If a box six inches deep were filled with sea water and allowed to evaporate under the sun, there would be two inches of salt left on the bottom. The Fourth of July was a quiet day in this place, a large number of our citizens going elsewhere to enjoy themselves and pass the time pleasantly.

To largely protect animals from the annoyance of flies, from which horses and cattle suffer so much and lose flesh and spirit at this season of the year, we pipe them all over with a sponge dipped in soap suds, in which a little carbolic acid has been mixed. This is good for animals in the field, as well as those confined in stalls.

The High License law went into effect on Friday 1st. But so far as this county is concerned no changes will be made until the Court sits for the granting of new licenses in January next, those now holding license operating under the old law until that time. If any new license is granted or a transfer is made it must be according to the provisions of the law.

THE TOWN AROUSED.—On Tuesday evening the editor of the Post appeared a three-poled eel in Middlebrook. The news spread like wild-fire and by noon the next day the Prothonotary office door bore a card with the following inscription: "NOTICE.—The Bull-Frog Committee will meet in this office to-day at 1 o'clock, sharp."

Jacob Gilbert, Pres. Geo. M. Steinger, Sec. Mer B. Middleburgh, Commander.

James Rothrock of Franklin, while on Shade Mountain picking huckleberries yesterday, was bitten in the right hand by a rattle-snake. He was fortunately less than two miles from the Shade Mountain Distillery, whither his companions, Messrs. Jas. Enterline and James Shuman, hurried him with all speed. When he arrived there his arm was swollen to the shoulder and he was a very sick man. Store-keeper James P. Smith drenched him with whiskey and soon had him out of pain, and at this writing, Thursday evening, he is out of danger. The snake escaped—having had its head out of the rocks only a foot and immediately withdrew it after biting.

The Second Session of Middleburgh Academy will open July 25, 1887, under the principalship of Prof. Charles E. Dawson, of Wyoming county.

Prof. Dawson is a graduate and an experienced and successful teacher. Our Educational Association is to be congratulated on having secured so worthy a successor to Prof. Murphy, and it behooves all friends of education in our neighborhood to give the school a hearty support, both moral and financial. It is for our citizens to determine for themselves whether they will elevate their own educational facilities. In this important matter we can become what we wish to be if we put forth the proper effort, and having put our hand to the plow, it would be both disastrous and disgraceful to look back. Let us unite in a cordial welcome to our new teacher, and a generous support to the Board of Education.

HARVEST HOME PICNIC.—Can not the people of Snyder county cast dull care aside for a day and have an old-style harvest home picnic? Our farmers have worked hard this summer and were successful in gathering in one of the most abundant harvests in the history of the county, and now we should all have a holiday. Hower's Grove, one mile west of Middleburgh would be a splendid place, a beautiful grove, provided with a splendid spring and a large new covered bridge that will protect a thousand people in case of rain—convenient to railroad and near good fishing grounds. What is the sentiment of the people. Let us hear it, and if favorable, take our word for it, the Post will leave no stone unturned to make it a success.

SHE HAD THIRTY-THREE CHILDREN.—A long lank West Virginian named Brown presented himself at the Pension Bureau in Washington this week to furnish evidence in a claim pending before the office. It was learned upon inquiry that his mother had borne thirty-three children in all. Twenty of this number were boys, sixteen of whom had served in the Union army. Two were killed. The other fourteen survive. Each of them draws a pension from the government for disabilities received while in the service. The death of the two boys entitles the mother to a pension also. General Black says the files of the office fail to show another record where the sixteen sons of one father and mother served as soldiers in the late war.

WAS HE STABBED?—George Wenrick of Selingsgrove, the man who fatally stabbed Dr. P. R. Wagenseller of Selingsgrove several years ago, has got himself into serious trouble again. On the afternoon of the Fourth of July, a man by the name of Drumheller of near Selingsgrove Junction, came to Selingsgrove in company with two other men to celebrate the Fourth. As is customary with some men on such occasions who can only see the American Eagle well through the bottom of a tumbler, they indulged too freely and soon found themselves in an altercation among themselves. Mr. Wenrick hearing it, interfered, and told Drumheller to fight with a man if he wanted to quarrel. Drumheller retorted by calling him (Wenrick) a "bluffer" and told him to mind his own business, where-upon Wenrick struck him several times, knocking him down. It was soon discovered that the excessive bleeding of Drumheller indicated something more than a common knock down, and Dr. Frank Wagenseller was called, who found a clean cut gash under the right eye 2 1/2 inches deep. Steps were at once taken for the arrest of Wenrick but he could not be found. Finally Constable Gemberling found him hiding in Reagle's Livery Stable. The physician testified that Drumheller's life was in danger and Wenrick was sent to jail without bail to await the result of the wound. Since then Drumheller has been improving and is now quite out of danger, though he will lose his eye. Wenrick declares that he used no instrument, but the physicians swear that the wound could not have been made by anything else than a knife. This, with the fact that Wenrick tried to escape, and his past record as a vicious citizen will bear hard on him and will no doubt place him out of harm's way for some time to come.

ASTONISHING SUCCESS.—It is the duty of every person who has used Bucher's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate rediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive. It is at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Sold by all druggists and dealers, in the United States and Canada.
