

FOR THOSE WHO CARE

Every man of judgment knows that the true measure of satisfaction is a tailored suit lies in its permanence of shapeliness and its ability to retain its style. This necessary quality depends not only upon the tailoring of the garments

--BUT UPON THE FABRIC USED.

20 years of successful manufacturing and selling of only the best fabrics, fits us to furnish you with dependable fabrics, with firmness of texture and "quality" in the look and feel.

Renewed Testimony.

No one in McConnellsburg who suffers backache, headaches or distressing urinary ills can afford to ignore this McConnellsburg man's twice-told story. It is confident testimony that no McConnellsburg resident can doubt.

John P. Conrad, deputy postmaster, McConnellsburg, says: "I had terrible pains across my back and I didn't sleep well. I was very nervous and when I got up in the morning, I was more tired than when I went to bed. Doan's Kidney Pills soon freed my back from pain."

Over four years later, Mr. Conrad said: "I haven't needed any medicine for backache or other kidney trouble since I used Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Conrad has twice publicly recommended. Foster Muburn Co., Props., Buffalo, N. Y.

They Never Strike.

There is one class of laborers who never strike and seldom complain. They get up at five o'clock in the morning and never get back to bed until ten or eleven o'clock at night; they work with out ceasing the whole of that time and receive no other emolument than food and the plainest kind of clothing; they understand something of every branch of economy and labor from finance to cooking; though harassed by a hundred responsibilities, though driven and worried, though reproach and looked down upon they never revolt and they cannot organize for their own protection. Not even sickness releases them from their posts. No sacrifice is deemed too great for them to make and no incompetency in any branch of their work is excused. No essays, books or poems are written in tribute to their steadfastness. They die in the harness and are supplanted as quickly as may be. These are the housekeeping wives of the laboring men.

Offices: The Union Exchange Bank, HANCOCK, MARYLAND

Three Days Each Week: Monday, Wednesday and Friday, From 8:30 a. m. to 1:30 p. m.

WHAT IS CHIROPRACTIC?

Chiropactic is the science which teaches that slight displacements of vertebrae in the spinal column may produce pressure upon spinal nerves sufficient to interfere with the transmission of vital energy from the brain to the various organs of the body and become the primary cause of symptoms and abnormal conditions which we call disease and which by the hands alone locate and remove the cause permitting an uninterrupted flow of vital energy from the brain to the diseased organs for the restoration of health. The life, health and vital activity of every organ tissue and cell of the body is absolutely dependent upon receiving a normal amount of vital energy which is generated in the brain and transmitted through the nerves to the various organs and parts of the body. No one can fully appreciate the great value of the science of Chiropactic, as he who has tried one remedy after another for years in a vain effort to find relief from paralysis, deafness, loss of voice, appendicitis, nervousness, constipation, rheumatism, lungs, heart, liver, kidney, bladder trouble, or other ills and then finds that the remedy has all the time been right at his very door, had he only been able to recognize it.
