WHAT THE HUNS DO WHILE THEY ASK FOR PEACE

Though the German government has been asking the allies for peace, the German military command continues its policy of frightfulness on land and sea. This photograph shows all that is left of one of the hospitals of the St. John's Ambulance association after a deliberate air raid on it by the Huns.

ONE GERMAN EXHIBIT IN THE "BRITISH MUSEUM"

It is stated officially that during the month of August, 1918, British troops in France captured 657 German guns, including over 150 heavy guns. Machine guns to the amount of 5,750 have been counted, as had over 1,000 trench mortars.

CONGRATULATING EACH OTHER

This snapshot of our own Major General Bell and Field Marshal Sir Douglas Haig typifies the warm feeling that exists between the fighters of America and Great Britain.

IN SIBERIAN EQUIPMENT

The clothing which is seen in this photograph is to be worn in addition to the regular heavy winter overseas equipment as furnished to all troops of the American expeditionary forces in Siberia. The cap is of muskrat fur, as are the mittens. The parka is made of heavy moleskin cloth. Very tight and loose, it makes a most comfortable garment to march or exercise in. The foot covering consists of Canadian shoe pacs, made of black cowhide, chrome tanned and specially treated to provide waterproof qualities. Under the shoe pacs will be worn two pairs of lumberman's socks, with one pair of heavy wool army socks beneath them. The underclothing worn is especially made for use in Siberia and consists of very heavy knitted woolen garments.

Dutch Skates in New England.

When the Plymouth Pilgrims journeyed to the new world and settled in New England, they brought with them many of the customs which they had acquired when living in Holland. Thus the children of the Massachusetts and Connecticut settlers were almost as fond of skating as were the Dutch children who lived in New Netherlands.

SIAM SENDS MEN TO HELP WHIP KAISER

Among the nations that united to whip the kaiser and his crew and to make the world a decent place to live in is Siam. The far-away kingdom has sent soldiers to France, some of whom are here seen debarking at Istres.

Little Irony of War.

Great consternation was caused in Vienna recently by the announcement that the son of Karl Hermann Wolf, deputy of the Austrian reichsrat, is a soldier in the British army. Nothing could be more ironic, for the elder Wolf has been a leader in propagating hatred of England and is one of the most vigorous of the Pan-Germanists. The boy's mother, Frau Wolf, was given a divorce from his father in 1904 because of the latter's extreme brutality. To escape his persecutions she went to Switzerland and finally to England, where she sent her son to the English schools. Now Wolf's own flesh and blood is fighting on the British side against his father's compatriots. Wolf has been one of the most striking figures in the Austrian reichsrat. He is the creator and leader of the "Hang all Czechs" movement, which caused so many stormy scenes in the Austrian parliament.

Write It "Francoamerican."

In writing of operations in which French and American troops have cooperated, a Paris journalist at the front uses the term "Francoamerican." The deletion of the hyphen he explains by declaring there has been transfusion of blood and effusion of hearts between Polu and Yankee on the field of honor. This compliment, characteristically French in its graciousness, shows that the spirit of France and that of America are gradually blending into a new spirit of international union that binds the two republics together more closely than ever—Popular Mechanics Magazine.

25,000,000 BOUGHT BONDS

Large Proportion Came in Last Few Days of Campaign.

SUMMING UP TO TAKE DAYS

Final Figures Not To Be Known Till After Banks Send Reports To Federal Reserve Centers.

Washington.—Probably 25,000,000 or more individuals bought bonds of the Fourth Liberty Loan, unofficial reports reaching Washington disclosed. A large proportion of these filed their subscriptions during the last few days of the campaign. Consequently it will be a task of many days to actually count the number of pledges, and to complete reports from the entire country.

Definite figures and the total subscriptions to the loan are not available. Local and district campaign managers, fatigued with their arduous duties of the solicitation work, were Sunday and will not start until Monday to figure up the avalanche of last-minute purchasers. The only official figures in hand here were of Friday night, showing about \$1,400,000 yet to be subscribed.

Despite this total lack of definite information officials were confident that the \$5,000,000,000 popular war credit had been oversubscribed. This belief was based on indications that advance promises of large sums from financial interests in New York and elsewhere would be found to be fulfilled when the final count is made.

Banks have until Thursday to tabulate their subscriptions and report to Federal Reserve banks. Treasury officials declared it might be as much as two weeks before the results for the whole country are known, particularly if the number of subscribers runs as high as present estimates.

Cato Sells, Commissioner of Indian Affairs, announced that telegraphic reports received by him from the various Indian reservations show the Indians in this country have subscribed \$4,500,000 to the fourth loan. This brings their total subscriptions to all four loans to approximately \$29,000,000.

CHECKING HUN DAMAGE.

Belgium Already Computing Cost of Destruction Done By Enemy.

Washington.—The Belgian government already has taken steps to compute the enormous total of the damage done to property in Belgium by the Germans during their occupation of the country, said a cablegram received by the Belgian Legation.

The Council of Ministers met at Havre and adopted measures for verifying claims for damages to civilian and public property. These will be employed as a means for determining the total compensation to be demanded from Germany.

The assembly also discussed measures for insuring the resumption of the circulation of Belgian coinage in the liberated territory, the cablegram said, and decided on various modifications of the communal law to meet the changes in the internal situation due to the German evacuation.

"In order to demonstrate its gratitude and admiration for the army," the message adds, "the assembly took under consideration a plan which would greatly increase the compensation of the families of members of the militia."
