DEMOCRACY VS. INTEMPERANCE

Ma, En - It is not much credit to the democracy, and shows unmistakably on which side of the great question of intemperance, the disturbing and ruening element of thousands in this and other conntries is. It as a party stands from a long known and contended-for truth expressed in the Sunbury Democrat and copied by other Democratic papers, viz. that 'all the candidates on the Prohibition State ticket bave heretofore been Republicans, and of course will receive their main support from the Republican party, as it is but natural that they should. Why I because it is in truth the opposing element, if there is such an element in any of the two parties, to intemperance, whilst on the other hand the Democracy is opposed to temperance and a friend to slavery and any thing which will enslave man and make him beastly; and therefore no Democrat sound to the principle of slavery would or could be a candidate on the side of freedom, temperance and true reform.
