## High-Pressure

Living characterizes these modern days. The result is a fearful increase of **Brain and Heart Diseases—General Debility, Insomnia, Paralysis, and Insanity.** Chloral and Morphia augment the evil. The medicine best adapted to do permanent good is Ayer's Sarsaparilla. It purifies, enriches, and vitalizes the blood, and thus strengthens every function and faculty of the body.

"I have used Ayer's Sarsaparilla, in my family, for years. I have found it invaluable as

**A Cure**

for Nervous Debility caused by an inactive liver and a low state of the blood."—Henry Bacon, Xenia, Ohio.

"For some time I have been troubled with heart disease. I never found anything to help me until I began using Ayer's Sarsaparilla. I have only used this medicine six months, but it has relieved me from my trouble, and enabled me to resume work."—J. P. Carzanett, Perry, Ill.

"I have been a practicing physician for over half a century, and during that time I have never found so powerful and reliable an alterative and blood-purifier as Ayer's Sarsaparilla."—Dr. M. Maxstart, Louisville, Ky.

## OUR PUBLIC SCHOOLS.

The annual report of Dr. E. E. Higbee, Superintendent of Public Instruction, is about ready to be issued. It is a complete report, and contains a number of important recommendations. There has been, according to the figures accompanying the report, an increase of 280 schools since last year's report. The average length of school term, exclusive of Philadelphia, whose schools are open 10 months, is now, in months, 7.17, a large increase over the record of last year, which was 6.71.

The number of teachers, exclusive of Philadelphia, is 21,168; males 8,915; females, 12,253, a decrease of 313. The average salary of teachers, exclusive of Philadelphia, is now for males, $37.12, and for females, $29.60. For the year preceding the report the amount of money paid to teachers was $4,673,325,50, an increase over the year preceding $90,950,15. The amount paid to teachers in this year's report is $5,044,385.15. Of course this includes the increased number of schools and the additional time of teaching, but not the additional $500,000 of State appropriation, which was not yet distributed. On this point Dr. Higbee says: "It must be acknowledged, however, that teachers' salaries are yet inadequate. The public is very severe in its demands upon the common schools, expecting results which can only be secured by the employment of the most talented and experienced teachers. The average salary of male teachers for a school year is only a few cents over $266. With such an annual income the most talented and best qualified teacher cannot be retained." He further says: "The number of pupils now enrolled in the schools, exclusive of Philadelphia, is 831,367, an increase of 10,556 over last year's report. While this enrollment shows the large and favorable interest taken by the parents of the Commonwealth in their schools, it at the same time makes evident that a large number of children are not in the schools, for a census would most certainly show a much greater number of children of school age than the above enrollment.

Considerable space is devoted in the report to Arbor Day, and its utilitarian and educational features. Dr. Higbee believes it will arouse a sentiment among the masses which will make possible and effective such remedical legislation in the way of forest laws as may be demanded. The report says the advance of the minimum school term is helping teachers and pupils. In some counties it has advanced the amount paid for teaching $10,000 and $15,000, and has given the pupils the advantage of a larger continuous discipline under the same teacher. The increase of the State appropriation by the addition of $500,000 is making itself felt in every part of the Commonwealth. Already the total cost of tuition, building, fuel and contingencies has reached the large sum of $11,012,930; and the average rate of tax levied for school purposes is 7.64 mills, and for building purposes 3.34 mills, far below the maxium allowed by law. Free-hand and mechanical drawing have been added to the course in very many schools, and will, in time, be universally taught in conjunction, we trust, with a proper course of manual training. The grant of authority to School Directors to furnish free text books for their schools is more and more used, and thus far such action has given full satisfaction, not only in our large cities, but in many of our rural districts.

In conclusion, Dr. Higbee speaks of the State Normal Schools. No special legislation is asked in their behalf other than that they be generally supported in their work by the State. A statistical statement is added to the report, which embraces much interesting data. There were 2298 school districts in the State, 21,342 schools, 9551 graded schools, 118 superintendents, 9002 male and 14,678 female teachers, 941,625 pupils; average salary of male teachers per month, $38.54, and of female, $30,16; total cost of tuition $6,404,894.83; estimated value of school property, $38,998,783.75; net increase in number of districts, 17; increase in number of schools, 280; amount of tax levied, excluding Philadelphia, $7,134,701.52.

The Philadelphia statistics are as follows: Number of schools, 2288; male teachers, 88; female, 2425; average salary of male teachers per month, $133.20; female teachers, $57.29; number of pupils in the school at the end of the year, 101,138; paid for teachers' salaries, $1,360,500.68; paid for houses, additions and repairs, $364,675.42; paid for books, stationery, fuel and contingencies, $393,094.80.

## MASON & HAMLIN

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with best makers, they have received the highest honors. Illustrated catalogues $22 TO $900. free.

**ORGANS**

Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "MASON & HAMLIN PIANO STRINGER," by which is secured the greatest possible purity and refinement of tone, together with greatly increased capacity for standing in tune and other important advantages.

**PIANOS**
