

Hotel and Restaurant Regulations.

The County Food Administrator has just received the following telegram announcing further regulations for public eating places:

"Public eating places of the European Plan for the purpose of these regulations are divided into two classifications A. and B. as follows: Class A. shall include all hotels and restaurants furnishing extraordinary service on special accompaniments. Class B. includes all other public eating places including popular price restaurants, chain restaurants, lunch rooms, and the like. Any restaurant uncertain as to its classification, may ascertain this by application to the Food Administrator.

Regulations: All Class A. public eating places shall serve at both the noon and evening sale, at least one combination platter consisting of one meat, poultry, or fish, with potatoes and, at least, one other vegetable which shall be served at price not to exceed from 50 to 60 per cent. of the total prices charged for the full portion of each article of the combination if ordered and served separately.

All public eating places both classes A. and B. shall serve on demand of the customer half portions of all chop orders (not less than one chop) ham, bacon, and eggs, (in any form) at a price not to exceed 60 per cent. of a full portion. Where a charge is made for a combination service which includes coffee, tea, milk, or bread and butter, a proportionately smaller charge shall be made if at the option of the patron either of these articles is eliminated. Where separate charge is made for bread and butter the portion served shall consist of a full two-ounce portion of victory bread or rolls and one-half ounce of butter. As to public eating places in class B shall serve a five cent portion of coffee, tea, or milk."

Apple Butter Sugar.

The sale of sugar for canning and preserving has been discontinued except by special permit from the County Food Administrator.

Those desiring sugar for making apple butter and other necessary canning and preserving, should make a written application to the County Food Administrator, stating how much and what kind of fruit is to be preserved or butter to be made, the amount of sugar desired, and the name of the merchant from whom the sugar is to be purchased. The Administrator will then send a written permit to be presented to the merchant when the sugar is bought. Remember it must be plainly shown that there is a real necessity for the sugar before the permit will be given.

County Food Administrator.

We Are Progressing

There is an old proverb that a wise man changes his mind, but a fool never does. The wise man has to change his mind to keep up with the times.

Your grandfather thought he was putting on style when he took his best girl out horseback riding. The young man today would like to have a six-cylinder car for his lady love. The smart man of today will be considered "old fogies" by the next generation. We are progressing, changing, keeping step with the times, that's all. Especially is this true of financial matters, modern banking. Few people keep their money hid about the house or run the risk of carrying it on their person. They follow the modern plan, keep their funds in a reliable bank like ours and pay by check. It's the safe, modern, convenient way.

YOUTH-TIME

The important time to lay a strong foundation for robust manhood is while life is young and the body developing. A growing child needs every possible help to conserve energy and confirm the body in vigorous health. To a developing child

SCOTT'S EMULSION

comes with particular help. Thousands of the strong men and women of today were in youth-time nourished and strengthened to withstand the inroads of disease by the consistent use of Scott's.

The Thrice-A-Week Edition of the New York World in 1919

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war and a large army of ours is already in France fighting great battles and winning magnificent victories. You will want to have all the news from our troops on the most momentous year in the history of ropan battlefields, and 1919 promises to be our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world shaking events. It is not necessary to say more.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 134 papers. We offer this unequalled newspaper and THE FULTON COUNTY NEWS together for one year for \$2.25.

The regular subscription price of the two papers is \$2.50.

after spending sometime in the home of her father J. A. Henry.

W. L. Fields who is employed at Robertsdale came home Friday and remained until Sunday. Our farmers are husking corn.

Cut Whisky Tax.

When the pending-revenue bill was before the House of Representatives at Washington, that body fixed the tax on whisky at \$8.00 per gallon. It was more than double the previous rate of \$3.10 per gallon.

The Senate committee which is now doctoring the bill believes that the House has put the tax on whisky too high and they have decided to reduce it to \$6.40 per gallon or just double what it has been hitherto. It is believed by the Senate committee that this reduction will result ultimately in more revenue for the government. The Senators reason that less whisky will be consumed on an \$8.00 per gallon revenue basis than on \$6.40 basis. The double rate which has been fixed by the House on beer will be left as it is by the Senate committee.

Food Prices Move Up.

Retail prices of food increased 4 per cent. from August 15 to September 15; 14 per cent. from September, 1917, to September, 1918, and 72 per cent. from September, 1913, to September, 1918, the Bureau of Labor announces. The increases were determined from reports by retail dealers on 28 articles of food.

Set Your Clocks Back.

Before you go to bed Saturday night, set your watches and clocks back one hour, and you will have the right time to get up by, the right time for church services, and the clock time that will be observed until next April. The fast time is all right for summer, but, in winter, it makes "getting up" time come a little too soon.
