young, progressive pianists. Mailed and the difference between the great on receipt of 50 cts, in 2-c, stamps by and small men is very much the same in both professions. The last week small politician works by the day, and sees only the one opportunity before him, the small merchant does

the same thing-he is looking for the next dollar; the great statesman, on the other hand, is master of the situation because he understands the general principles which control events ; this knowledge en-

ables him to deal with large questions and shape the future. The great merchant does the same thing.

His business is not a mere moneygetting affair, not a mere matter of Sunday. barter, but a science and an art ; he studies the general laws of trade, watches the general condition of the country, investigates present needs. forsees future wants, and adapts his business to the broad conditions of his time and place. He puts as much brains into his work as does the statesman, and he ends by being, not a money-getter, but a large minded and capable man. An eminently successful business man of the statesmanlike quality said the other day that the more he understood of life the more clearly that he saw it was all done on business principles. By which he meant, not governed by unvarying laws, that this the leading festival of the 19th it holy. promptness, exactness, thorough, century. It takes money to keep ness and honesty are wrought in up a band, and as this one ranks
