It is said that in about two months two comets, one quite brilliant, will is rapidly nearing completion. be visible to the naked eye. They will rise early in the evening and remain above the horizon all night, providing a magnificent spectacle, and one rarely seen without the aid of a powerful telescope. The comets will not be far distant from each other.

Farmers are still holding their wheat for better prices, but there really does not seem to be much pros pect for a rise. Some farmers of years experience say that the best time to sell wheat is right out of the field as soon as you get a chance to thresh it. Some years you make, some you lose, and on the whole you fare as well as your neighbor. Many are now coming to this decision.
