MORMON TACTICS.

STRIVING FOR A BALANCE OF POLITICAL POWER

George L. Shoup, the Governor of Idaho Territory, in his annual report to the Secretary of the Interior, gives the important provisions of the Constitution which will be submitted to the people for their adoption at an election to be held on November 5 next.

The report states that there are over 25,-00 people in Idaho who are adherents of the Mormon faith The population of the Territory is 113,777. Polygamy, however, is not at the present time openly practiced in the Territory, but the Governor adds that of the fact that it is practiced secretly to a limited extent there seems to be no doubt, as indictments are found in nearly every term of court held and a number of convictions have been secured. He states, however, that he has reason to believe that division of sentiment is sprin ing up in the Church me out the court finally adjourned in on the subject of the practice of polygamy. Under the Constitution polygamy will be prohibited, and the insertion

of this provision may be regarded, the report states, as the expression of the voice of the people of the Territory on this subject. The allotment of land to the Indians un-

der the severalty act, the Governor says, is progressing satisfactorily and with little opposition on the part of Indians. While the profits of the cattle growers have been reduced recently, owing to the prevailing low prices for beef cattle in the Eastern markets. yet the Governor says that there is a fair profit left to those engaged in the business.

Lewis Wolfrey, the Governor of Arizona, submitted his annual report to the Secretary of the Interior. Concerning the Mormons. the Governor says: Arziona had a law disenfranchising all who practiced, taught or encouraged polygamy. The first Legislative Act, signed by my pre lecessor, was the repeal of that act. I request and urge that Congress repeal the repealing act and re-establish the above Territorial law. Politically the Mormonsse m to have adopted the plan of sending colo i 's and "stakes" to the surrounding Territor es in sufficient numbers to form a balance of power between the two political parties. They are willing to trade with either, but remain true only so goop and awakened my husband, long as the interests of the Church are best served. The Church is their law, and all other law is subservient to the orders of the Church. The Mormons in this Territory number about 8,000.

DEVASTATED BY FIRE.

The Mission Creek country, north of Hinckley, Minn., is all ablaze. Pine, hay and lumbermen's supplies have been destroyed for miles around. Fires are also raging north of the Snake river and at Pine City. The smoke is so dense as to obscure a locomotive headlight 50 feet away. The destruction of the pine forests near Ground House is still in progress.

THE LABOR WORLD.

THE Pittsburg, Penn., maltsters have asked for shorter hours. Two assemblies of the K. of L. have been formed in Ireland.

St. Louis musicians average about \$770 a year, or \$14.85 a week. THERE are nearly 80,000 carpet workers of

both sexes in Philadelphia. SIXTEEN HUNDRED men are working at the Chester, Penn., shipyards.

THERE will soon be a national organization of the tile layers of the United State

THE pantaloon makers of Boston, Mass., have started a union with seventy members. An advance of fifty cents a day has been

THE workingmen in Chicago have subscribed to \$300,000 worth of the World's Fair

The Chinese tailors in Hong Kong are fighting against the introduction of sewing The eight-hour system is satisfactorily working in the British colony of Victoria,

Australia. The recent dock strike in London has, according to John Burns, the leader, been the means of raising wages in at least 200 trades

THE second annual convention of the Journeymen Barbers' International Union of America will be held in Detroit, Mich., De-cember 3d.

At the request of the tailoresses of Boston the labor organizations of that city will adopt a label which is to be placed on union-made clothing.

In the newly drafted Constitution for the State of Wyoming it is provided that "eight hours shall constitute a day's work in all mines and on all State and municipal works."

THE new locomotive works of the Pennsylvania railroad at Altoona, Penn., are to have a capacity of 500 engines a year, and are so constructed that their manufacture can be increased up to 1500.

First miners were lately killed by an explosion in the ironstone pit of the Maurice Wood Colliery, Scotland. Subscriptions are being raised all over the country for their widows and families.

CO-OPERATIVE stores are gaining ground in England and workingmen seem everywhere anxious to buy stock in them. Co-operative hat stores are flourishing in all the large cities and have proved a great success.

In order to replace the field laborers who have emigrated to Mexico and South America a company has been formed in Havana. Cuba., to make contracts with a number of workmen in Spain to bring them to Cuba with their families.

Workingmen in Paris are agitating for the eight-bour movement. A letter to that effect has been sent to the headquarters of the American Federation of Labor in New York city. The movement is the outcome of the visit of American workingmen in Paris.

visit of American workingmen in Paris.

A New York unionist, who is in Buenos Ayres, Argentine Republic, writes to New York saying that it is not hard to get work there. He says, however, that it would be foolish for any mechanic to go there expecting to get an easy job or to become rich. Carpenters get from \$2 to \$3.50; bricklayers, from \$2 to \$3, and bakers from \$1.75 to \$3.25.

There have been just two interesting examples of moral action by labor organizations. The New York Hod-hoisting Engineers' Union expelled a member who offered his boss \$3 of his weekly wages "just to have a steady job" and the Salesmen's Early Closing Association, of Newark, N. J., expelled a member for dishonesty toward his employer, The United Typothetæ, at its third annual

THE United Typothete, at its third annual convention held in St. Louis, opposed the eight-hour movement, which the Confederated Assembly of Trades Unions has declared will go into effect in May, 1890. Each local Typothete was advised to take such action as in its opinion may be necessary to meet the issue if it should be seriously presented.

k at Le Breton's herwood. Ottawa s. Ont., were de nilies were rendings were of a very total loss will not total loss will not total loss will not be new amnesty law which has just gone into effect.

was a very important tusiness in connection with a tonsorial establishment, In fact, it was almost a profession of its own. Cupping and leeching were very popular among the Germans, and, whether weak or strong, they followed the use. Not a great many years ago an apprentice barber invariably had to become as proficient in the application of the leech as he did in the shaving line. Barbers also did a good deal of tooth-jerking, but that part of the business is also no more, since dentists are

And money experimenting with doubtful remedies, when Dr. Pierce's Golden Medical Discovery is so positively certain in its curative action as to warrant its manufacturers in supplying it to the public, as they are doing through druggists, under a duly executed certificate of guarantee, that it will accomplish all it is recommended to do, or money paid for it will be promptly returned. It cures terpilitiver, or biliousness, indigestion, or dyspepsia, all humors, or blood taints, from weatever cause arising, skin and scalp diseases, scrofulous affections (not excepting consumpt on, or lung-scrofula), if taken in time and given a fair trial.
