MCCONNELLSBURG, PA.

OCTOBER 10, 1918

Published Weekly. \$1.50 per Annum in Advance.

Entered at the Postoffice at McConnellsburg, Pa., as second-class mail matter.

Don't Waste Time.

It's a waste of time to experiment with liniments and plasters when you have a dull, throbbing backache or sharp, stabbing twinges. Get after the cause! Help the kidneys with Doan's Kidney Pills. Read this: 'J. C. Fore, Knobsville, Pa., says: "A severe cold settled in my kidneys and the kidney secretions became painful in passage. I was lame and stiff, had rheumatic twinges and my limbs and wrists became swollen. I got no relief from the medicine I was taking and finally I used Doan's Kidney Pills. After using one box, I felt relief. When I take cold now and am troubled in any way by my kidneys, Doan's Kidney Pills always help me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fore had Foster Milburn Co., Props, Buffalo, N. Y.

WELLS TANNERY.

James A. Horton, who has been a great sufferer during the past eight weeks from inflammatory rheumatism, is not improving as much as his friends would like.

Mrs. Thomas Horton underwent a successful surgical operation at the Nason hospital at Roaring Spring, and is getting along well.

George William Sprowl, who bears the name of father and grandfather, has six sisters and "nary" brother. He is now boss in the family of Mr. and Mrs. George M. Sprowl.

Wells Township Liberty Loan Committee is busy and is meeting with encouragement. While no more willing people are found elsewhere on the face of the earth, the township, as a whole, is not as strong financially as it was a few years ago.

About fifty of our citizens went over to Hopewell to see the Liberty Loan War Exhibit, which carried in that town one hour.

The exhibition of trophies captured by the American troops in France, was most interesting. The crowd was permitted to enter at one end of the train, pass through, and emerge at the other end. This took time, and before the school children, who were patiently awaiting their turn, could get an opportunity to get in, the train's time was up and had to pull away.

Miss Pearl Wilkins, of Clearville, is staying indefinitely in the home of Mr. and Mrs. W. H. Baumgardner.

Ralph Deshong of Pittsburgh is visiting his parents, Mr and Mrs. Charles Deshong. Ralph is awaiting orders to report at some training camp.

Frank Baker, of Camp Johnson, Jacksonville, Fla., is spending a few days at home with his mother Mrs. Margaret Baker.

Louis Guillard, of W. Brownsville, Pa., is home for an indefinite time with his mother Mrs. Mary Guillard.

Mr. and Mrs. Dewey Roundbush, of Dudley, visited Mrs. Roundbush's parents, Mr. and Mrs. Charles Deshong last week.

Gasless Sundays and all churches closed made last Sabbath a quiet day in Wells Valley.

George A. Wishart, of Coica, is visiting his mother Mrs. S. E. Wishart at the old home. We are glad to know that George

DR. FAHRNEY

HAGERSTOWN, MD. DIAGNOSTICIAN

Specialist in Chronic Diseases

The Fourth Liberty Loan is the fighting loan. Its great success will bring comfort and encouragement and a deep sense of pride to our Army and our Navy, and to our Allies; it will bring discouragement to our enemies. Its success means American victory, Prussian defeat.

is one of Chicago's successful business men.

In a letter to his mother, Jay Stunkard who is in the Navy, and whose vessel is one of the escorts of the boys going to France, says his vessel left New York on the 24th of July for France. On their way over, they were attacked several times by German submarines, but escaped without serious injury. One of the escort vessels was sent to the bottom, but the crew of 900 men was saved. He thinks France a very interesting country. On his return to New York an attempt was made to torpedo his boat, but an attempt was all it amounted to, Jay feels they are a lucky bunch to be able to make four successful trips across the Atlantic without even a minor accident to break the monotony.

Chautauqua Postponed.

In obedience to the order of the State Health Department, the Chautauqua Festival which was to have taken place in McConnellsburg this week has been postponed until December 12-14th, by which time the wave of Spanish Influenza will have passed over the country and well out into the Pacific Ocean. Persons who have already purchased tickets will please keep quiet and hold on to the pasteboard, for they will serve their original purpose when the proper time comes.

The Jewett Attachment.

Just hook it onto your Ford car and you have a Ton-Truck just as good as you will find anywhere. When you have done with your heavy hauling, detach the Jewett and you have your touring car again to take your family to church or anywhere else you like.

For sale by ROY O. PALMER, Sipes Mill, Pa., R 1, Box 6.

THE COUNTY QUOTAS

The following are the allotments of the Fourth Liberty Loan for the counties of Pennsylvania embraced in the Third Federal Reserve District:

Table with 3 columns: County, Quota. Lists counties like Adams, Bedford, Berks, Blair, etc. with their respective quotas.

This is a total of \$292,995,310 for the forty-one districts in the State of Pennsylvania outside of the City of Philadelphia, embraced in the Third Federal Reserve District.

We want to give the Hohenzollern dynasty a real "die nasty" run of it!

How to chain up the Beast of Berlin Buy more Bonds!

THE HOME FRONT

The battle front in Europe is not the only American front. There is a home front, and our people at home should be as patriotic as our men in uniform in foreign lands.

Every American soldier who has fallen in France, every American sailor or who has died for his country's cause has given his life for his people. Surely we, their people, can lend our money to our Nation, their country.

The Fourth Liberty Loan is the fighting loan. Its great success will bring comfort and encouragement and a deep sense of pride to our Army and our Navy, and to our Allies; it will bring discouragement to our enemies. Its success means American victory, Prussian defeat.

The fourth loan is the fighting loan, the soldiers' loan.

JOIN THE COUPON CLIPPERS

You Will Get Money From Uncle Sam Almost Every Month.

By fixing the interest dates on the Fourth Liberty Loan as April and October 25 of each year, Secretary of the Treasury McAdoo has made it possible for the new army of Government bondholders to "clip a coupon" in eight of the twelve months of the year. Those subscribers who took the registered form of bond instead of the coupon bond because of its greater security will in the same way receive an interest check from the government in eight months of the year, provided, of course, that they have retained the bonds of the three preceding loans which they bought.

On the first Liberty Loan the interest dates are June and December 25; on the second Liberty Loan they are May and November 15; on the third Liberty Loan, March and September 15, and on the fourth Liberty Loan, April and October 15.

Even if the purchaser of a bond of the first Liberty Loan took advantage of its conversion privilege to secure 4 per cent interest on the second loan, and again converted his bond to secure 4 1/2 per cent interest paid on the third loan the interest dates on the conversion bond which he received for his original bond remain the same.

The evident purpose of Secretary McAdoo in naming different interest dates on the four issues of bonds was to divide the physical work of paying the interest and also to distribute the payment of interest over the year instead of having payments concentrated in two months.

On a \$6,000,000,000 loan the probable amount of the fourth loan, the annual interest payment at 4 1/2 per cent will be \$255,000,000 or \$127,500,000 at each semi-annual interest date. Interest charges on the first Liberty Loan, if one-half of the bonds have been converted into 4 1/2s and the balance remain at 3 1/2 per cent is \$77,500,000 per annum, on the second loan, if \$1,000,000,000 of the original issue is outstanding at 4 per cent and the remaining \$2,808,000,000 converted into 4 1/2s, the annual interest is \$159,300,000 and on the third loan of \$4,176,000,000 at 4 1/2 per cent the annual interest is \$177,400,000, a total for the three loans of \$414,000,000, and the coming fourth loan of \$6,000,000,000 with its interest charge of \$255,000,000 will swell the Government's annual interest payments to \$699,280,000, which explains why the interest payments are divided.

On a \$6,000,000,000 loan the probable amount of the fourth loan, the annual interest payment at 4 1/2 per cent will be \$255,000,000 or \$127,500,000 at each semi-annual interest date.

Interest charges on the first Liberty Loan, if one-half of the bonds have been converted into 4 1/2s and the balance remain at 3 1/2 per cent is \$77,500,000 per annum, on the second loan, if \$1,000,000,000 of the original issue is outstanding at 4 per cent and the remaining \$2,808,000,000 converted into 4 1/2s, the annual interest is \$159,300,000 and on the third loan of \$4,176,000,000 at 4 1/2 per cent the annual interest is \$177,400,000, a total for the three loans of \$414,000,000, and the coming fourth loan of \$6,000,000,000 with its interest charge of \$255,000,000 will swell the Government's annual interest payments to \$699,280,000, which explains why the interest payments are divided.

CAN'T GO HALF WAY

Must Really Win This War So as to Secure Future Peace.

By T. J. MULVEY.

No half-way measures are going to win this war—and you ought to know it!

The German leaders have the German people buffaloes, and those people are going to do their utmost to support their masters in their barbaric struggle to bring the rest of the world to its knees to them.

The free people of the world say the Kaiser and his crowd are not going to get away with it. There's just one little difficulty—there's nobody to force us, and the other free people, to pull together with every ounce of our strength, unless we do it ourselves. Nobody's telling you you've got to buy so many Liberty Bonds, except the self same Kaiser, and he doesn't tell it to you in so many words, but he says he'll be IT, unless you can stop him—and, of course, he believes you can't do it!

But you know in your heart and soul that you can! You know that all of us—all the free people of the world—are going to make a monkey out of any man, or out of anybody of men, or out of any nation that says all the rest of us are going to stand around and let him or them dictate our earnings and goings.

The Kaiser said "America's going to pay for this war." He has also said that he will run the world and make it bow and scrape to the German idea of Kultur—save the mark!

So you've got to give him—and them—the lie!

And that means getting together with the rest of us and putting up your money to do the job—and to do it now! The longer you put it off, the more it will cost—unless, of course, you'd rather pay taxes to the Kaiser!

Buy just three times more Liberty Bonds than you sold in your easy-going way that you would buy—or let Kaiser Bill buffalo you, too!

Sign up today!

WANTED: 87,000,000 NEW CAPITALISTS

By BOOTH TARKINGTON.

Nobody reads Liberty Loan articles, or editorials, or advertisements any more; so people are beginning to say; and therefore, "What is the use of writing them?"

For my part, I am not quite sure of the answer, yet I am sure enough that these articles, editorials, paragraphs and advertisements must be written. Writing them and printing them is one of the ways we have learned to help sell the bonds, and besides trying to learn new ways we must try all the ways we already know; for the bonds have got to be sold. And, perhaps, though no one may read this little Liberty Loan screed which I am writing now, it may well be that when it is in print a number of people will glance at it long enough to see that it is about the new loan and be reminded once more that the bonds have to be bought.

The eight billions to be taken for taxes in 1919 will come out of the pockets of people who went what they thought was their limit on bonds, during the earlier sales, and then they had four billions more to spend on bonds than they will have under the new taxes. That is to say, roughly, the buyers of bonds during the past year will be four billions short of cash to pay for bonds during the fourth and fifth sales if they buy at the same rate they did in the earlier sales. Either they have to dig up four billions more (and multitudes of them say they can't) for taxes and bonds that they did last year, or else new buyers have to be found. And if it is true that the previous buyers did go their real limit on bonds, here's what they must do: They must get another four billions that they formerly put into bonds, then it follows that the heaviest "drive" must be made to find new buyers.

It comes to this, of course, the old buyers must strain till they get their previous limit stretched, and new buyers must be found, and found actually by the million and million. The new buyers have to be found by the million and million because they haven't so much money as the old buyers had. The old buyers who aren't heavily hit by the tax will be on hand; but the new buyers are the people who must not only get the old buyers' money but must buy another new one.

There's a cheering thing to think about in connection with this "drive." The richer people for those who used to be) are getting to be \$8,000,000 in Federal taxes instead of \$4,000,000 paid in 1918. If they had that "extra" \$4,000,000,000 to put into bonds, instead of taxes, their future incomes would be about \$170,000,000 more a year. And we haven't heard any particular wall going up from them about this. It really seems to be true that under the circumstances they're glad to get the money in the way the Government sees fit to take it. That's pretty fair behavior on their part; to land it over without a word of protest. My personal belief is that they wouldn't protest if the Government took everything they have, in order to win this war. Yes, they're all right—and everybody in the country will be all right if this loan produces \$7,000,000 NEW BUYERS. There are about 105,000,000 people in the United States and there were about 18,000,000 buyers of bonds in the last loan. That's why 87,000,000 NEW ones are needed.

My personal belief is that they wouldn't protest if the Government took everything they have, in order to win this war. Yes, they're all right—and everybody in the country will be all right if this loan produces \$7,000,000 NEW BUYERS. There are about 105,000,000 people in the United States and there were about 18,000,000 buyers of bonds in the last loan. That's why 87,000,000 NEW ones are needed.

There's a cheering thing to think about in connection with this "drive." The richer people for those who used to be) are getting to be \$8,000,000 in Federal taxes instead of \$4,000,000 paid in 1918. If they had that "extra" \$4,000,000,000 to put into bonds, instead of taxes, their future incomes would be about \$170,000,000 more a year. And we haven't heard any particular wall going up from them about this. It really seems to be true that under the circumstances they're glad to get the money in the way the Government sees fit to take it. That's pretty fair behavior on their part; to land it over without a word of protest. Privileged to Help.

As the young men of the Nation go forward in increasing numbers to add to its physical strength on the battlefields of France, there must be more and more dependence placed upon the youth of the land for the performance of our home duties.

And so, the great departments and bureaus of our Government are becoming accustomed to call upon the pupils of our public schools for certain kinds of work; work that is of highest importance as a part of our war effort; and to the credit of our patriotic boys and girls, it may be fairly said that the tasks so assigned have always been thoroughly and acceptably accomplished.

Mr. Hoover, whose previous experience with the boys and girls of America, in co-operation with the Food Administration, has been most gratifying, now requires a further service at their hands. He is under the necessity of providing a sure and dependable supply of beef and pork products for our soldiers in France and for those brave men by whose side they are fighting. To help him accomplish this he desires to have an absolutely accurate count of all the cattle and hogs in Pennsylvania.
