FORTY	LIVES	LOST.

A TERRIBLE RIVER ACCIDENT.

THE BOILERS OF THE STRAMER CORONA SLEW HER ROTTOM OUT.

The steamer Corona, of the Ouchita Consolidated Line, left New Orleans, for the Ouchita river with a full cargo of freight and s good list of passengers. She exploded her boilers at False river, nearly opposite Port Hudson, causing the loss of the steamer and about forty lives. The Anchor Line steamer City of St. Louis, Capt. James O'Neil, was near by, and with his crew and boats saved many lives. The surviving passengers and crew were taken on board by Capt. O'Neil, and very kindly cared for by him and his CTOW.

Capt. T. C. Sweeny, one of the owners, who assumed command on the death of Capt. Blanks, says the explosion was not due to a too high pressure of steam. He had just had occasion to examine the gauge and Is positive there was not a pressure of more than 135 pounds. The boat had a moderate cargo. She was in mid-stream just below the landing at Arbroth, and had just whistled to pass the City of St. Louis, fortunately coming down at the time. The explosion had a downward tendency and blew out the bottom of the boat, causing her to sink immediately. The cabin was torn in two, the rear portion floating down stream bearing a number of the and tayed. Capt. Sweeny happened to be forward and started at once to put out the flames, which began to burn at several places. He says the boat would undcubtedly have burned had she not gone down im- as to the trade for the rest of the mediately. None of the books, papers or other valuables were saved.

The City of St. Louis, which was about 500 ards above, at once put out her boats, and the did noble work in saving lives. The Anchor Liner stayed there several hours renan board the rescued passengers and crew-When nothing more could be done she went to Baton Rouge, where physicians were summoned and everything possible done for the injured. The only dead body recovered was that of Fred Overman, the second bar-keeper.

THE KILLED AND WOUNDED. The following are lists of the lost and taved as far as known;

Crew Lost-Captain Blanks, J. V. Jordan, first clerk; Charles Cellers, second clerk; Swimp Hanna, third clerk; Fred Dinkle and Fred Verman, barkeepers; Pat Ryan, steward; Dick Curtis, fireman; Tom Shook, engineer; Henry Doyle and James Swine, porters; Mr. Tate, barber; Heary Davis, fleck hand; Tom Cook; sailorman; Billy Young, second mate; Sam Steel, texas boy; both captains of deck watch; eight rousters.

Passengers lost-Dr. Atwell, corn doctor, and four negro musicians; Mr. Scott, Smithland, La.; Mr. Davis, stockman, Texas; Mr. Brunswick Presbytery embraces in its Koench and Mrs. Huff, of Opeleusas; Mrs. boundaries Princeton College and Seminary, Kaufman's nurse and oldest child.

of Captain Blanks; Mr. Wilson, of Red River cussion. Ex-President McCosh expressed Landing; fifteen rousters, names unknown. himself wholly in favor of revision. There is Crew saved-H. H. Jolle and L. T. Raw- danger," he said, "in stirring up this matling, pilots; Charles Pierce, steersman; J. W. ter, but there is more danger in ignoring it or Handly, engineer; Jack Miller, mate; Billy postponing it. The movement in favor of

THE WEEK'S BUSINESS. VOLUME OF OPERATIONS CHECKED BY A CLOSER

MONEY MARKET. R. G. Dun & Co.'s weekly review of trade anys:

A closer money market, as was anticipat-

ed tast week, has checked operations to some extent. The shipment of \$1,000,000 gold to Europe by a firm engaged in placing two large loans for foreign Governments, and therefore an xious to prevent further advance n Bank of England rates, was all the clearer evidence of the actual demand, because made at as mailer loss than reckoned at the current rate of exchange. A sudden fall in the rate from \$4 35 to \$1 867 was followed by an up ward movement again, and it seems not improbable that the exigencies of the Argentine Republic and the placing of the Russian loan may for some time to come affect the money market here. October disbursements and moderate purchases of bonds have made the market ensier for the present, but the rate on call, after rising from 51 to 8 per cent.,

rose even to 30 per cent. The reports of business from all parts of the country show increased activity on the whole, though in some branches trade is not up to the September level. Chicago finds business larger than a year ago, with heavy country orders, showing a large demand and easy financial condition throughout the West. 'The year's receipts of cereals fall off a little, but of provisions are nearly doubled. Cleveland finds all branches improving, and factories full of orders. Pittsburgh notes higher prices for iron and st el, the glass businesactive, with works all operating, and the coal trade dull, waiting water for the river movement. Throughout the West excellent crops are the basis of large boying by the farming districts, and confident hopes year. Bank exchanges for September show an increase over last year of only 2 per cent at New York, 21 per cent at Boston, Philadelphia and Chicago, and 71 per cent at all other cities taken together.

The iron business is in some danger of tering all the assistance possible and taking running into an unhealthy "boom," so great is the anxiety of many to stimulate the demand.

The Sugar Trust seems not unlikely to follow the copper syndicate an 1 the cotton corner, as least as far as prices are concerned. Raw sugar is lower, the demand for consumption being slack, and meanwhile heavy sales of Sugar Trust stock have depressed the price to about 9 cents. Cotton Oil Trust is also heavily sold and decilned sharply. Tin is lower at 201c and lead quiet at 3.96.

THE WESTMINSTER CONFESSION.

INE PRESERVERY OF PRUNSWICK DECLARS

AGAINST THE PROPOSED REVISION. The Presbytery of the New Brunswick, at its annual meeting in New Brunswick, N. J., discussed the proposed revision of the Westminster Confession of Faith. The New and the members of the faculties of both Mrs. Thomas Hough, of Opelousas, sister were present in force to take part in the dis-Higgins, bill clerk; Robert Carns, carpenter; revision has has been pushed very earnestly Wm. Fleming, second steward; Sam Gree, by the young men, and it will assuredly be

The National Assembly of Guatemala has approved a contract for building a railroad

HAMILTON WANTS A DIVORCE.

ROBERT RAY SUES FOR AN ANNULLMENT OF THE TIES THAT BIND HIM TO EVA. Robert Ray Hamilton began an action for divorce from his wife, Evangeline Hamilton, who is now at Mays Landing, N. J., awaiting transportation for the crime of assaulting Nurse Mary Ann Donnelly. The suit is brought for the annuliment of the marriage on the ground of fraud.

Mr. Hamilton, in referring to his marriage, says that his wife's maiden name was Evangeline L. Steele, and that they were married January 7, 1889. His consent to the marriage was obtained through the defendant's representation in March, 1888, that she was about to become a mother. In the same year, between December 17 and January 16, he received letters from Elmira, N. Y., representing that she had been delivered of a child. January 6, the day before the marriage, a female child was presented to the plaintiff as his own. The relations existing between the plaintiff and the woman prior to the marriage were such that her representations might have been true. But for these representations the plaintiff would not have married her.

Hamilton says he now has good reasons to believe that the women's representations were false and that the child was foisted upon him. It was in August of this year that he first became convinced of the deception praticed upon him, and since that time he has not waived any of his righ s by cohabiting with her. By way of complaint, the plaintiff says that at the time of his marriage, and prior thereto, the defendant had a husband living.

LOST IN THE RECENT GALE. AN OCEAN STEAMER FOUNDERS-NINETEEN OF

THE CREW PERISHED

Advices received from St. Jago relate a terrible accident at sea. On August 29 the steamer Earnmoor, Captain Richard Gray, cleared from Baltimore for Rio de Janeiro. When off the West Indies the vessel encountered the cyclone that ravaged the Atlantic coast during the first week in September.

She labored several days in the heavy seas and then began to fill. The men gave up hope, and on the 5th of September decided to abandon the ship. Two boats were launched. In one of them were the first officer, Painter; Second Engineer Meidrum and five seamen. In the long boat were Captain Gray, the first engineer, second officer and 16 others of the crew and 26 men-The long boat containing 19 men has not been heard from. It probably never will be, as it was greatly overburdened and the survivors of the wreck do not think it could have withstood the storm's fury.

The St. Jago dispatch says that First Officer Painter and Second Engineer Meldrum have arrived at Nassau in a boat with five of the crew. The men are in a horrible condition, being mere living skeletons. When their boat was picked up just outside of Nas sau they were lying in the bottom unable to move. For 10 days they had bad nothing to eat, and their only drink had be n obtained by stretching cloths and obtaining rain-

water.

BY FIRE.

FOUR MEN AROUSED FROM THREE SLEEP TO BE BUENED.

At Winona, Miss., a fire broke out in R. reaminant huilding on First street. It was only a few minutes after the alarm was sounded before the flames had completely enveloped the restaurant, the upper story of which was used as a sleeping apartment. Nine men were sound asleep in the upper story; five of the nine escaped, but four were burned to death.

THE NEW WARSHIP.

In a few days the Bureau of Construction and Repair and Engineering will have completed their calculation for the official re port of the trial of the Charleston and when that is done the Navy Department will accept the vessel. The contractors, the Union Iron Works Company, of San Francisco, will suffer a penalty of \$30,000 for lack of horse-power, the contract calling for 7,000 and but 6,700 being indicated.

Ail of them were prominent citizens of their respective communities and were enroute home from Memphis, where they went to purchase good . Every effort was made to save them, but the flames were well under headway before discovered, and by the time sufficient help arrived the walls had fallen in.

It was only by the most heroic efforts that the adjoining building and stocks were saved.

THAT AWFUL VENDETTA.

THE HATFIELD-M'COY FEUD RENEWED-A BRIDE, GROON AND MINISTER SHOT

The old Hatfield-McCoy feud has broken out again, and at least three more lives have been sacrificed in the bloody vendetta which. has now lasted over seven years. The shooting occurred at a marriage at the farm house ing. The steamer drifte i in the trot of Peter McCoy, His daughter was to become the wife of John Hand, a relative of the Hatfield gaug, and members of both factions had sworn to prevent the union. Hand had never been connected with the disputes of the factions, and refused to recognize the leaders. Tuesday night the bridal party assembled in McCoy's house, and just as young Hand and Miss McCoy stood before the minister a volley was poured through a window, which killed both of them and fatally wounded the minister. Reports say that the farmers and mountaincers are looking for the murderers, but no trace of them have been found.

COVERS ALL CASES.

AN IMPORTANT DECISION REGARDING SEIZURES IN DEHRING BEA.

Judge Sawyer of San Francisco, has rendered a decision which covers the cases of all sealers seized in Berhing Sea.

In 1887 the Scaling schooner San Diego, owned by L. N. Handy, was seized by the cutter Rush and ordered to Sitka. She went, and nearly 600 skins were condemned, brought here by Marshal Atkins and sold. Handy tried to enjoin the sale here on the ground that Alaskan Court orders did not iold but Judge Sawyer overruled this. The same principal involved in this decision holds in the cases of the two sealers that came here instead of going to Sitka. It is also claimed that it implies to all seizures by the Rush this year, as orders will hold good no matter where the seized vessel have taken refuge.

THE EXODUS OF NEUROES,-An immign tion society which has been recently established in Topeka, Kan., in connection with the late exodus of negroes of Oklahoma, has received letters from Tennessee, Georgia, Alabama, Louisiana and the Carolinas, stating that there would be 29,000 negro emigrants from those States as soon as they can gather their crops and get ready to leave.
