Maynard Brewer.

A telegram received by Mr. and Mrs. D. E. Little from Miss Lillian Brewer, conveyed the intelligence that her brother Maynard had died in a hospital in San Francisco, last Sunday noon. On account of the serious illness of Maynard, Miss Lillian went to his bedside about three weeks ago. The funeral took place Tuesday and interment was made in a cemetery at that City.

The immediate cause of Maynard's death was cancer of the stomach. He was aged about 28 years. He is survived by his father John Brewer, formerly of Thompson township, this county, and by four sisters, namely Bertha, wife of John Mann, Clearspring, Md.; Reba, wife of Howard Heckman, Hagerstown, Md.; Miss Catherine, Hagerstown and Miss Lillian, who has been living, during the past four years in the home of Mr. and Mrs. D. Miss Alice Cutchall goes to State College; Miss Jessie, to Shippensburg Normal, and Miss Elizabeth Hixon, to Juniata College. The girls did splendid work—never has better work been done in our schools.

CLEAR RIDGE.

This community was visited last week with the worst snow storm within the memory of the oldest inhabitant. It fell to the depth of 18 inches on the level, and if it had not melted so fast the first day, it would have measured two feet or more. Almost as soon as it quit falling the clouds cleared, the sun came out and chased it away in great shape; but it left the roads in a bad condition. We had no southern mail from Tuesday until Saturday. Farmers who had hustled along during the fine weather in March and early April and had their oats in the ground, are now feeling a little blue.

Mrs. Susan Mowers, who had been spending the winter with relatives in Chambersburg has returned to Clear Ridge for the summer.

S. C. Henry, who had been living at Dudley, came back to Fulton County and will take charge of his father's farm this summer.

Clarence R. Shore, who spent the last three years in McConnellsburg, painting and paper-hanging, has put his brushes to soak and moved upon his farm near here, where he will help to win the war by producing that which will keep the boys from getting hungry in the front line trenches.

Fred Carmack, Ralph Ramsey, Roy Booth and Roy Fleming were called to appear before the Draft Board at McConnellsburg. The boys are likely to get their fare paid on a trip to see the Kaiser before many days.

Quite a little excitement, prevailed in our usually peaceful little village last Saturday evening. A certain young man took it upon himself to cuss the President, and to say he would just like to have the opportunity to chuck the President's head into a snowdrift. This was too much for our red-blooded boys to stand, and in a pair of minutes the young pro-German felt, not only his head, but his entire body rammed into the aforesaid snow drift in a manner that was not as gentle as putting a baby to sleep. When the victim's brother came tearing up with his coat partly shed to help his brother out, and saw the peeling of outer garments going on among the boys that had his brother in charge, he decided to retreat while going was good. It is to be hoped that this little episode may be a warning, and save others from falling into the hands of Government officers.

On last Sunday a week, our Sunday school superintendent, took occasion to criticize the Government and to make remarks that were not likely to foster a patriotic spirit in these present. This was much resented by the boys, and there is likely to be a "scene", if it be repeated.

Wheat Substitute Problem Solved by College Experts.

The ruling that every pound of flour purchased be accompanied by a pound of wheat substitute has raised the difficult problem of choice and use of substitutes. Conditions will of course control selections but a variety is generally best for the average family—for example, corn meal, corn starch, hominy, rice, barley, oat meal, rolled oats and tapioca.

For a light, palatable, digestible loaf of yeast bread, only one fourth or at most one third of the wheat flour may be replaced by a substitute. Muffins, pancakes and other quick breads may easily be made "fifty fifty". Pastry and cakes are satisfactory made with two-thirds or three fourths wheat and the remainder a substitute. Since bread, cakes and pies will permit of only a small amount of substitution, some other method must be found.

What Does "War Time" Mean To You

Are you complaining because "war time" means coal shortage; less sugar in your coffee; bad business; less money than you think you ought to make?

What about the boys who are fighting for you in France?

The Third Liberty Loan

is your opportunity to prove the patriotism that is in your heart and on your lips. Your opportunity to show yourself worthy of the heroism, the devotion, the self-renunciation of your soldiers and sailors. Your opportunity to share, in some small degree, the sufferings of those who stand ready to make the supreme sacrifice for you. All you can do is little enough. You simply lend your money. Do it, and be glad that you can do so much and sorry you can do no more.

What are you doing, or giving, or sacrificing for them?
