**Impostors and Fakers.**

Rumors have been reaching the County Food Administrator that men are going thru some sections of the country representing themselves to be food inspectors, and demanding the right to go thru the store rooms of farmers. The county food administrator is not able to say whether such impostors, and fakers have actually been at work in this and adjoining counties, or whether some persons with but little brains and less patriotism have deliberately circulated these lies. But in either case our people are warned against the man who comes to your place and represent himself to be a food inspector and seeks admission to your house and cellar. If you are approached by such a person notify the nearest home defense police and get in touch with the county food administrator. Don't give any one any information about your belongings until you are convinced that he is a person entitled to know. Don't listen to these wild cat rumors that the hirelings of the Kaiser are circulating. When some one tells you of some drastic rule that has been put into effect, demand of him his authority for such report. If he cannot give you good and sufficient authority, don't believe the story; don't tell it to your neighbor; but tell your informant that he had better be careful about circulating reports that he cannot substantiate.

These are strenuous times; we are at war; and in order to win the war, we will have to undergo hardship and submit to rules and regulations that may cause us inconvenience and suffering. But let our people be calm and patriotic, and not be carried away into a passion over lies that are being circulated. Food rules are not made without good reasons; and when they are made, let us all be willing to submit to, and obey, them, realizing that in so doing we are helping to bring this war to a victorious end for the United States.

JOHN R. JACKSON,  
Food Administrator.

**No Change in Wheat.**

Farmers and others who have been holding wheat in the hope that the price for the 1918 crop would be placed at a higher figure than for last year's crop, may now market their crop and thus help relieve the strain of the food situation. For No. 1 northern wheat in Chicago \$2 20 a bushel is paid. Seven cents a bushel is added for freight to the seaboard, making it \$2 27 at tidewater. The wheat raised in this section is No. 2 soft red, for which our local dealers will pay \$2.08.

Season 1918

Spring 1918

**LEITER BROTHERS  
OPENING DAYS**

- DRESSES - COATS - SUITS - WAISTS -

**"WOOLTEX" COATS**

The mannish Military models shown this season seem to stand at attention all the time. With patch pockets, all-round belts, military straightness and rookier collars, there's many a soldier would strive to capture such models.

But then there are others who perceptibly scorn all military advances. They seek the slim, slender silhouette from the tight narrow shoulder line, fitted waist and ripple peplum to yard or yard and a-half width about the hem, and on the way down, there may be an overskirt, draped effect or tunic, but which does not interfere with the straight line appearance.

**"WOOLTEX" SUITS**

Long Shawl Collars and narrow tailored lapels vie with one another for wide recognition. These defy any attempt at military control.

Buttons are used lavishly with clever effects, while simple but effective; spots of color are given by beautiful over-collars of silk and cotton.

Vests and vestee effects in jaunty little suits promise wide popularity.

Many of these youthful suits are shown with irregular bottoms, coming to long points in front and with ripple effects in the back.

We have seen the New York fashion openings; we know now what the new styles are; all the stores have shown their best; we know which has the loveliest things, most to our taste; Spring will be here soon and Easter just around the corner.

So, all you have to do now is to go to any of our Departments, get beautiful new styles, and then Good-bye to the old Winter ones we are so weary of—Good-bye to heavy somber old clothes and old thoughts of being "snowed in" and HURRAH for the new and the bright and delightful; you'll be all lovely again!

Treasury receipts from the sale of war-savings stamps are running at the rate of \$11,000,000 a week. Savings bank deposits in the last few years have been increasing at the rate of \$700,000 a business day.
