile a minute, combined with the buoyancy of drifting downstar in a canoe. When the air is choppy it is more like riding a flivver over a rough road.

Gliding or climbing rapidly is much like riding on a gigantic shoot-the-chutes.

It is remarkable how quickly you feel complete detachment from the earth, absolutely independent of it and safer the farther away from it you are.

You never seem to be flying away from the earth so much as it seems to be dropping away from you.

The only time you become acutely conscious of the earth is when you are coming down for a landing. It seems to be rushing up with incredible speed. Then all of a sudden, if everything has been properly managed, you find yourself back with no more shock than when you put on the brakes of an automobile.

I remember the first time the instructor started to make a spiral with me in the machine. I was so fascinated I suppose I was not noticing just what was happening. I looked up, saw one of the wings lifted high above my seat and caught a glimpse of the earth below apparently tilted to one side.

I thought at first we had looped the loop. My stomach got wobbly. Then things seemed to come into perspective, my stomach got on an even keel, and I saw just what had been happening.

When you are driving the sense of identity with a powerful machine brings an exhilaration nothing can equal—motor-boating, bogganing, and auto racing all seem stale, flat and unprofitable.

Federation Organized.

On August 18th, Mr. John Royal Harris, of Pittsburgh, arrived in McConnellsburg, and according to previous announcement, organized The Dry Federation of Fulton County. The following officers were elected: County Chairman, Frank P. Plessinger; Secretary, C. J. Brewer; Treasurer, George W. Reiser. An advisory committee will be announced later.

Highway Robbery.

Three young Greencastle men were arrested Monday and held for the action of the October grand jury, charged with highway robbery. On Saturday night shortly before midnight, they held up and robbed Daniel W. Carbaugh of near Greencastle. The young men, taken to jail in Chambersburg are Harry Carpenter, Frank Garman and Frank Scott.

WILSON SENDS MESSAGE TO U. S. DRAFTED MEN.

Washington, D. C., Sept. 3.—President Wilson has sent the following message of cheer to the soldiers of the National Army:

"To the soldiers of the National Army:

"You are undertaking a great duty. The heart of the whole country is with you. Everything that you do will be watched with the deepest solicitude, not only by those who are near and dear to you, but by the whole Nation besides. For this great war draws us all together, makes us all comrades and brothers, as all true Americans felt themselves to be when we first made good our national independence.

"The eyes of all the world will be upon you, because you are in some special sense the soldiers of freedom. Let it be your pride therefore, to show all men everywhere not only what good soldiers you are, but also what good men you are, keeping yourselves fit and straight in everything and pure and clean through and through. Let us set for ourselves a standard so high that it will be a glory to live up to it and add a new laurel to the crown of America.

"My affectionate confidence goes with you in every battle and every test. God keep and guide you!

"WOODROW WILSON."

Give 'Em Send-off.

The Public Safety Committee of Fulton County is arranging to have an escort of citizens accompany our first contingent of soldier boys to the train at Fort Loudon, on Friday afternoon. Four of Fulton County's worthy sons will leave McConnellsburg about 2 P. M. Friday afternoon September 7, for Camp Lee, Petersburg, Va. These four will be the first of our quota to join the great Army that is to go to France to help defeat the Autocratic Kaiser. They are going to fight the battles of freedom for us all and it is our duty to show them as best we can that we deeply appreciate the service they are going to render for our country and the whole world. Every citizen who has an automobile is urged to be in McConnellsburg at the time stated ready to start with the "Boys" for Fort Loudon. Have your cars decorated with flags, and come prepared to help give these boys an enthusiastic send-off.

It will only be a week or two till forty per cent. more of our quota will leave for the training camp and it is the intention of the Public Safety Committee and the Fulton County Chapter of the Red Cross Society, to arrange to have a big patriotic demonstration in McConnellsburg before they go.

Native of Bedford County.

The man who has been appointed to take charge of steel buying for the United States government and its Allies, is J. Leonard Replogle, a native of Bedford county. He was born at New Enterprise.

Mr. Replogle is 41 years old and began his career in the steel business when he was 13 years old as an office boy at \$5 a week in Johnstown. His rise was steady until 1915 when he became vice president and general manager of sales for the company. He then figured in a spectacular financial contest with the Frick interests in a deal involving \$15,000,000.—Everett Republican.

Gentlemen Drivers.

Now and then an auto, filled with nice looking people, passes through McConnellsburg with the muffler of the machine closed and the rate of speed reduced to safety. At such times we can hardly restrain our desire to stop the tourists and shake hands with them in gratitude for their exhibition and sense of respect for their fellow beings. It is refreshing to know that their class is not extinct.

On the contrary, a dozen or more citizens of McConnellsburg are such poor drivers that they cannot make their machines run down hill without the muffler wide open, and everybody within the square must stop talking until they get out of hearing. A costly ordinance was passed recently forbidding this worse than useless habit, but evidently the trait exhibited by the first mentioned drivers is unknown to our town drivers—else why the intolerable nuisance?

Above all the din, smoke, rattle and heraldry of the Great War, Fulton county is interested in how she may find an outlet for surplus food that annually goes to waste under the trees. So far home canning, drying and otherwise preserving it has been the only solution offered to the patriots of the County who would "Do their bit." Being a wee bit behind our sister counties in the spirit of co operation, we have a handicap.

Dr. and Mrs. Thomas Leshler, of Williamsport, Md., motored to McConnellsburg last Sunday and took binner with Mrs. M. A. Kelly. Mrs. Leshler will be remembered as Maggie Prosser, daughter of the late Vincent Prosser. It is her first visit to her old home in twenty-seven years.

Heavy Traffic.

The automobile traffic on Lincoln Highway was very great during the triple holiday including Labor day. By count there was an average two cars to the minute passing a given point outside borough limits last Monday, course, the travel on Sunday greater. The condition of great highway is abnormal. It the State were to speed money it is wasting of it surfacing the road, it would be better judgment.

Fine Cabbage.

That two heads are better one, even when both are cabbages, was demonstrated a days ago when Mrs. George Paylor, of Ayr township, the family of the Editor told that are hard to beat. The heads, which were practically the same size in shape and weight, weighed twenty pounds after all the loose leaves had been removed and fed to cows. They have already yielded about 65 gallons of sauer kraut.

Get The Coon.

The state game commission announces that under the provisions of the new game code the season for blackbirds, redbirds, railbirds as well as quail would open on Monday, September 10th, and will run until November 30th and commission calls attention to the fact that they may not be hunted between sunset and sunrise. Raccoons may be hunted at any time.

Bumper May Crop.

Reports from all sections of the state indicate that there is no ground for the statement that dairymen will be forced to rid of much of their stock while below the 1916 crop, more than an average yield. 541,000 being the estimate, general average is 1.45 tons per acre, compared with 1.35 last year.
