Army Makes Record Meat Purchase. thicago.—The largest single order of bacon and canned meats in the of the world-99,560,000 nds of bacon and 134,000,000 pounds ed meat-has just been placed Quartermaster's Department, A., for the American Army over-

Louis F. Swift, in commenting on is today, said the order will take the bacon from approximately 1,900,-000 hogs, and if other work were dropped to produce it, would be equivelent to the total bacon production of the five largest Chicago packers for nearly five weeks. However, six months will clapse before delivery is to be completed. Mr. Swift said:

"At the current prices on the day. est week, when the purchase was ede, the packers would pay the live tock producers about \$80,000,000 for the necessary hogs and over \$50,000,000 for about 900,000 cattle required. The rattle will cost us twice as much, and the hogs two and one-half times as such as in the pre-war period.

The whole order will be made up beore the first of the year, despite the fact that, even before this purchase, pe-fourth of the packers' facilities have been devoted to filling military tamends. In order to get out the anned goods the packers will find it ecessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being shed forward thus hurriedly, not a sgle complaint has been received on eats delivered to the armies abroad. The five packers are now killing best 360,000 hogs weekly to keep reast of martial and domestic needs,"

stances for the experiment-food, alcohol and hot water. After taking the food he found the heat in the interior of the body increased as the food digested-the organs of the body became filled with warm blood, and the internal temperature became con-

siderably raised. At the same time he found the surface of the body became cold. Hot water and hot ten raised the internal temperature and external temperature, but when he took alcohol a curious thing occurred. When he took it, diluted, of course, it gave him a feeling of warmth. It was the first time he had taken any for many years, and he felt that feeling of warmth, with the result that he asked himself whether they had not

been making a mistake all these years, if there was really an increased temperature within the body? When the temperature record was developed, however, it showed that at the very period he had thought his inside was being warmed by the alcohol just the reverse was taking place. The surface temperature had risen considerably, but the internal temperature had gone down. Alcohol was a deceiver. There was no doubt about it in regard to temperature. The actual temperature was falling at the time he thought it was rising. This proved that men taking alcohol before going into the night air were doing a very unwise thing, and possibly preparing themselves to be chilled .- Prof. Sim Woodhead, M. D., University of Cambridge, England.

THE SALOON THE POOR MAN'S WORST ENEMY.

All of a poor man's wealth is invested in his children. The poor man sacrifices his whole life to raise his children and hopes that when they grow up they will be a help to him in his old age. If the rich man's children go to the bad the rich man still has money to support him, but when the poor man's children go to the bad all his wealth is lost and he is left in his old age to a life of misery. The saloon is an institution that robs the poor man of his children and he ought to be against it even more than the

rich man. The rich men will not live where there are snloons. They will have their land deeds fixed up so that no saloons can be established, or they will have laws made to bar out saloons. Some Christian people ease their consciences by having laws made to keep the saloons away from the church doors; but when you drive the saloons away from the rich man's home and the doors of the church, you drive them to the homes of the poor people-the least able of all to withstand their ravages. The poor man cannot drive the saloon away from his door with money, like the rich man, for he has not the money; but he has a vote, and with that vote he can, and should, drive the saloon away from his door.-John F. Cunneen.

HOW THE BREWERS "REFORM" THE SALOONS.

The breweries control 4,952, or 70 per cent, of the licensed saloons of Chleago; own 2,232, or 34 per cent, of the licenses, and own the fixtures in 4,689 saloons, or 67 per cent of the total number. Some of the most notorious dives in Chicago have been under the actual or practical supervision of the Anheuser-Busch Brewing company.

When Mr. Busch issued his statement that the beer interests were going to reform the liquor trade, Federal Judge Landis was considering cases of several brewery agents. When he was told that the Anheuser-Busch Brewery association controlled 32 saloons in East St. Louis, Judge Landle

"Here are thirty-two saloons conessedly managed by Mr. Busch's company, and they have been steadfastly reaking the law for at least ten cears," Turning to the clerk, the judge "I want you to make a tranaid: script of the cases I have tried in this court and send it by special delivery to Mr. Busch; I think it will do him

A Wide-Awake Church

By REV. HOWARD W. POPE Moody Bible Institute.

TEXT-Awake! Awake! Put on thy strength, O Zion; put on thy beautiful garments, O Jerusalem.—Isa. 52:1.

If it be asked why the church should ever fall into a drowsy, lifeless condi-

There are two causes, the external and the intersorption in worldly matters. More serious, by far,

however, is the internal cause, or the church's neglect of the means of grace. The tendency of fire is to go out. The best fire in the world will go out in 24 bours if you neglect to put on fuel, Even so, the fire of devotion in the hearts of God's people tends to go out unless it is fed with fuel, and the only fuel that will feed this flame is the fuel of God's Word.

The average Christian does not read the Bible enough to keep himself in spiritual health. The consequence is that he loses ground gradually until the fire dies down, and is almost extinct. When this becomes general in church, it is necessary to resort to pecial measures to restore life to the church; and these special measures usually consist of nightly meetings in which the fuel of God's Word is piled on the slumbering embers until they begin to blaze and burn and give out light and warmth, which is the normal condition of a church.

Notice that the words, "Awake awake; put on thy strength, O Zion," are not an exhortation, but a positive, peremptory command. Christians sometimes speak of their spiritual weakness as a misfortune. but God regards it not as a misfortune, but as a sin, as needless as it s disustrous. "Be ye strong in the Lord, and in the power of his might," is just as binding as any commandment in the Decalogue,

A Christian has no right to be weak. God has provided strength in abundance, and he holds us accountable for the use of it, "All power is given anto me in heaven and in earth. Go ye therefore and disciple all nations." Matt. (28:18). "Tarry ye at Jerusalem until ye he endowed with power from on high" (Luke 21:49). "I can do all things through Christ which strengtheneth me" (Phil. 4:13).

The real mission of the church is not educational, though it does eduente people continually; not to furnish soup, soap and potatoes, though It may do this kind of work when necessary; not to furnish entertainment for the community, though it may wisely have an oversight of such matters, and see that pernicious entertainments are kept out by providing ome of a better quality. No, the real mission of a church is to proclaim the Gospel, to wield spiritual forces, to bring down power from heaven to subdue proud minds and stubborn wills and passionate tempers. This is the real work of the church from which she is never excused.

And for this work she is well quit red. There is work enough to do. and nower enough to do it with. God is ever calling her to do things which are impossible in her own strength but which are easily possible to those who know how to avail themselves of Gods strength. There is a good illustration of this in John 6. A great crowd had followed Jesus out of the city to listen to his marvelous teaching. The day was far spent, and there was no place where the people could obtain food. Under these circumstances the apostles suggested to Jesus that he send the people away to the villages round about that they might buy food.

But Jesus answered and said unto them, "Give ye them to eat. How many loaves have ye?" And when they had canvassed the company they reported that all they could find was a little lad who had five biscuits and two small fishes; and this amount of course was utterly inadequate. Neverthiess the Master bade them bring him what they had, and arrange the people for supper. And when they had finished distributing the pieces which the Master broke off from those five biscuits, they found that they had fed five thousand men and had twelve baskets full of fragments left

When we analyze this story, it may be summed up as follows: "Give ye them to eat." "But we cannot, Lord." "But you must," And when they brought all they had and laid it at the Master's feet they did it. Even so. God says to his church in every community: "Behold the starving around you! Give ye them to eat!" "But we cannot, Lord. We are so weak," "But you must do it, and you can do it. With God all things are possible, and you have God to draw

And when the church really recogdizes her mission as the spiritual teacher of the community, as the open clinnnel through which God's grace is to flow to the unsaved arount her; when she realizes what power can be obtained through prayer, what conviction can be carried to impeniteat hearts, she will begin to see those who are spiritually hungry coming to her doors, and the lame, and the blind. and the oppressed flocking to her for comfort and cuidance and deliverance from the power of sin. Thirsty boys know where the cool springs are, and godless people soon find out where the water of life can be had, and anconsciously are drawn thither.

1. Jesus Christ Growing (Luke 2:42-While Christ was indeed divine, his deity did not interfere with his development as a human being. The processes of his physical, mental, and spiritual growth were the same as those of any human being. 1. Jesus tarrying behind at Jerusalem (vv. 42, 43).

At the uge of twelve a Jewish child took his place as a worshipper in the temple. He was considered a "child of the law." Being conscious of his mission, when Joseph and his mother were returning from attendance at the Passover, he tarried behind to enter the temple and inquired into the meaning of the ordinances of God's House. He had an alert, eager mind, which inquired after the truth, especially the truth concerning his Father's House. His heart yearned after his Father.

(2) He was "hearing" the teachers of God's Word (v. 46). This shows he was eager to learn, God's will. (3) He asked questions (v. 46), The growing mind is inquisitive. It more than receives that which is

II. Growth in Grace (II Peter 1:3-This is not growth into grace, but

growth in it. We get into grace by the new birth. This new nature which has its source in God must be developed in order that our lives be fruitful for God (v. 8), that they bear testimony to the cleansing power of Christ's blood (v. 9), and that we may have assurance of salvation (v. 10). The following are the lines of growth:

1. "Virtue" (v. 5).

Virtue here means energy or courage. This is not "added" as in the Authorized Version, but as In the Revised Version which reads: "In your faith supply virtue," It means increase by growth, not by external junction. Faith is the root from which spring all these excellencies. These graces develop out of each other from that root. Manly courage is the first virtue which must be supplied in order to grow stronger.

2. "Knowledge" (v. 5). This means a right understanding, a practical knowledge.

3. "Temperance" (v. 6). Temperance means self-control. This self-control extends to all the affairs of life. Practical knowledge will supply to itself the government of all appetites.

4. "Patience" (v. 6).

This means endurance. Having control of self within, there will be endurance of that without. The Christian while controlling all forces within, will endure the forces which are beyond his control, those without him,

5, "Godliness" (v. 6). This means plety, reverence for God, the submission of the human will to the will of God. This is a part of that practical knowledge which we are obliged to supply.

6. "Botherly kindness" (v. 7). Love of the brethren must be developed in godliness. The proof that one is godly is that he loves the brethren (1 John 5:1). This means

other. 7. "Charity" (v. 7). This is love. Peter's climax is reached in love. Out of faith, which is the root, springs this seven-fold fruit. In order to prevent apostasy, Peter calls all to be diligent in the development of these graces. All such

BREAD MADE WITHOUT SUGAR

Two Processes Said to Have Been Worked Out by Milling Company of Kansas City.

A method of making bread with

neither sugar nor malt has been worked out by a milling company of Kansas City, according to the Baker's Helper. This process uses germ middlings, which are ordinarily sold for live stock food. Seven pounds of germ middlings are weighed out for use with 100 pounds of flour, placed in a vessel and scalded with water After it has stood for a short time the residium is strained out, and the water is used in making up the dough, adding as much water as is necessary. Sponge made in this way without the use of sugar or malt shows an increased expansion, with a loaf of fine texture and exceptional flavor, a trifle whiter than when sugar is used in baking. The process has been perfected in the milling company's laboratory, and is now being applied commercially. Another of the flour to be used in the bread essary, but does not dispense with the desirability of using malt.

Scenes of Prosperity Are Common in Western Canada

The thousands of U.S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains. Where you can buy good farm land at \$15 to \$30 per acre—get \$2 a bushel for wheat and raise 20 to 45 bushels to the acre you are bound to make money—that's what you can do in Western Canada.

In the provinces of Manitoba, Saskatchewan or Alberta you can get a HOMESTEAD OF 160 ACRES FREE

and other land at very low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre.
