**OVER THE TOP.**

The War Savings Stamps Drive Last Week Ended Gloriously For Fulton County.

That the citizens of Fulton County are filled with the war spirit up to the point of saturation is evidenced by the promptness by which they meet every call of the Government for financial assistance. Of the Liberty Loan bonds, this County absorbed more than \$200,000.00 worth, and with the closing of the War Savings Stamps sale last week, it is certain now that a like sum has been invested in the "baby bonds." This means more than \$40.00 for every man, woman and child in the County, in addition to what has been given to the Red Cross work.

On account of the fact that reports have not been received from all the school districts, the report of last week's drive is given by townships; but next week, we expect to give the report of money raised at each school house.

**Attention to Water Consumers of the Borough of McConnellsburg.**

The McConnellsburg Water Company has spent a considerable amount of money to furnish its patrons, not only an adequate but pure supply of water. By adequate you give to every consumer a supply sufficient for its needs; by pure you give a supply that protects not only the health of the borough but of the surrounding community. Each consumer knows, or should know, that this is not optional with the Water Company, but is according to the regulations of the Health and Public Service Commission of Pennsylvania. Discrimination cannot be tolerated and in order that every individual consumer can be treated accordingly the Water Company will install water meters to the individual consumer. These meters are in such simple form that every property holder can be able to calculate not only his actual consumption, but his water rate for the period as per regulations.

The asset of any community is its water supply, without this you cannot exist, and so it is with a water company without your co-operation. In order that you may thrive and the water company exist, it is necessary that the water company post new rates, rules and regulations. In McConnellsburg it is absolutely necessary that economy be practised in its water supply for the reason that the water facilities in this district are anything but simple. The more money the water company is compelled to expend to provide the consumer with a pure and adequate supply, it is but natural that the consumer must be expected to pay proportionately in order that such a water company may exist.

The water company's representatives will be at the Hotel Harris until the end of the present week and would deem it a favor if any, all at a committee designed by the consumers would call upon him for any explanation. The company also wishes to call the attention of the delinquent payers and desires to state that their representative will receive and receipt such bills as may be due. If such bills are not paid promptly, it will become the painful duty of the company to shut off the water supply to these delinquent consumers immediately.

Three temporary office buildings, providing working space for 250 persons, have been built in 10 weeks in Washington, D. C., by the construction division of the Army, without the employment of a contractor. One, a 3-story structure, 491 feet long, 260 feet wide, with a floor space of 270,000 square feet, was ready for occupancy 24 working days after the first spadeful of earth was turned.

**From Camp Lee.**

Levi H. Garland, 23 Co., 6th Tr. Bn, Infantry Replacement Camp, Camp Lee, Va., in a letter written last Saturday afternoon says: "At the end of five weeks in the service of Uncle Sam, I still enjoy the best of health. It is very warm to-day, but it was quite cool during the past week with much rain. During the past three weeks we have been putting in full time drilling, and we expect to go to the rifle range soon."

"I certainly wish that the people at home could have the opportunity of visiting a soldiers' training camp. It would be an eye-opener to some who think the Government slow in preparing men for the front. The real truth about the matter is, that the Government is working with marvelous speed."

"The Y. M. C. A. is doing great work for the soldier, and it should have the heartiest cooperation of the people at home. The person who does not support the Y. M. C. A. and the Red Cross is either woefully ignorant of what these organizations are doing for the moral, physical and spiritual welfare of the boys who have left the comforts of home, or is hardened in greed and selfishness. Our people should be proud that they have the opportunity to help in so noble a cause, instead of turning their backs upon the solicitors, as some do. If you had a son or a brother in the army, you would feel quite differently about it; and it may not be long until you have that experience. The life of a soldier in times of peace may, to some extent, be a lazy one; not so in time of war. No boy on the farm in harvest time leads a more strenuous life. There is serious work ahead, and the result will depend upon how well the boys are prepared."

"Hundreds of new recruits came into camp during the past week. When a boy first gets into camp he feels like a cat in a strange garret, but he soon becomes infected with the spirit, and wishes for the time when he can join the boys in France and do his bit to win the world for Democracy."

**The Thrice-A-Week Edition of the New York World in 1918**

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields, and this promises to be the most momentous year in the history of our entire race. No other newspaper at so small a price will furnish such prompt and accurate news of these world shaking events. It is not necessary to say more.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 150 pages. We offer this unequalled newspaper and THE FULTON COUNTY NEWS together for one year for \$2.15.

The regular subscription price of the two papers is \$2.50.
