Pictures of World Events for News Readers

n This Department Our Readers in Fulton County and Elsewhere May journey Around the World With the Camera on the Trail of History Making Happenings.

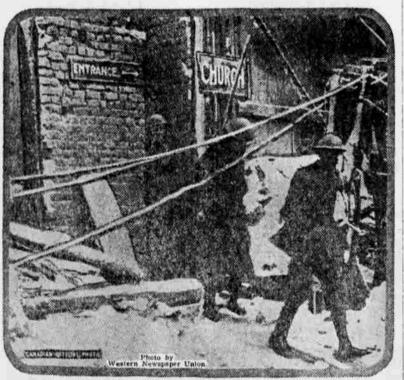

1-American soldier in training camp equipped for bayonet drill. 2-French troops marching along the country roads on the way to the trenches at Verdun. 3-Heavy howitzer of the allies in the deep snow on the western front.

SCENE AT FIRST AID STATION ON THE MEUSE FRONT

"Blesses" (wounded men) leaving a first fiid station close behind the lines at Bras, in the Meuse sector, after having had their wounds treated

IN MEMORY OF VIMY HEROES

THEIR CHURCH IN A RUINED VILLAGE

Canadian troopers leaving the improvised church which they have arranged in a little French village that has been shot all to pieces.

KNITTING MACHINE SPEEDS UP WORK

The comforts committee of the Navy League of the United States has installed in its headquarters several knitting machines for making sweaters, mufflers, socks and other wearing apparel for our fighters. A pair of socks can be turned out on a machine in 35 minutes. An appeal has been sent out o patriotic knitters to operate machines instead of knitting by hand, and thereby speed up the work.

the Canadian artillerymen who fell during the great battle of Vimy Ridge. Real German shells are used at the base to support the chains.

Made in America.

Scene: A cigar store-at inventory time, evidently, for in addition to the usual shelf and counter displays the floor is piled high with boxes, jars and tion. Enter an élderly and respectable

E. and R. P. (solemnly)-I beg your pardon. Have you any cigars or cigarettes here?

Clerk (gravely) - One moment, please. I'll see.

If there be such a thing as a distinctively American brand of humor, perhaps that conversation is as good an example as any. In Germany the clerk would have been insulted; in France he would have, laughed; in England he would have said: "Yes, sir."-Collier's Weekly.

Records of Severe Winters. In old records of hard winters in the middle ages the race today hardly recognizes the planet it lives on. For and on one morning, the heavy white example: In the year 401 the Black frost on the ground showed the minsea was entirely frozen over. In 462 ers that the cats had gone into the the Danube was frozen, so that Theodomer marched on the ice to Swaba to avenge his brother's death. In 763 the cold was so intense that the Strait of Dardanelles and the Black sea were entirely frozen over. The snow in some places was 50 feet deep, and the ice was heaped in such quantities on the cities as to couse the walls to fall was mined while the men were hunt-

CHILDREN GREET AMERICAN MARINES IN FRANCE

Truckload of American marines on a road in France, greeted by the children with cheers and bouquets.

AMERICAN RED CROSS AMBULANCES AID ITALIANS

The American Red Cross ambulances that were sent to Italy to help the Italian forces have arrived at the from, This photograph, which has just arrived in this country, shows the ambulances crossing the Piazza del Duomo in Milan on their way to the battleground.

MISS BLANCHE GEARY

American women who journey to Paris during this war have now a lrotel of their own where they can stop. The Y. W. C. A. has opened the Hotel crates of "smokes" of every descrip- Petrograd especially for their comfort and placed Miss Blanche Geary in charge as manager. Miss Geary is well fitted for the task, for she is the building construction expert of the Y. W. C. A. Before going abroad for the association she superintended the contracts for the Y. W. C. A. hostess houses at Plattsburg, Fort Worth, Tex.; Fort Riley and Army City, Kan.; Lawton, Okla., and Allentown, Pa.

Wildcats Stop Mining.

Three wildcats tied up operations at the mines of the Abel (Pa.) Coal company and incidentally cut down the production 200 tons.

The animals had been prowling about the mines for a week or more,

There was no evidence of their having come out, and the miners assembled at the entrance and sent some of

the men to get guns, On account of the unusual conditions existing in the mines it was late before the last cut was killed. No coal ing the cats.

MAKING PICTURES UNDER SHELL FIRE

When you pick up one of the many publications which print war photographs and see startling pictures of actual fighting at the front, or when you see real battle scenes on the screen, very rarely do you think of the hazard the photographers run who make the photographs. This picture shows French photographic operators working near the front lines within the range of enemy fire. The smoke from an exploded shell can be seen. The men in the photographic division who make the photographs for war records and for the intelligence bureau are in as much danger as the men in the trenches.

THE GRIM HARVEST OF WAR

In the midst of the desolation of war in northern France lie a German transport friver and his team, killed by a single high explosive shell.

All the blood in the body passes thru the kidneys every few minutes. This is why the kidneys play such an important role in health or disease. By some mys-terious process the kidney selects what ought to come out of the blood and takes it out. If the kidneys are not good-workmen and become congested poisons accumulate and we suffer from backache, headache, lumbago, rheu-matism or gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed at night. So it is that Dr. Pierce, of the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., advises "Washing the Kidneys," by drinking six to eight glasses of water between meals and then if you want to take a harmless medicine that will clear the channels and cure the annoying symptoms, go to your druggist and get Anuric (double strength), for 60c. This "Anuric," which is so many times more potent than lithia—will drive out the urle acid poisons and bathe the kidneys and channels in a soothing liquid. If you desire, write for free medical advice and send sample of water for free examination. Experience has taught Doctor Pierce that "Anuric" is a most powerful agent in dissolving uric acid, as hot water melts sugar. Send Dr. Pierce 10c for trial package.

Remembered His Arithmetic.

Another thing that will puzzle our soldiers is English money. One time an American who was the worse for drink was traveling in a railway carringe when the guard asked for his ticket.

"Got none! Lemme 'lone!" maundered the Yank.

The guard took out his ticket sched-"Five and six, please," he said

"Whazat?" queried the tipsy one. "Five and six, please," repeated the

"Eleven," said the Yank, "Now move along to the next boy."

Heals Running Sores and Conquers Piles.

Also Stops Itching of Eczema as Soon as Applied.

"I feel it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year. I began to use Peterson's Ointment three weeks ago and now it is healed."—A. C. Gilbrath, 703 Reed St., Erie, Pa.

I'd rather get a letter like that, says Peterson, than have John D. Rockefeller give me a thousand dollars. It does me a lot of good to be able to be of use to my

fellow men.

For years I have been selling through druggists a large box of PETERSON'S OINTMENT for a trifle. The healing power ointMent for a trifle. The healing power in this ointment is marvelous. Eczema goes in a few days. Old sores heal up like magic; piles that other remedies do not seem to even relieve are speedily conquered. Pimples and nasty blackheads disappear in a week. 30 cents a box. Adv.

Tulsa Culture.

We hear much of the vulgarity of the newly rich, but there's none of that in Tulsa. A Tulsa matron informs us that all new furniture will have to be bought to go with "the new infant grand plano."-Kansas City Star.

To Dyspeptics: Others have found a steady course of Garfield Tea a pleasant means of regaining health. Why not you?

Explaining It.

"Money is so tight just now." "I suppose that is why it is hard to get loose change."

Lawyers would make good soldiers. Their charges would discourage the
