Only a few farmers speculate When the farmers meet as a by holding their crops for the when finished, for costs pile up rapidly and gains diminish.

If farmers could hold their stuff as long as they pleased, the consumer would have reason to worry. A farmer's union could then stick up the price to the limit of the nation's pocketbook. But it hasn't been done and, as business is now done on the farms, it can't very well be done.
