A Soldier's Strength

Every enlisted man would stand up stronger during the first year's service if he could have the benefits of

SCOTT'S EMULSION

because it fortifies the lungs and throat, creates strength to avoid grippe and pneumonia and makes rich blood to avert rheumatic tendencies.

Send a bottle of SCOTT'S to a relative or friend in the service.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

Attention is called to the new advertisements in this week's paper. If you haven't bought your binder twine, read Geo. B. Mellott's; if you need clothing for summer wear, shoes, hats—anything from a shoestring to a rope halter scan the Racket Store's advertisement; if you are interested in diamonds or fine jewelry, read Shinneman's; and Huston's big four-column ad on the last page puts you next to everything from a wheelbarrow to a traction engine or war truck.

Roy W. Layton brought Constable Andrew Bishop and Harry Bishop to town last Friday afternoon in his Chevrolet. Harry came up to board with Sheriff Garland awhile, and he was accompanied by Andy. Web's next move was to have Harry arrested. Harry has the next move.

Mr. and Mrs. J. E. Veatch and their son Herold motored to McConnellsburg last Friday in their new Oakland-Six. We have sold our farm and bought a property in Delmar, and I have gone back into the shop again. We moved about two weeks ago. Starting Spring Pigs.

Considerable trouble in buying wheat middlings is being experienced by farmers. The growing scarcity of middlings and bran is attributed to two causes. First, that wheat is being milled closer. Second, that product is not sold direct as such but mixed with cheap such as ground screenings and other mixed feeds, it nets the miller more money.

"Unless some way is found to keep middlings on the market in an undiluted form, the swine industry will suffer," says Dr. John N. Rosenberger, farm adviser of the Pennsylvania Department of Agriculture. "Many farmers are at a loss to know how to get their spring pigs started to grow without wheat middlings in the ration.

"A good mixture to feed either dry in self feeder or as well to young pigs, is two parts wheat middlings, one part hominy feed, one part blood meal or high grade digester tankage in addition to this shelled corn soaked in milk will prove valuable. While pigs are still with the sow, an abundance of succulents, such as beets, carrots, turnips or pasture should be supplied to induce liberal flow of milk.

"Every effort should be made to have the pigs eating well at weaning time so that no check will occur in growth at this time."

Interest in Red Cross work, War Savings and Thrift Stamps, is not lagging in this community by any means.

We appreciate very much the letter from Howard B. Knepper in the NEWS of April 18th. Parents and teachers cannot be too careful of the example set before young people. The impressions made upon youth are very lasting—whether they be for good or for evil.

United Doctors Specialist

Brings the knowledge of a Great Medical Organization and Their Experience in the Successful Treatment of

Thousands of Chronic Disease Cases

OFFER SERVICES FREE OF CHARGE

Licensed by the State of Pennsylvania.

The United Doctors is an organization of reputable, licensed, physicians for the treatment of certain diseases.

They are all specialists. The United Doctors treat, without Surgical Operations or hypodermic injections, diseases of the blood, skin, and all internal organs, rheumatism, tapeworm, leg ulcers, weak lungs and all long standing, deep seated diseases.

Thirty-five years' experience and all complete records of thousands of cases successfully treated prove that the methods of the United Doctors are right. They were among the first to be called "Bloodless Surgeons."

Each member of the United Doctors staff has at his command the knowledge and resources of the whole organization.

Many people go on suffering from diseases that can be alleviated just because they cannot afford to go to high priced specialists at a distance from home.

No community has a sufficient number of sufferers from the diseases mentioned to support special hospitals for their treatment and care.

The United Doctors have solved the problem. Their highly trained specialists travel from place to place. They diagnose and prescribe a course of treatment for the sufferers in each community and teach them how to take care of themselves at home.

Worn-out and run-down men or women, no matter what your ailment may be, no matter what you have had with other physicians, if your cases is incurable they will tell you so. Consult him upon this visit. It costs nothing.

Married ladies must consult their husbands and minors with their parents.
