NINE PERSONS DROWNED.

A STEAM YACHT FROM LORAIN, O., LOST IN LAKE ERIE.

The steam yacht Leo left the port of Lorain, 28 miles west of Cleveland, Ohio, on Sunday afternoon between 2 and 3 o'clock. having on board the following named gentlemen: John B. Tunte, I. D. Lawler, T. P. Ritter, Benjawin Kline, S. D. Knight, D. A. Lawler, Capt. Sam Root, Fred Pelow, and an engineer from Detroit. Nearly all of them were prominent and well-known men of Lorsin. The weather was fair, and the party looked for a pleasant run down to Cleveland, with the intention of returning by rail in the evening. About 5 o'clock in the afternoon a stiff blow came up from the westward and the yacht was seen to withstand it off Avon point, a few miles down the shore, by a fisherman at work in the neighborhood. The weather moderated somewhat and the excursionists, after putting out again for Cleveland, were met a short distance east of Rocky river by Mr. Dan P. Eels' yacht Winnifred about 7 o'clock in the evening. Captain Williams, of the Winnifred, says he saluted them and received an answer with cheers from the party. The weather was moderate then. Shortly afterwards the wind shifted to the northeast and it is thought that with this unfortunate change the Lorain people lost their lives. The shore to Rocky river with the exception of but one short strip of beach is a mass of cliffs and is very dangerous. Nothing was heard of the yacht until Wednesday moraing, when the bodies of Ritter and Lawler were found by the lifesaving crew floating in the lake. The remaining bolies are being searched for, but the work is slow and dangerous on account of the roughness of Lak - Erie

Notwithstanding the heavy sea the Life-Saving crew has made diligent search for the seven missing bodies, but reported that their efforts had been to no purpose. The yacht used naphtha for fuel, and it is the opinion of many sailors that the fluid exploded and

wrecked the boat.
The body of another of the missing yacht Leo's passengers was discovered on the lake shore, a short distance west of Cleveland, Thursday morning. It proved to be that of John Pelow, aged 21 years, of Lorain,

Pelow's clothing had been badly burned, and gave conclusive evidence that the Leo had been blown up. There is now no doubt that every one of the nine men on the yacht

was lost.

Whig and Tory.

There is some discussion regarding the first use of the term "Whig" and "Tory," as applied to political factions.
"Toree" is an Ir sh word meaning "give me," and as such was used by bundits and robbers. In Scotland "Whig means "sour milk." Tory was first used politically in 1679, when it became the name of the party sherents of James, Duke of York. The "Cove nanters" were the first Whigs, and it is said they took their party name from the motto, "We hope in God,"
