There are but few American homes. even of the humblest, where meat, butter, coffee and white bread do not appear every day in the week.

In Europe there are millions upon millions of workingmen who see these things only at rare intervals. Where is the laborer happiest? Free Trade would soon bring the men of the two continents to an equality.

land, Wales and Ireland is 37,000;000. The population of New York, Maine' New Hampshire, Vermont, Massachusetts, Rhode Island, and Con- acted on: ne ti is 11,000 yet the amount wage-workers, .aving banks in

the seven States named is \$715,000,-000, while in Great Britain the amount in savings banks is but \$128,000,000; or one American workman saves as much as twelve British workmen.

Captain Samuel D. Bates, of Lewisburg, Union county, has been rect vetoes, disapproved of 156 bills nominated for the Senate by the without returning and killed one by Republicans of the Twenty-seventh a pocket veto : total 201, or 29.61 per district. Captain Bates has been cent. dissapproved, some of them prominently identified with the industrial interests of Lewisburg for a quarter of a century, and is held in soldiers' friend ! high esteem by his fellow-citizens, irrespective of party. He is an oldtime Republican, active, able and intelligent, and thoroughly equipped for the responsible legislative duties devolving upon a Senator. He will be elected beyond a doubt, and by a mittee of Snyder county met in the big majority.

The surplus of money in the publie treasury, over and above all requirements of the government, including pensions, debt, notes, sinking fund, silver and certificates, etc., is now \$130,000,000. The surplus is now fully \$80,000,000 a year, or \$1, 500,000 a week, or \$200,005 a day or \$8000 an hour. The Mills bill would reduce revenues about \$20,000,000 by free wool, lumber, salt, hemp, etc. ; about \$30,000,000 by tariff reductions on articles, chiefly sugar, and about \$30,000,000 by repeal of internal taxes on tobacco, etc.

The total abstinence party advocates ought to profit by the following from one of the pastors in Philadel-

"At stations, seemingly, centres where liquor was sold and where drunkenness was common on Sundays, I find the saloons tightly closed, either because of vigilant police supervision or deprivation of license. On all trains women and children and family travel in peace to pleasant places in the several parks, undisturbed by the drunken crowds that formerly crowded places of resort in the suburbs of Phila. High License is not a "delusion and a snare," but a pleasant reality, though heretofore a follower of the Prohibition party, it seems to me, from personal observation that the Republican party, as the originator of high license, deserves and should receive the earnest support of Prohibitionists, instead of their opposition.

#### Cleveland's Pension Record.

The Spirit and some of our Democratic friends bubble over with enthusiasm at President Cleveland's "liberal" pension policy, as displayed in Commissioner Black's annual report. They point with pride to the fact that the President had approved 1,369 private pension bills up to the 30th of June last, as against 41 for Lincoln, 431 for Johnson, 490 for Grant, 303 for Hayes, and 736 for Garfield and Arthur. Thus an attempt is made to show that Mr. Cleveland is more friendly to the soldiers than Republican Presidents

It is not easy to see how Mr. Cleveland deserves any credit for the increased number of private pension bills passed by Congress and sent to him for approval, most of which bills were introduced by Republican members. The annual average of such bills passed by Congress increased from 75 under Hayes to 184, or more than twice the number, under Garfield and Arthur. The annual average under Cleveland is about 360, showing that the rate of increase in the number of bills passed, shown by comparing the Hayes and Garfield Arthur administrations, was nearly maintained under Cleve land. For this the President was of course not responsible. He should be judged by the number vetoed rather than the number signed.

The following table shows the The population of England, Scotnumber of private pension bills vetoed by the respective Presidents since Lincoln, with the percentage of such bills to the whole number
