MECK TROUPE.
Mr. Meck Troupe passed away suddenly at his home in Kearney, Neb. on Saturday evening, March 9, 1918. He was born near Clear-spring, Md., June 21, 1854. His father purchased the tannery property now owned by Paul Wagner, and resided in McCon-nellsburg from 1864 until 1868, and Meck is well remembered by the boys of his age during that time.

Joseph F. Barton, a former well-known citizen of Fulton County, died at his home in Ya-kima, Washington, Friday, Feb-ruary 15, 1918. Funeral services were held on Sunday afternoon, after which the remains were shipped to Minneapolis, Minn., and laid to rest in the Barton family plot.

Written for the News by I. W. Zimmerman
The time is now here that we American people must ask our-selves the question, "What Can We Do to Win the War?" We as a free people, should think of the world war with seriousness. If the war is to be won, autocrac-y to be wiped from the face of the earth, and the banner of democracy to float in every land, the responsibility is up to Amer-ica. America, with its vast resources can do it, if we as a people, put our shoulders to the wheel. However important may be the work of the boys in the trenches, the fearless aviators in the skies, the intrepid lads in the submarines under the seas—un-less the farmer does his bit in-telligently, determinedly, and furnishes the staff of life to all these military arms of the Gov-ernment, the war must be a fail-ure.

To the teachers of Fulton Coun-ty:—I was appointed some few weeks ago one of a committee of three by Hon. D. H. Patterson to help organize a force in Ful-ton County to make a drive to in-crease the Red Cross fund.

In the continuation of my ar-ticle of last week I wish to give you an idea of the value of the trees the Department of Forestry are giving away free to all those who will plant and care for them. To do so a short account of the Nursey work is necessary. The trees are raised from seed in nursery beds 4 feet wide and 100 feet long. The seed is sown broad cast and in rows and the trees are kept in the beds for 2 or 3 years. They are then lifted packed, and shipped in bundles of 50 and 100 trees to the place of planting. The trees are now 6 to 18 inches tall with roots 5 to 10 inches long, and a thousand trees will weigh 15 to 20 pounds.

Mr. Howard Heinz, Federal Food Administrator for Penn-sylvania, calls upon the patriotic farmers of this county to sell all the wheat now in their hands, in the following telegram to Mr. John R. Jackson, County Food Administrator:

The March Term of Court opened at 2 p. m. Monday, with Hon. Donald P. McPherson and his associates Hon. William Mel-lott and Hon. Geo. B. Mock on the bench.

Meck was married to Miss Elizabeth Taylor, of Pratt City, Kans. who survives, together with the following sons and daughters: Harry and Lewis, residing near Kearney; Cath-arine, married and residing in Oklahoma; Marie and John at home.

Joseph F. Barton was a son of Baltzer and Nancy Chilcote Bar-ton, and he was born in West-moreland county, Pa., in 1852; hence at the time of his death he was aged about 66 years. When two years of age his parents re-moved to this county, where he grew to manhood, attending the rural schools, graduating at the Cumberland Valley State Normal in 1874. He taught several years in the public schools of Fulton County, served as County Super-intendent in the same county from 1881 to 1887, later serving as Vice Principal of the C. V. State Normal for a number of years, when he went to Yakima, and soon became identified with the city's interests, and was elected to the Mayoralty of that city, which shows his popularity and the appreciation of his worth as a citizen.

While it is true that farmers generally are fully awake to the food situation, and heartily in sympathy with the effort to con-trol and conserve that which will be most needed abroad, the sea-son is here when he must not only think but act. Let us, as farmers, ask ourselves the ques-tion, "Can we not, this season, cultivate a few more acres of corn, oats, buckwheat, or pota-toes?" Some of you will say "Potatoes are no price." But, listen! We must have meat and eggs. Cook the potatoes, feed them to the hogs and chickens, and sell the wheat and corn for flour. Of course, the question of help arises, and the price of farm machinery is so high, that the farmer with limited means is seriously handicapped; but, in the face of all this, do not be discouraged. If we cannot do all we would like to do, let us do the next best thing, and do it with the determination of being of some account in helping to win this war, and in protecting our families and our property from the horde of Huns whose motto is, "Might is Right."

Since my appointment, I have visited many of the schools, and there made speeches to the chil-dren, stating that this drive would be made in April. I also found a number of persons who were willing to take up the work of solicitation. To all persons, I wish to say that Mr. Patterson has been informed that this drive has been postponed until May.

"In order that we may comply with the urgent demands of the Allies for wheat and at the same time take care of our own do-mestic supplies, we urgently need this year an earlier and more com-plete marketing of the wheat in farmers' hands than usual. The Allies are taking from us fifty percent of other cereals than wheat to mix in their bread. In-as-much as the people in Allied Countries and the soldiers must be fed with bread baked in bak-eries, it is impossible for them to prepare bread made wholly out of other cereals, and we must fur-nish them with sufficient wheat to maintain their bakery loaf.

"I, therefore, appeal to all of the farmers in the State of Penn-sylvania that they shall bring all of their wheat except their neces-sary reserves for seed to mar-ket before May first. This is a War call and a service for Uncle Sam, who is fighting for his life. If your local miller is unable to buy all the wheat that is offered, market it in the other customary trade channels, through which it will reach the Food Administra-tion Grain Corporation.

The Grand Jurors were then called, twenty-two answering, and E. H. Kirk of Taylor was ap-pointed foreman. After the usual charge the grand jurors retired to their room and before 4 o'clock returned two true bills, both mis-demeanors, and they were dis-charged with the thanks of the Court.

Meck Troupe was a prominent citizen in his state. A few years ago he was elected County Treas-urer, when he retired from the farm went to Kearney, and after having served two terms in that office, he became identified with the banking business in which he was engaged at the time of his death. He was a brother of Mrs. D. M. Kendall of this place and visited in the Kendall home about eight years ago.

Dr. Barton was unmarried, and he is survived by three sisters and five brothers: Mrs. W. H. Bohn, Mrs. W. M. Watt, and Mrs. W. B. Dudley—all residing in Yakima; two brothers, Elijah B. and William H. reside in Min-neapolis; Humphrey B., in St. Paul; Dr. George, in Florida, and Albert in Iowa.

I wish to say to the teachers who have heretofore subscribed to the Red Cross fund, that our duty does not end with the first sub-scription, I subscribed to the Red Cross fund in the fall. I again subscribed in the winter. I shall subscribe this spring, and every time asked, so long as necessity requires.

I expect to contribute to the coming drive as liberally as cir-cumstances shall permit. I feel that it is my patriotic duty to con-tinue subscriptions as long as Red Cross funds are needed, and what ever devolves as a patriotic duty upon me, certainly rests as a pa-triotic duty upon every teacher in our county.

The expense of growing the trees is about \$2 25 a thousand. If you were to purchase the same stock from a commercial nursery, they would cost you from 5 to 9 dollars a thousand.

It is announced that machinery for the vigorous enforcement of the regulations on the selling price of wheat mill feeds has been set up, and that we will receive complaints in this matter, and promptly investigate all cases.

There were no civil nor crimi-nal cases for trial, and the Petit Jury after being called, were notified that they were not need-ed.

NEWTON C. SUMMERS.
Newton Clinton Summers died at his home in Tod township, Monday afternoon, March 18, 1918, aged 46 years, 3 months and 13 days. The funeral took place yesterday afternoon and interment was made in the ceme-tery at the McConnellsdale Brethern church in Tod town-ship.

The deceased was a member of the Presbyterian church and a member of the Masonicfraternity. With the death of Dr. Barton, Fulton's County County Super-intendents serving prior to 1887, have all passed to their final re-ward.

To the people of Fulton Coun-ty in general:—It matters not what may be your nationality. It matters not what may be your opinion about the war, no matter about conscientious scruples as regards the war—The Red Cross society was not organized in the interests of war, but in the in-terest of humanity. For this reason, it seems to me, no one can be a conscientious objector to contributing to the Red Cross work.

I take this method of asking your hearty cooperation, because it is impossible for me to reach all schools before their close.

WHAT TREES TO PLANT.
One should always plant the valuable timber species as it re-quires no longer to grow a good tree than a poor one. White pine is the most valuable tree we have in Pennsylvania and we should always remember the fact that white pine must be grown from the seed, and will not reproduce itself like oak and chestnut.

It is announced that machinery for the vigorous enforcement of the regulations on the selling price of wheat mill feeds has been set up, and that we will receive complaints in this matter, and promptly investigate all cases.

Goldie Sipe Miller, minor child of A. J. Sipe, late of Licking Creek township, presented her petition for the appointment of a guardian, and made selection of Robert Miller, and the Court made the appointment directing bond to be given in the sum of \$1500.

The deceased was a son of the late George and Catharine Sum-mers. He was married to Miss Rose, a daughter of Mr. and Mrs. Thomas Evans, of Sixmile Run, Bedford County, who survives, with the following children: Mary, wife of Scott Hartle, Pittsburg; Clem, Margaret, Sarah, George and Mabel, at home; also, brothers and sisters: Edward, Steele, N. Dak.; William Marcus Hook, Pa.; Otho, Sixmile Run, Pa.; John, Sidney, Iowa; Hezekiah, Sixmile Run, Pa.; Mary, wife of George N. Sipes, near Hustontown; Effie, wife of Frank Tenley, Sixmile Run; Ar-bella, wife of S. C. Yeakle, Han-cock, Md.; and Minnie, wife of Thomas Leasure, near McCon-nellsburg.

Under date of March 11th, James D. Hoop, one of the four boys who composed the first in-gredient to leave Fulton County for Camp Lee, writes as follows: I guess you think I have forgot-ten you and the good old FULTON COUNTY NEWS, but such is not the case. It is useless to tell you that I have been very busy, for the 80th Division is getting ready to "go over." It looks now like I would not be lucky enough to go along, for I was transferred over a month ago from the 305th Eng. to the 3rd to train the men who have just come in.

In fact, the Red Cross work has but one object, namely, to relieve the suffering of mankind.

May I call upon the teachers whose schools I have not been able to visit since my appoint-ment, to explain to the children under their care the meaning of the Red Cross work and why it is carried on? May I ask you to ex-plain to the boys and girls how the funds are applied?

We do not advise extensive plantings of Hardwood species as the oaks, walnut, and chestnut because the lumbered areas will continue to supply these species if forest fires are prevented from burning over the land. You there-fore, must plant the species of value in the lumber markets which will not reproduce them-selves, except from seed. These species are White pine, Pitch pine Norway spruce, Red pine, and Scotch pine. The Department of Forestry can supply you, in addition to the above species, White ash and European larch. All of the above species will grow well in Fulton County and can be found growing on State land in Aughwick Valley.

The County Food Administra-tor has secured from the State Food Administrator permission to continue the flour report card in this week's county papers. It is very important that every family in this county turn in one of these flour report cards show-ing the number in family over 12 years, and the number under 12 years, the amount of flour on hand, and the amount of wheat flour needed when one half sub-stitutes are used. In other words the amount of wheat flour needed for thirty days when used ac-cording to the 50-50 rule would only be one half of the amount of flour required. All reports should be in the hands of the County Food Administrator on or before Tuesday the 26th of March.

Mildred L. Sipes, by her next friend Lula Sipes, presented her petition for the appointment of a guardian, and the Court appoint-ed Edgar C. Hann, bond to be given in the sum of \$400.

"Newt" as he was familiarly known, was a quiet, peaceable citizen, had lots of friends, be-cause he was friendly to every-body.

Of course, I do not dare tell you much of what is going on, but enough to say we are train-ing, and training hard; and, take it from me, it will be a sorry day for the Huns when this 80th Di- vision lands on the front line trenches.

The United States has already sent her boys to the front. Ful-ton County has sent her boys to the training camp. Some of these will, doubtless, soon reach France, and it is sufficient to say that we can never repay them with our dollars for the great sacrifice these young men are willing to make, but we ought not, to hesi-tate to spend our dollars to make them as comfortable as possible and to show our just and due ap-preciation to them for their will-ingness to serve their country.

In conclusion, may I again ask that when the drive shall be made that you contribute as liberally as circumstances permit.

I would recommend planting the above species in mixed stands as White pine, Scotch pine, and Pitch pine together; White pine, Red pine, and Norway spruce to-gether; White pine, European larch, and Red pine together; White pine, and Red pine, to-gether; White ash with one of the pine species. The character of the location, soil conditions, and altitude, are the determining factors in selecting the proper species to plant. I am very well acquainted with soil conditions in the County and will suggest the species for you if you de-scribe the areas you wish to plant. Many of the above species are not found growing in the County but they will grow there just as readily as the White and Pitch pines.

Accounts were then taken up for confirmation: First Account of S. W. Ander-son, one of the executors of the estate of A. H. Anderson, late of Wells township deceased. On motion of Hon. S. W. Kirk, M. R. Shaffner, was appointed Auditor to pass on exceptions and make distribution. Account of John L. McElivee, one of Execu-tors of A. H. Anderson, late of Wells township deceased. M. R. Shaffner, appointed Auditor to pass on exceptions and make distribution.

Petition of the County Com-missioners was presented asking that all proceedings for a view of the workmanship of the County Bridge over Tonoloway Creek, be set aside. Order made as prayed for.

MARY E. MILEY.
Mary E., daughter of Mr. and Mrs. Benjamin Miley, died at their home at Thomastown, Ayr township, on Monday, March 18, 1918, aged 6 months. The fu-neral took place yesterday morn-ing and interment was made in Union cemetery.

Mr. Phineas Runyan, of Need-more, is spending a few days with friends in town. It has been seven years since Mr. Runyan was in McConnellsburg and he notices many improvements.

Now, just a few words to those who have but a small plot of ground. Produce all you can. Don't say you can't buy it cheap-er than you can raise it. Remem-ber that it is your duty to help make the earth yield forth her increase to the uttermost bushel, that it may be sent to the seaboard, thence across to our boys in France, and to the fam-ilies of our allies whose bread winners have been taken from the farms and are now standing in the trenches shoulder to should-er with our boys helping to pro- tect their homes and our homes.

The Red Cross work has but one object, namely, to relieve the suffering of mankind.

HOW TO PLANT.
I will supply every person who asks, with a copy of our Bulletin No. 15 on "Reforesting Penn-sylvania's waste land What a and How to Plant". This Bulletin gives you detailed information that is impossible for me to give you in this article. If you use a team and plow in planting the trees, it will only be necessary for you to draw furrows and plant the trees in and along the edge of the furrow. If the plant-ing is done by hand a mattock is used in making the hole. One good blow with the mattock usu-ally suffices for making the hole. The tree is then planted in the hole by covering the roots with earth and packing the earth with a stone held in the hands of the planters. A crew of 10 would be used as follows. 4 men would dig the holes, 2 boys would drop the trees, and 4 men would do the planting. Girls and women can

take the place of men in planting. A crew thus divided would plant 70 trees each, every hour, or 7000 trees per day. If a plow and team was used the same crew would plant 15000 trees a day. In Aughwick Valley it never cost us more than \$2.00 a thousand to plant, and some time a great deal less.

Petition of the County Com-missioners was presented asking for permission to surren-der the powers contained in its charter and an order and decree for dissolution of the corporation. Order made by the Court as prayed for.

Meat Thieves.
On Monday evening of last week, Milton Kline and family, near Harrisonville, went to As-bury M. E. church to attend re- vival services then in progress at that place. During their absence from home some miscreants stole nine pieces of meat from their smokehouse, eight of the pieces being fine hams and the ninth piece—a shoulder. The meat thieves were tracked through the field and down Pat-erson's Run until they came up in the Lincoln Highway. Unless present clues fall, there are like-ly to be some interesting develop-ments soon.

Glenn Yonker and Ross Barn-hart, two Bethel township boys, enlisted in the Aviation Squadron, left for the Kelly training field near San Antonio Texas, last Wednesday, and expected to reach their destination Sunday.

Miss Hege Advanced.
Miss Ethel M. Hege of Mecers-burg, daughter of H. B. Hege of Hege & Myers, merchants, has accepted a position as teach-er in the high school of Chester, Pa. Miss Hege has been teach-ing the Union grammar school in Montgomery township but has been released by the Montgomery board and will go to her new position in a few days. She is a graduate of the Shippensburg Normal School in the class of 1917.—Public Opinion.

Meeting at McKendree.
A community meeting will be held at McKendree church in Brush Creek Valley at 1:30 o'clock next Sunday afternoon for the purpose of organizing an auxiliary to Fulton Chapter of the American Red Cross Society. Addresses will be made by Hon. S. W. Kirk, Hon. John P. Sipes, Food Administrator John R. Jackson and others. There are only three townships in the Coun-ty that have not taken up the Red Cross work with enthusiasm, and Brush Creek is one of them.

John R. Jackson, County Food Administrator.

Flour Reports Continued.
The County Food Administra-tor has secured from the State Food Administrator permission to continue the flour report card in this week's county papers. It is very important that every family in this county turn in one of these flour report cards show-ing the number in family over 12 years, and the number under 12 years, the amount of flour on hand, and the amount of wheat flour needed when one half sub-stitutes are used. It is very important that every family in this county turn in one of these flour report cards show-ing the number in family over 12 years, and the number under 12 years, the amount of flour on hand, and the amount of wheat flour needed when one half sub-stitutes are used. In other words the amount of wheat flour needed for thirty days when used ac-cording to the 50-50 rule would only be one half of the amount of flour required. All reports should be in the hands of the County Food Administrator on or before Tuesday the 26th of March.

John R. Jackson, County Food Administrator.

Accounts were then taken up for confirmation: First Account of S. W. Ander-son, one of the executors of the estate of A. H. Anderson, late of Wells township deceased. On motion of Hon. S. W. Kirk, M. R. Shaffner, was appointed Auditor to pass on exceptions and make distribution. Account of John L. McElivee, one of Execu-tors of A. H. Anderson, late of Wells township deceased. M. R. Shaffner, appointed Auditor to pass on exceptions and make distribution.

Over three weeks ago, three pieces of meat and a can of lard were stolen from the premises of William Swope near the Sideling Hill Christian church.

Mr. Phineas Runyan, of Need-more, is spending a few days with friends in town. It has been seven years since Mr. Runyan was in McConnellsburg and he notices many improvements.

Miss Hege Advanced.
Miss Ethel M. Hege of Mecers-burg, daughter of H. B. Hege of Hege & Myers, merchants, has accepted a position as teach-er in the high school of Chester, Pa. Miss Hege has been teach-ing the Union grammar school in Montgomery township but has been released by the Montgomery board and will go to her new position in a few days. She is a graduate of the Shippensburg Normal School in the class of 1917.—Public Opinion.

John R. Jackson, County Food Administrator.

Flour Reports Continued.
The County Food Administra-tor has secured from the State Food Administrator permission to continue the flour report card in this week's county papers. It is very important that every family in this county turn in one of these flour report cards show-ing the number in family over 12 years, and the number under 12 years, the amount of flour on hand, and the amount of wheat flour needed when one half sub-stitutes are used. In other words the amount of wheat flour needed for thirty days when used ac-cording to the 50-50 rule would only be one half of the amount of flour required. All reports should be in the hands of the County Food Administrator on or before Tuesday the 26th of March.
