A Good Friend.

A good friend stands by you when in need. McConnellsburg people tell how Doan's Kidney Pills have stood the test. Miss Susan Peightel of McConnellsburg endorsed Doan's six years ago and again confirms the story. Could you ask for more convincing?

"I was in poor health for some time and weak kidneys caused the trouble; says Miss Peightel. "I suffered greatly from severe pains in my back which often darted into my head. I often became dizzy and had chills. I was losing strength right along and felt poorly and miserable in every way. Doan's Kidney Pills, which I got at Trout's Drug Store, brought me quick relief." (Statement given November 5, 1907)

Over Six Years Later, Miss Peightel said: "Whenever I use Doan's Kidney Pills. They always relieve me."

60c. at all dealers. Foster Milburn Co., Mfrs., Buffalo N. Y.

Sow Buckwheat If Corn Failed.

In many sections of the State the farmers who failed to test their seed corn are finding that the germinating qualities are very poor and that less than half of the seed has grown, making a decidedly poor prospect for a crop. During the early spring the Pennsylvania Department of Agriculture urged all farmers to test their seed corn, but there were many who did not heed the advice and some are left with very little prospect of a corn crop.

Secretary of Agriculture Chas. E. Patton is appealing to all farmers not to have an idle acre this season where it is possible to grow some kind of grain and he suggests that farmers who have found that their corn did not germinate, turn their attention to buckwheat. Many farmers are making the discovery of the failure of their corn seed too late for replanting, but the same fields can be successfully turned to buckwheat and sown with safety in most sections of the State until the first of July.

The Bureau of Markets of the Department of Agriculture at Harrisburg has a large quantity of buckwheat seed on sale and farmers desiring seed are requested to make their reservations at once.

HIRAM.

Some of our young people attended a play at Hustontown on Saturday evening, and others attended the Red Cross festival at Gracey.

Samuel Laidig has gone to Columbus Barracks, Columbus O. to begin work in the Aviation Department of the U. S. Army. Howard Kirk has been called to be ready to enter the Aviation Department of the U. S. Army June 15th.

Floyd Price, who has been employed at Minersville has been at home the past few weeks while the mines were idle.

The greater number of men who have gone to the war from this immediate vicinity are enlisted men. Some of them have been in France for several months.

All of our farmers are very busy cultivating ground for buckwheat.

DIAGNOSTICIAN

Specialist in Chronic Diseases. Acute diseases get well of themselves or run into chronic form. There is always a cause and you can not get well until the cause is removed. Cause and effect is the great law of nature. You know the effect—find the cause. Send me your name and address and let me study your case. Consultation Free

GAITHERSBURG, MD.

June 3.—Good old summer time is here and every one seems to be busy gardening.

Jacob Hammon and wife were visiting friends in the 'burg last Thursday.

George Gardner and wife, and Ernest Gardner and wife, were recent callers in the home of Millard Gardner.

Sergt. Marshall E. Golden, of Camp Meade, called on his friend Miss King last Saturday.

Harry Phoebus has moved his family to Washington.

A. C. Golden of Washington made a business trip to the 'burg last week.

Mrs. Jacob Gardner has returned home after spending some time with her sister in Virginia.

Dr. H. B. Haddox expects to take Mrs. E. A. Hoopengardner to a hospital in Washington for consultation and treatment for throat trouble.

Miss Irene Andrews is able to be out again after suffering from an attack of measles.

Charles Eider and family spent Sunday in the home of Mrs. Eader's sister. Charles has treated himself to an automobile.

R. E. Eader is improving nicely from the accident he had when the spider he was riding on collided with a freight engine. He escaped with a broken arm, several broken ribs and some very bad cuts and bruises. He was very fortunate not to lose his life. Mr. Eader is section Supervisor for the B and O R. R. and is located at Adamstown, Md.

Miss Emma Hammon has returned home after having spent several weeks with her brother at Sandy Springs, Md.

The Stork called at the home of Weller Hammon and left a fine boy, and a nice little girl in the home of Herbert Gardner.

Recent visitors in the home of Mr. and Mrs. E. A. Hoopengardner were, Mr. and Mrs. Clyde Andrews and daughter Irene, Mr. and Mrs. Jacob Hammon and two children, Mrs. Crawford, Rev. Winger, Mrs. Harry Smith and baby Annie Elizabeth, and the Misses Dorothy Haddox, Lillian Ross, Eva Eary, Lula, Minnie, and Helen McBain, Mr. and Mrs. Frank Reed and son Franklin, of Germantown, Md., and A. C. Golden of Washington and Mrs. R. W. Murphy.

Spray Potatoes.

Pennsylvania's potato crop has suffered heavy losses each year in the past from attacks of insects and diseases; reducing the crop by millions of bushels.

Under war conditions we can not afford to feed destructive bugs and blights with a valuable crop. Prompt and thorough spraying should be done at intervals after the plants are four to six inches high until maturity.

Spray with a combination mixture for control of both insects and diseases with a simple application. Bordeaux mixture is made of four pounds of blue vitriol copper sulfate dissolved in 25 gallons of water and four pounds of fresh lime slaked and strained into 25 gallons of water. These solutions must then be poured together meanwhile stirring them rapidly. Add two pounds of powdered lead arsenate (or 4 lbs. of paste) and spray immediately for the mixture deteriorates within a few hours.

Applications of this combined spray at intervals of 2 to 3 weeks will control the potato beetle, the tiny black flea beetles and early and late blight and rot.

Pasture for the Young Colt.

If this year's colt is to be developed into a good horse, now is the time to begin. If the weather will permit, the young colt and its mother should be kept on pasture as much of the time as possible. Life on pasture increases the milk flow of the mother and permits the young colt to get the necessary exercise for its development, says Dr. I. D. Wilson, of the Pennsylvania State College animal husbandry department. Moreover, the colt will be freer from disease if kept away from stables that are likely to be unsanitary. Later in the summer when the flies begin to bother, a partly darkened shed of some sort is beneficial to protect the animals from the sun and flies. If a shed is not available, shade trees answer the purpose very well. Plenty of cool pure water should always be at hand.

A Great Agricultural Corporation.

The interesting and important announcement has been made that a corporation with a capital of two million dollars has been organized for the cultivation of wheat on four Indian reservations in the States of Montana and Wyoming covering an area of from 150,000 to 200,000 acres.

This remarkable enterprise has been financed at Secretary Lane's suggestion by certain New York bankers who have been actuated rather by patriotic than commercial motives, but apart from its relation to the war, it constitutes a new departure of exceptional consequence, and the outcome may have a far-reaching influence on our national life. Every thoughtful and forward looking man must have been impressed by the circumstance that the great problem of a secure and sufficient food supply for a rapidly growing population, which, despite every effort to the contrary, still tends to concentrate in urban centres, has not yet been satisfactorily solved.

Agriculture is the most essential and the greatest of our industries and yet it is the only one to which the processes of organization and cooperation and capitalization have not been applied. Except for the much better tools of every kind which modern ingenuity has provided, and without which the food required for the sustenance of one hundred million people could not possibly be produced, the cultivation of the soil is carried on under substantially the same circumstances as have prevailed from time immemorial. It is carried on by individuals whose methods are apt to be unsystematic, whose expert efficiency is not very great and who seldom have at their command the capital they need for the necessary extension of their activities and for the achievement of the best results.

In the reform of these conditions there are many difficulties to be overcome, but those difficulties are not insurmountable and the organization of the Montana Farming Corporation may prove to have been the opening of a new era. It certainly suggests large possibilities.

Swat The Roosters Now.

Due to high prices of feed that are ruling and the annual agitation of the last several years to swat the roosters at this time, a great many poultry keepers will not need this admonition this year.

And yet W. Theo. Wittman, poultry expert of the Pennsylvania Department of Agriculture says that unbelievable as it may seem, thousands of poultry keepers and farmers will again feed a lot of worse than useless roosters good grain and feed all summer. As usual, he found this spring also, a great many more males being kept for breeders than were needed or desirable.

Under modern methods of poultry keeping usually more roosters are kept over for breeders than are desirable, as too many males usually defeat the very purposes they are being kept for. Feeding roosters good grain this summer, in war time, is almost a crime because it is not only a waste of feed, but results during the hot weather in a tremendous loss of food eggs.

Mr. Wittman asks poultry keepers to be patriotic about this rooster question this year at least and kill them off. Kill them off now. The hatching season is over too. No more chicks should be hatched this year.

War-Time Need for Black Walnut.

Colonel Henry S. Graves, Chief of the Forest Service, has written to the Boy Scouts setting forth the need for the census of black walnut trees which President Wilson has asked the Scouts to undertake. Four or five propellers are required for each airplane, the Chief Forester points out and since black walnut is scarce and only the best grade can be used for this purpose, it is important that the Government should know immediately the location of all available supplies. Walnut is also the chief wood used for gunstocks, and these two requirements, Colonel Graves says, make it one of the most essential timbers for war purposes.

Court Proceedings

The several Courts of Fulton County convened on Tuesday, 10 a. m. with Hon. Donald P. McPherson and his associates, Hon. Wm. Mellott, and Hon. Geo. B. Mock on the bench.

The following accounts were presented:

Rev. L. D. Wible and family of Blaine, Pa., spent a few days this week among their Fulton County friends.

Second Largest Wheat Crop Is In Prospect

WASHINGTON, June 6.—The second largest wheat crop in the history of the country is in prospect for this year's harvest. The department of agriculture today forecast a total of 931,000,000 bushels of winter and spring wheat combined, only 69,000,000 bushels less than the billion bushel crop the government had hoped for continuation of the ideal weather during the last month might yet procure a harvest of one billion bushels.

Dr. N. C. Trout came over from his home at Fairfield, Pa., in his new Reo-6 last Saturday and remained until Monday afternoon, when he was accompanied home by his wife, who had been spending a week in the home of the Doctor's mother, Mrs. M. B. Trout, and he was also accompanied home by his mother and sister, Mrs. Ellis L. Lynch (Irene).

Mrs. John Hoover (Jessie Nace) and daughters Marjorie and Nellie, of Chambersburg, spent the time from last Saturday until Tuesday in the home of Mr. and Mrs. Merrill W. Nace at their home on North Second Street.

RACKET STORE'S SUMMER ANNOUNCEMENT

Well, in our last advertisement, we called your attention to Dr. Hess's Remedies for all kinds of Stock. We sure have sold a lot of it, and the results have been great. A lot of people have said they never got so many eggs; never had pigs to do so well; cows to improve so in the flow of milk. From all this we cannot help feeling that where these Remedies have been tried they have done good, and no advance in the price either.

SHOES SHOES SHOES This is a line that we are proud of. We have quite a lot of shoes that there is not much advance on. We bought these goods early, and got them in, and know we can save you big money. We have in Boys' and Men's Shoes, the Military Shoe, and we saw a pair that was bought from a catalog house for \$5.00 that we are selling the same shoe at \$3.50 and \$3.85. Look at your catalogue and then come in; or, let us send you a pair the same as they do, and we know that you will be more than pleased.

Garden plows	3 25	RUBBER ROOFING	
Horseshoe rasps	40 and 45c	Just got a lot that was ordered in January at \$1 15	
Bunch straps	15c	\$1 40, \$1 95, \$2 25 and \$2 60	
Lenox soap	5c	these are bargains and	
Holdfast shoe nails	5c	went last long. We have	
Oil window shades	48c	150 rolls.	
Heavy tin wash boilers	1.65	See our Big Work Shirts	
Lawn mowers	4 75 and 5 50	at 85c.	
Men's wool and fur hats	1 00 to 2 60	We also have a nice line of	
Hame straps	13 to 30c	Ladies' and Men's under-	
Mouse traps	3 for 5c	wear, Ladies vests 10, 13,	
Rat traps	9c	15 and 25c.	
Meat saws	80 to 85c	Mens' 2 piece underwear	
Straw hats	25c and 1 25	45 and 48c	
		Men's union suits, 90c	
		Men's dress shirts 65 to 1 25	
		See our line of suspend-	
		ers 25 to 48c	

We have some nice Suits at old prices for Boys and Mens. We think it would pay any one to buy these goods while the stock lasts, as the new goods at much more money, will not have so much wool in them. Thanking you kindly for the nice increase in our business.
