Thursday, March 22, 1888. HELFRICH'S RECORD

As we understand, an effort is being made to belittle the public services of Hon. A. S. Helfrich as representative of this county, and that our people may not be mislead by number, vizt:

1st. That he voted in favor of the repeal of the scalp act.

This is a falsebood-simple, plain, and direct. He voted and worked against its repeal, but confronted by the evidence that some counties in in this State had been compelled to pay as high as \$9,000 bounty in a result was a "horizontal reduction," finally consigned him to the grave for which he was no more responsible than the least of us-

So be did, and had be not be would not now be a candidate for republican honors in this county. The eight republican members of the House who went over to the opposition have been respectfully shelved, and we have it from good authority that they will not represent their districts on the next legislature. It was a Republican measure, and we feel glad to see that he found himself justified in standing by his party. He undoubtedly could have made a good day's wages by voting the other way-for there were some Julases in the House and more than "thirty pieces of silver" changed hands. As to the merits of the bill, one year's trial will dispell all prejudices that may now exist against it. The public treasuries in the Commonwealth will be benefited to the extent of \$2,500,000 per year, which is judicially distributed in the townships, boroughs and cities of the State-lessening local taxation

ment to a vote of the people.

Why shouldn't be? Is not a government, "of the people, for the people and by the people" a cardinal Republican principle ? Can any saneman see his way clear to stand in path of the people of this or any other State and refuse them the right of a vote on a matter of such great importance? If the people of this Commonwealth desire a vote on this matter who would dare question their right.
