SHOOTING ACCIDENT.

William L. Duvall, of Brush Creek Valley Loses His Life by the Accidental Discharge of His Gun.

William L. Duvall, aged about 26 years, was the victim of a most unfortunate accident Monday afternoon which cost him his life. It is said that he went out to pick some berries, and as he was passing through a thicket of hawks had been rather troublesome, he took his gun along, and in attempting to cross a fence, the gun was discharged, the lead entering his breast causing almost instant death. The funeral took place yesterday.

The unfortunate man was a son of Amos W. Duvall. On the 5th of August, 1914, he was married to Miss Pearl Mellott, a daughter of Mr. and Mrs. Geo. S. Mellott, near Sipes Mill. One son George, about 15 months old together with the almost heart-broken wife, survives.

Of the 671 men in the first Fulton County draft, William is the first to lose his life. He belonged to Class 4, and would not likely have been called into the service very soon.

From Camp Lee.

Floyd T. Hart, 34th Co., 9th Bn., 155th Depot Brigade, Camp Lee, Va., in a private letter to the Editor, says the reason he does not write for publication is, that "when there is so much to hear from the boys over there, the experiences that we have here, would be uninteresting reading; and yet I can assure you that they are interesting enough to us sometimes. I have been playing in the Third Section Band of the Depot Brigade, which probably accounts for my still being at Camp Lee; for all the boys with whom I came to camp have gone. The boys who came down last week are near me, and have given me some of the home news. Does any one accuse Needmore of being slow? If so, how about the Sar Savings Drive? It seems to me it went over all right. Of course, I shall be glad to get a letter from any one that is glad to send me one. My address is given at the beginning of this paragraph."

Chickens Starving To Death.

Reports reaching the Pennsylvania Department of Agriculture indicate an unusually high mortality or death rate among small chicks this year.

Investigation, in many cases, shows the chicks starving to death, this being especially true as to quick feathering varieties like Leghorns and where chicks are artificially brooded and reared.

Mill feeds, especially wheat by products like middlings and bran, both used extensively in chick feeding, are at present very high in price and chicks fed largely on such mill feeds and by products become anaemic, weak, diseased and die.

The discouraging thing besides has been that as the food value decreased, the price increased until many poultrymen in desperation have been driven into abandoning feeding of such mill and by-products entirely and resorting to boiled oats, cracked corn and chick and scratch grains.

Magical results have been reported by owners with unthrifty and dying chicks when they changed to a nourishing and concentrated diet as above, especially when, in addition, some animal food like sour milk was supplied in abundance.

C. A. Edwards and W. A. Martin, of Robertsdale, stopped in McConnellsburg last Saturday on their return from Waynesboro, where Charlie had been to get some repairs for his threshing outfit. He expects to be busy now for some time threshing the big crops out for Huntingdon County farmers.

Money Not Merchandise Should Be Sent Soldiers.

The question of the shipment of parcels to France first came to the attention of the war department when the commanding general of the expeditionary forces cabled that congestion of such articles had reached such a point that French railroads were unable to handle the load. A board appointed by the Secretary of War and the Postmaster General examined 5,000 sacks of parcel post mail, and found that the articles being sent not only, in the main, were absolutely unnecessary, but undesirable. The investigation showed that the amount of such mail had reached a total of 500,000 pounds a week, and was steadily increasing.

Relatives and friends, according to a recent statement by the war department, will find they often can do a greater service to soldiers by sending them money for the purchase of articles in France than by forwarding the articles. Tobacco is now being supplied as part of the army rations, and merchandise of nearly all kinds may now be purchased in France through the huge general store established by the quartermaster corps, at lower prices than charged by retailers here.

WEST DUBLIN.

Rev. Strain preached an Independent Day sermon at Fairview on Sunday forenoon. The text was Proverbs 14:34. As he couldn't preach the sermon at everyone of the six appointments before July 4th he preached the sermon after July 4th at Fairview.

We were sorry to hear of the accident to Josiah Witter which necessitated his going to a hospital for treatment. We hope he may soon recover.

A few of our people attended Independence Day celebration in McConnellsburg. Most of the people were busy harvesting, no doubt considering that, at this time, to be a patriotic duty.

Some of our people attended the play "A Southern Cinderella" at Hustontown, on Saturday evening. From reports the characters could not have been better represented.

We were sorry to learn of the accident to John B. Sipes of Hustontown and his consequent death. Mr. Sipes was one of Nature's noblemen. He could "see a brother's need by a kind word or a helpful deed." His death will be a loss to the community where he lived.

Our farmers have been getting along first rate with their harvest this year.

The sermon at the lawn service next Sunday evening will be delivered by Rev. Dr. Claypool, of the M. E. Church, Harrisburg.

Mr. and Mrs. Frank C. Hockensmith and children Paul, Elizabeth and Franklin of Johnstown, motored to McConnellsburg last Thursday and spent the time until Sunday with their Fulton County relatives and friends when they returned home, accompanied by Mrs. Hockensmith's father Mr. Thomas McClure.

Back the Government to the Limit

The Government has asked American business to pursue a certain course for the duration of the war.

Keep quality up and prices reasonable, —a strictly non-profiteering policy.

It is the only patriotic policy.

It is the policy this company has always adopted and the one we will continue to pursue.

We stand ready to undergo any sacrifice in order to cooperate with the Government. We believe it is best for ourselves.

We know it is best for our country.

We appeal to all concerns—big and small—to adopt the same policy.

American business must rally as a unit to the support of the Government.

It is the surest and quickest way to win the war.
