Question for curbstone philosophers: Does the hook catch the fish or the fish the hook?

Miss Lillie Owig returned last week from a month's visit with friends in Union county.

"She is a chin wagger," is the latest slang phrase for designating a gossip and retailer of secrets.

The editor of the Post does not hold himself responsible for views expressed by his correspondents.

From present appearances this county will reap one of the largest corn crops we have had for some years.

Samuel E. Murrer, of Salem, has raised a clover stalk measuring 6 feet and 6 inches. Mr. Murrer is ahead so far as heard from.

The fare for the round trip from Middleburgh to Williams' Grove picnic is only \$2.54. Everybody should take in the Granger's picnic.

Oh for a rain, a soaking rain; none of our citizens would complain for all now cry as they must, "Confound this everlasting dust."—Bill Allison.

Barbed wire must go or puns be in bottomed as the boy said when he left his neighbor's orchard at the earnest solicitation of the new prickly fence.

Never use soap on old cloth; put about a teaspoon of milk in a pail of warm water, and use that instead. Soap dills the colors, and milk brightens them.

The average young Miss entertains much larger interest in the parlor than in any other room in the house, and she always takes good care that it is in order.

Bad drainage causes much sickness. Bad blood and improper action of the liver and kidneys is bad drainage to the human system, which Burdock Blood Bitters will remedy.

Thursday, the second day of September, will be the last for the registration of voters. All qualified voters should see to it in time that their names are on the assessor's lists.

Give us any item of news which comes under your observation. You are always glad to read what is going on, and we are pleased to receive "pointers" at any time. Don't forget us.

Chairman Willis of the Republican County Standing Committee requests us to state that the new Committee will convene at Middleburgh, Saturday, Aug. 21, at 1 o'clock p. m., for the purpose of forming a permanent organization.

If the administration insists on giving us Democratic postmasters and mail agents we will be satisfied so long as W. J. Pierce holds his commission as agent on the S. & L. railroad. He is not only a careful and efficient officer but a very clever gentleman.

Everybody is commenting on the building improvements made in Adamsburg during the last few years. So many new houses and so very substantially built. We heard a stranger remark that it was the nicest town for its size he had seen in this State.

A rennon of the 125th Regiment Pennsylvania Volunteers will be held at Huntington on Thursday the 23d day of September, during the encampment of Huntington county soldiers, on the Driving Park Association.

A new law makes it the duty of owners of threshing engines passing in public highways to send a messenger at least one-eight of a mile ahead to give warning, and at night to carry a red light. Pulling to go to the proprietor is liable for all damages.

The moon gets full, men get full, and sometimes women also, but the contribution basket never.

The Haekenburg Camp Sons of Veterans will hold a Festival in Middleburgh on Saturday evening of this week. G. C. Getelius has agreed to manufacture some of his famous Ice Cream for this occasion.

It is estimated that there are one hundred thousand sufferers from hay fever in the United States; a number about four times greater than the regular standing army. This number could be reduced to a mere regiment if all would resort to Ely's Cream Balm. Aug. 19, 14.

John S. Hassinger, residing two miles west of town is not only a good valuable citizen and an excellent companion in the mountain, but is a farmer and horticulturist of superior skill. He sent a 2 1/2 pound tomato to our office on Wednesday. All pretending to beat this must produce the fruit in this office.

The editor of the Post took a fish on the Susquehanna on Monday in company with Master George Lombard, son of Joe, the Terliman man. We went down on the morning train and came back on mail—fishing about four hours. We brought home fifteen black bass—the best catch for the time made by any Middleburgher for a number of years. But it was George's fault. It is the bass fisher.

On Monday of last week a young girl by the name of Haekenburg, living in Centre twp., fell from a tree and striking a rail in her descent, had a gash cut in her stomach clear to the bowels.

The above clipping is going the rounds of our exchanges. The editor who wrote it and the brethren who copy it without comment or correction should consult some ten year old who has studied philosophy and hygiene.

Joe Lombard thinks that if "mouting offices could be run on wind and broken promises the country publisher or would not be puzzled how to move both ends meet." That's just what the editor of the Post has been doing for the last two months. We haven't taken in enough money on subscription during that time to buy a handle to a contribution box if whole meeting houses sold at ten cents a piece.

Charles W. Herman, a graduate of the Lewisburg University and winner of a number of hotly contested prizes in his class, delivered a very fine impromptu address at the Soldiers' reunion at Adamsburg on Saturday. In a brief conversation with him we learned that he would permit himself to be used as a "speaker" on the public affairs candidate for Superintendent of Public Schools in Snyder county. We look upon him with considerable favor.

The Inter-State Picnic Exhibition to be held at Williams' Grove from Aug. 30th to Sept. 4th promises to be one of the grandest successes that we yet attained in the line of agricultural exhibits, and the largest gathering of farmers ever held in the United States. The Picnic R. R. Co. has issued the following rates for round trip: Sellingsgrove \$2.18; Sellingsgrove Junction, \$1.93; Middleburgh, \$2.54; Bovertown, \$2.59. Tickets good to return Sept. 6th.

Examine your newly threshed wheat from time to time to see that it is not heated, and if you find it so, run it through a fanning mill to air and cool it, or it may be spread upon the barn floor and shovel over occasionally. A very good way to find out whether wheat that is put in bins is heating is to have a stick like a forkhandle constantly sticking in the pile of wheat as far down as the pile is deep, and occasionally pulling it up and feeling with the hand. By this means any evidence of its heating will be shown by the stick.

"We can't respect a man," says an exchange, who may refuse to take his local paper, or settle for one he has been talking—though we may depreciate his judgement a trifle—but we have nothing but contempt for the sealwag who receives a paper for a year or more, and then, when asked to pay, pleads the baby act, or refuses to take it from the postoffice when he owes back subscription. A man who will read a paper for a term and then lie or beat out of payment, is mean enough to sell his wife's corpse to a medical college and get drunk on the proceeds.

The Middleburgh Post has had its fun with turtle stories. Now it is busy overhauling Shade mountain with bees and black snakes. One fellow reached up and pulled down a bee with sixty pounds of wild honey, and another fellow was burning underneath on a piece of new ground. Twenty black snakes struck their heads out of a brush pile at him. He ran for a sheaf of straw. Setting it alight he threw it on the brush. The snakes ran out of the brush, and then they all deliberately ran back into the fire determined to commit suicide. Haxer is getting to be a terrible fellow on a yarn. He is worse than Jo. Lombard's—Sussex News.

The free County Normal at Middleburgh is attended by 64 students. This is a good attendance for the second week. There will be a marked increase next week. Supt. Boyer was present at the opening, and conducted the school alone three days last week, and several days this week. Prof. Noetting assisted two days last week. Tuesday he arrived and will remain during the entire term. The abilities of the instructors, Supt. Boyer and Prof. Noetting is a guarantee that the instructions to the teachers will be practical and profitable. No teacher can afford to remain away. The professional training they will receive, will be of great advantage to them in the school room.—Tribune.

SOLDIER'S REUNION.—The reunion of the soldiers of Snyder county which took place at Adamsburg on Saturday last was well attended and everything passed off pleasantly. After the arrival of the morning trains the grand parade was formed in which about one hundred veterans participated, and after marching through the principal streets they proceeded to the grove one half mile west of town where they were dismissed and sent forth to skirmish for grab. The commissary department had not been forgotten and the provision train rolled in—not hard-tack and fitch, but common everyday boiled ham, eggs, bread, buns, pies, cakes, &c.—a strange contrast to their experience of twenty-five years ago. After dinner the McClure Post gave a skirmish drill which was well executed, and was followed by brief and appropriate addresses by J. A. Lombard, and Prof. Boyer and Herman. About six o'clock the drums sounded for dress parade and review, after which came the Shinn battle, which resulted in the capture of one division after another heavy musketry fire. We have not learned what the loss in killed and wounded was, but we saw only one man down. He did not engage in the sham battle though he was hit all over. He was laying by the side of a big log shooting at Mexicans with a quart bottle. The entertainment to the evening was well attended and the performances were frequently cheered. About two hundred tickets were sold at this station for the reunion and many went in private conveyances. The Adamsburg Cornet Band furnished the music and showed good taste in their selections and marked improvements in execution. About 10 o'clock the trains east and west carried off the visitors who were delighted with the generous reception they received from their Adamsburg friends.

RECLUSE.—On Saturday morning, Aug. 14, the Capt. Michael Smith Post G. A. R. left our depot in a body for Adamsburg, and there met Capt. Ryan and Capt. Davis Posts, from which all marched to Markle's grove, one mile west of town. The boys had a day of enjoyment. The program as furnished by the committee was a failure from first to last. I cannot say what others think of the festivities of the day, but it does not look altogether right to see some men sit under shade trees and on porches in the town, and laugh and make remarks about those who are trying to make the day as it should be. Comrades, others have eyes and ears as well as yourselves. Such conduct will not stand the test.

Our town is very quiet at present.

Our people are making preparations to attend the G. A. R. encampment on the 19th, 20th and 21st inst.

Although the Senior class was larger than any before it, all were approved by the State Board of Examiners. Candidates for the Senior class will be examined at the opening of the year in the Junior studies, and that examination in those branches will be final; thus the Seniors will be relieved of much anxiety, and undue pressure.
