OPIUM SEIZURE.

Barrels Supposed to Hold Sauer Kraut Filled With the Drug.

The Walla Walla, of San Francisco, to Puget Sound was seized by customs officers for omitting proper entries of freight on inward manifest. She took four barrels, supposed to contain sauer kraut, which were taken through to Tacoma without being entered on the customs record. Shortly afterward the barrels were seized by customs officers and found to contain opium valued at nearly $10,000. The penalty for false entry is $1,000. The Tacoma customs officers worked the case up and think that many hundred thousand dollars worth of opium has been smuggled in this manner.

A New Railroad.

The survey for the Guyandotte Railroad, extending from Huntingdon to Flat Top mountain, in West Virginia, is about completed. The length of the road will be 135 miles, and it will open up rich, unbroken timber lands. The route of the new road was laid out last summer, but owing to the wildness of the country it penetrates, progress on the survey was greatly retarded. The company is composed principally of New York capitalists, who have purchased extensive tracts of land thickly timbered. Work on the road will be commenced as soon as the weather will permit of grading.

Wanamaker for Prohibition.

When asked for his views on Prohibition last Sunday, Postmaster General Wanamaker said:

"There is only one side to Prohibition, and that is the right side—Constitutional Amendment. I am in favor of this first, last, and all the time."

A Family Perishes by Fire.

A special from Hollow Rock, Benton county, Tenn., says the house of William Flowers was burned and Flowers, his wife and two children perished in the flames. Neighbors saw the fire but arrived too late to be of assistance. Not a single occupant of the house was left to tell how the fire occurred.

A New Railroad.

A new railroad, to be called the West Virginia and Pennsylvania Railroad, has been incorporated. The new road is to commence at Rowlesburg, Preston county, W. Va., follow the east bank of the Cheat river by the most practicable route to the Pennsylvania State line. The privilege was granted to increase its capital stock to $50,000.

Doctoring in the Dark.

No sensible surgeon will attempt the performance of an operation involving human life in a room secluded from the proper amount of light. A practitioner will not attempt the diagnosis of a complicated disease unless he can see the sufferer and make an examination upon which to base his opinion relative to the course of treatment necessary to bring about a complete restoration of health.

Notwithstanding the impropriety of such action there seems to be a great deal of doctoring done in the dark.

By this it is not intended that a literal meaning be inferred, but that a great many mistakes are committed because of the darkness which is the result of ignorance. It needs no illustrations to demonstrate that gross ignorance has caused many fatal mistakes to be made in the treatment of diseases by those who profess to be learned in the art of healing.

In many diseases several organs are more or less implicated and what seems a primary ailment may be one quite remote. For instance, a severe headache may have its origin in a disturbed stomach. On the other hand, sickness at the stomach may be caused by a blow on the head. The seat of typhoid fever is in the upper part of the bowels, but most of its worst symptoms are often in the brain.

Symptoms of disease as well as diseases themselves are oftentimes followers or concomitants of some unsuspected organic disease and this is peculiarly true of lung, liver, brain and heart diseases in general, for it is now known that they are the result of kidney disease, which shows its presence in some such indirect manner.

Several years ago a gentleman became convinced of the truth of this, and through his efforts the world has been warned of kidney disease, and as a result of continued effort a specific known as Warner's Safe Cure was discovered, the general use of which has shown it to be of inestimable benefit in all cases where kidney treatment is desirable or necessary.

When consumption is threatened see to it that the condition of the kidneys is immediately inquired into, and if they are found diseased, cure them by an immediate use of Warner's Safe Cure, and the symptoms of lung decay will rapidly disappear.

There are too many instances already recorded of the terrible results produced by a lack of knowledge concerning the cause of disease, and human life is of too much importance to be foolishly sacrificed to bigotry or ignorance.

A farmer, living near Attica, Kan., will cultivate 70 acres of watermelons on his farm this year.

How It Works.

In answer to many inquiries regarding the permanency of cures wrought by St. Jacobs Oil to which public attention has been specifically called in many varied forms, the following serves as a most excellent example of how the great remedy performs its miracles and what is meant by a permanent cure. Hundreds have testified to the same effect. Mr. J. E. Bonsall, Prothonotary, New Bloomfield, Perry Co., Pa., in 1881 was permanently cured of rheumatism. From the age of 15 to 48, about 33 years, he had suffered acutely at times from the dread disease and at the date specified, he was permanently cured by St. Jacobs Oil. In proof of this, he writes in 1886 that he has had no recurrence of rheumatic pains since his relief in 1881. Again in April, 1888, he writes as follows: "My health continues good; no return of rheumatism since 1881 when cured by St. Jacobs Oil. I receive letters from all parts asking about my miraculous cure after 30 years suffering." There is no other remedy extant that can show like results, and when it is known that there are hundreds of such cases in the files of the proprietor, from those who have in like manner been permanently cured with out the least recurrence, there are none at this late date who will deny its miraculous virtues.

Insect Superstitions.

The Koran says all flies shall perish save one—the bee fly. It is regarded as a death warning in Germany to hear a cricket's cry, says London *Tid-Bits*. The Tapuya Indians in South America say the devil assumes the form of a fly. Rain is, in some parts of the country, expected to follow unusually loud chirring of crickets. Flies are regarded as furnishing prognostications of the weather and even of events. Spaniards in the sixteenth century believed that spiders indicated gold when they were found in abundance. Although a sacred insect among the Egyptians, the beetle receives but little notice in folklore. It is unlucky in England to kill one. In Germany it is said to indicate good luck to have a spider spin his web downward toward you, but bad luck when he rises toward you.

The grasshopper is a sufficiently unwelcome visitant of himself in this country, but in Germany his presence is further said to announce strange guests. A Welsh tradition says bees came from Paradise, leaving the garden when man fell, but with God's blessing, so that wax is necessary in the celebration of the mass. The ancients generally maintained that there was a close connection between bees and the soul. Porphyry speaks of "those souls which the ancients called bees." It is said that upon the backs of the seven-year locusts there sometimes appear marks like a letter of the alphabet. When this looks like a W it is thought that war is imminent. German tribes regard stag beetles as diabolic, and all beetles are detested in Ireland, more especially a bronze variety known as "gooldie." It is also believed that to see a beetle will bring an rain the next day.

I HEARD an odd story the other day about Bishop Heber's beautiful hymn, "From Greenland's Icy Mountains," said a well-known Cincinnatian. "What is it?" "It relates to the music of the hymn." You remember that Bishop Heber wrote it while in Cylon in 1824. About a year later it reached America, and a lady in Charleston, S. C., was struck with its beauty. She could find, however, no tune that seemed to suit it. She remembered a young bank clerk, Lowell Mason, afterward so celebrated, who was just a few steps down the street, and who had a reputation as a musical genius. So she sent her son to ask him to write a tune that would go with the hymn. In just half an hour back came the boy with the music, and that melody, dashed off in such haste, is to this day sung with that song.

SUNFLOWERS are used in Wyoming Territory for fuel. The stalks, when dry, are as hard as maple wood, and make a hot fire, and the seed heads with the seeds in are said to burn better than the best hard coal. An acre of sunflowers will furnish fuel for one stove for a year.

Thousands who have taken it with benefit, testify that Hood's Sarsaparilla "makes the weak strong."

Brown—"Fie, fie, my good friend, don't give way to your ailments so easily, and settle down into such gloom and despondency. There's no excuse for such conduct, when it's a well-known fact that all your bad feelings, terrible headaches, poor appetite, sense of fatigue, and lassitude, low-spirits, and hypochondriacal condition are due to torpid liver and consequent indigestion, and debility, which will all give way and disappear, as the dew before the morning sun, if you but make use of that world-famed anti-bilious, tonic medicine known as Dr. Pierce's Golden Medical Discovery.
