A COMMON ERROR.

The Same Mistake Is Maded By Many McConnellsburg People.

It's a common error To plaster the aching back, To rub with liniments, rheuma

tic joints, If the trouble comes from the

kidneys.

It's time to use Doan's Kidney Pille.

Here is convincing proof of merit.

Mrs. H. Bernecker, 567 Philadelphis Ave., Chambersburg. Ps., says: "I had a bad fall and my back became very sore and painfal. A constant, throbbing ache settled in the small of my back and I suffered from headaches I felt miserable and the medicine I took didn't seem to help me finally bought Doan's Kidney Pills at Greenswalt's Drug Store and they soon removed all the trouble and now I only use them occasionally as a preventive."

Price 60c at all dealers. Don't simply ask for a kidney remedy -get Doan's Kidney Pills-the same that Mrs. Bernecker had. Foster-Milburn Co, Props, Buffalo, N. Y.

War Savings. "War Savings Stamps mark a epoch in our national life."

Adoo. Many a successful business man has said that the saying if his first dollar was the most important stogle act of his life; that it marked the beginning of a habit and a course of conduct to which he attributed h s of her brother, the wild and dissipat-SUCCESS.

Something very analogous to this, it is believed, is going to be the effect on the American Nation of the war Savings campaign. Not only are millions of individual citizeus going to begin to save, but this habit of economy and saving is going to be a collective movement, a movement not of individuals alone but of the Na tion.

The habit of saving form d now has a deeper incentive than ordinary. We are saving now not alone fer selfish reasons, we are saving now from patriotism, saving not alone for ourselves but for our country. The combination of patriotism and thrift is, indeed, going to make the War Savings campaign an epoch in our national life. It is not only going to be a thing of tre mendous benefit to millions of citizens. It is going to be a thing of tremendous advantage to the Nation as a whole, and affect our whole national life. It marks the beginning of a new era in American life, an era of economy, good sense, and patriotism.

Lilluokalani, Last Native Ruler of Hawall, Was Dethroned Two Years After Succeeding to Power.

Lydia Kamekeha, Queen Liliuokalani, the last native ruler of Hawaii, was proclaimed queen in January, 1891, and two years later, on January 16, 1893, she was dethroned. She was born in 1838, and succeeded to the throne on the death ed King Kalakaua. It soon became apparent that the feminine monarch of the "Pearl of the Pacific" was reactionary in her tendencies. Although she had taken as her spouse an American, John O. Dominis, a native of Boston, she was not friendly toward Americans, and not at all in sympathy with the progressive reform party, which had been successful in the revolution of 1887. The queen's husband died a few

months after she gained the throne, and soon after that the queen became more than ever reactionary. It soon was apparent that she proposed to abolish the liberal constitution of 1887 and to restore the old despotic regime of absolute monarchy. A committee of safety was formed, and the day after she had proclaimed a new constitution in the direction of absolute power she was dethroned and a republic formed. 'In January, 1895, a royalist rebellion fomented by the ex-queen was foiled, and she was sentenced to modified imprisonment for five years, but, upon penning a renunciation of the throne, she was released.

LOCATING LOST PIPES.

Locating lost or hidden water pipes is the function of a newly patented device which promises to be a friend to the plumber and to the municipality which has to repair its water pipes. The new machine is expected to prove useful by cutting the amount of digging necessary to locating a leaky pipe down to a minimum-a very useful quality where sees the metal, directly, in air, but paving has to be torn up. Such a device is also badly needed where a leak must be found quickly to prevent flooding. The detective is an electric one, consisting of two connecting wires and a microphone worn by the man operating it. The connections are fastened to the nearest terminals of the pipe, and by listening in the microphone the operator can tell when he is directly over the hidden section.

Thrift Stamps.

It is pointed out by the Treasary Department that Thrift Stamps are not made redeemable in cash for the reason that these stamps are simply intended as a convenient method for he small savers to accumulate enough to purchase War Saving Stamps, which bear interest and are redeemable in cash.

In addition to provide for redemption for these Thrift Stamps would invoive such an amount of detailed accounting and labor and expense as to impair the practicability of their use. In fact they would be more trouble and expense to the Government possibly than they are worth.

It was five-year-old Harold's first risit to an Episcopal church, and during the sermon he examined the literature in the hymn book rack.
