Season 1918 Spring 1918
LEITER BROTHERS
OPENING DAYS

- DRESSES - COATS - SUITS - WAISTS -

"WOOLTEX" COATS

The mannish Military models shown this season seem to stand at attention all the time. With patch pockets, all-round belts, military straightness and rookie collars, there's many a soldier would strive to capture such models.

But then there are others who perceptibly scorn all military advances. They seek the slim, slender silhouette from the tight narrow shoulder line, fitted waist and ripple peplum to yard or yard and a-half width about the hem, and on the way down, there may be an overskirt, draped effect or tunic, but which does not interfere with the straight line appearance.

"WOOLTEX" SUITS

Long Shawl Collars and narrow tailored lapels vie with one another for wide recognition. These defy any attempt at military control.

Buttons are used lavishly with clever effects, while simple but effective; spots of color are given by beautiful over-collars of silk and cotton.

Vests and vestee effects in jaunty little suits promise wide popularity.

Many of these youthful suits are shown with irregular bottoms, coming to long points in front and with ripple effects in the back.

We have seen the New York fashion openings; we know now what the new styles are; all the stores have shown their best; we know which has the loveliest things, most to our taste; Spring will be here soon and Easter just around the corner.

So, all you have to do now is to go to any of our Departments, get beautiful new styles, and then Good-bye to the old Winter ones we are so weary of—Good-bye to heavy somber old clothes and old thoughts of being "snowed in" and HURRAH for the new and the bright and delightful; you'll be all lovely again!

the committee before the dinner was announced to be over \$25,000. Pledges for contributions to be given before February 28, were announced to total \$60,000.

Within a few days a commission of experts on agriculture, sanitation, engineering and building will leave England under the auspices of the British government to proceed to Palestine to begin restoration work. In all the larger centers in America, Jewish workmen and trades men in considerable numbers are organizing for pioneer work in the Holy Land. The delegations from Chicago—their number hard to prophesy, but it is believed they will total in the thousands—will start for Jerusalem as soon as conditions for sea travel permit.—"Chicago Daily News."

The CORRECT TREATMENT FOR COLDS

Colds are contracted when strength is lowered and the inflammation easily develops bronchitis or lung trouble, while grippe and pneumonia frequently follow and any cold should have immediate treatment with

SCOTT'S EMULSION

which first builds up the forces by carrying rich nourishment to the blood streams and creates real body warmth. Its cod liver oil is the favorite of physicians for correcting bronchial disorders and chest troubles.

The imported Norwegian cod liver oil always used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities.
