Act Quickly.

Do the right thing at the right time.

Act quickly in time of danger.

In time of kidney danger, Doan's Kidney Pills are most effective.

Plenty of McConnellsburg evidence of their worth.

Mrs. D. Keyser, McConnellsburg, says: "My back ached constantly and the pains in my loins were so severe it was almost impossible for me to bend over. I had but little strength and my housework became a burden. One box of Doan's Kidney Pills, procured at Trout's Drug Store, cured me."

A Lasting Effect. Over two years later, Mrs. Keyser said: "Doan's Kidney Pills completely cured me of kidney trouble. I am in good health now."

Will Handle 52,000 Shells a Day.

Quantity if not capacity ship ments will start soon from a new Government shell-loading factory in New Jersey, one of four such Government plants each of which is larger than any similar plant in the world.

When turning out 62,000 loaded shells a day under full operation the plant will use 2,000 tons of shells and explosives daily, the products of some 75 factories. More than 5,000 workmen will be required. Plans contemplate the employment of a large number of women. The marking of shells to designate size, load, and range will require 250,000 operations each day.

The plant has a total area of approximately 2,500 acres. More than 100 buildings, with an aggregate floor space of 1,300,000 square feet, will provide storage for shells and parts and for material. A small city, with heating and lighting plants, water and sewage systems, hospitals, fire-fighting plant, and restaurant was built to house the employees. There is equipment to protect the health of those who work with poisonous gases, and a school for instruction in the loading of artillery ammunition with high explosives.

The operating plant consists of 13 shell loading units, each independent of the other, with equipment for loading 13 sizes of shells, ranging from the recently developed 37 millimeter to 16 inches. On two sizes of shells the propelling charge also will be loaded, the shell and cartridge case being assembled at the plant. All other shells are assembled in France.

In the construction of the shell loading units the problem was far greater than one of mere building. Immense fans have been installed to dispose of the poisonous fumes from the high explosives. When a unit is in operation the air in the loading room is changed every few minutes. Specially designed suits will be worn during work with the explosives.

The Department of Labor reports adjustment of 29 industrial disputes during a recent week. This is a record. Eleven strikes were adjusted. Included in the strikes settled was that of machinists at the Curtiss Aeroplane Co. plant, Buffalo, where 300 men quit and 15,000 were affected indirectly.

Apple Barrels 75 Cents Each.

Commercial orchard companies in West Virginia are laying in a supply of apple barrels in compliance with a warning from coopers. The barrels now cost 75 cents each. Many growers are considering handling the apples in bulk to avoid paying the high prices for containers.

RACKET STORE'S SUMMER ANNOUNCEMENT

Well, in our last advertisement, we called your attention to Dr. Hess's Remedies for all kinds of Stock. We sure have sold a lot of it, and the results have been great. A lot of people have said they never got so many eggs; never had pigs to do so well; cows to improve so in the flow of milk. From all this we cannot help feeling that where these Remedies have been tried they have done good, and no advance in the price either.

SHOES SHOES SHOES

This is a line that we are proud of. We have quite a lot of shoes that there is not much advance on. We bought these goods early, and got them in, and know we can save you big money. We have in Boys' and Men's Shoes, the Military Shoe, and we saw a pair that was bought from a catalog house for \$5.00 that we are selling the same shoe at \$3.50 and \$3.85. Look at your catalogue and then come in; or, let us send you a pair the same as they do, and we know that you will be more than pleased.
