THE ELECTION

BOYER ELECTED BY 60,000

SNYDER COUNTY POLLS A LIGHT VOTE BUT THE G.O.P. GETS THERE AL-LE SA-MEE!

Snyder County Official:

DISTRICTS.	St. Treas. H. K. Boyer Rep.	Ed. J. Richter Dem.	John M. Middleburgh Worth Co. Surv.

Union	70	31	67
Washington	87	65	96
Totals	1228	708	1372
Majority	520		

The above table shows a very light vote for Snyder county. At last year's presidential election 3,903 votes were cast. On Tuesday there were 1989 stay-at-homes, but as the estimated 500 Republican majority was held and twenty extra for good measure, we are entirely happy. It was dry all around, and that is why the Prohibitionists all voted. They polled 55 last year, on Tuesday they cast 53 votes for Johnson the Prohibition candidate for Treasurer, which were distributed as follows: Beaver township 11, Beaver West 6, Jackson 1, Middleburgh 2, Penn 1, Spring 19 and Selinsgrove 13.

In the State, Boyer was elected by upwards of 60,000.

New Jersey elects Leon Abbett, Democratic candidate for Governor by 5,000.

William Mahone was beaten for Governor by the Democrats in Virginia.

Ohio is claimed by both parties, Foraker, Republican candidate for Governor was terribly cut by the Germans.

Maryland was carried by the Democrats.

New York elected the Democratic ticket by 22,000 majority.

Massachusetts elected the entire Republican ticket.

Iowa Republicans claim the State by 8,000.

Written for the Post.
To The Farmers of Snyder Co.

Farmers of Snyder county and this grand old State, are we going to sell our wheat for 84c, are we required to manufacture brick without straw? In other words must we farm wheat at a loss, while other business is flourishing? The cry is the teacher of our common schools must have higher wages, we must have better school buildings, better roads, and in fact, all the late improvements. This is all very nice and good to have, but where is the tax to come from for all these late improvements? A few years ago a special law was passed taxing money at interest, and making it next to impossible for parties to avoid it who have money at interest. Now that brought in thousands of dollars but what good does it do the man that owns real estate. His taxes are still increased, the land has depreciated in value from 25 to 30 per cent. But the state demands the taxes all the same. The salaries of the state officers are increased, and every time the legislature meets they pass new laws and create some new office, all for the purpose it seems to grind the taxpayer to powder. During the past term they were trying to raise the salaries of Judges of the state, when in fact, they could be reduced; because we have fit men who would be willing to serve for less, and after they are out of office they are retired on salaries. At least this is the writer's impression. Now what farmer gets pension when he becomes old and feeble?

Not very long ago an intelligent farmer told the writer that twenty-five years hence not many farmers would own their farms. A sad truth, but true all the same. Many farmers can't pay their interest on money loaned, many can't pay their threshing from one year to another. These are facts. Now where is the

remedy? Is it in free trade or protection, did we try free trade at any time. These are questions the writer will not attempt to discuss, but these two words blind the poor farmer and are his eternal ruin. "Why so," the question may be asked? Simply for this reason: these are the hobbies of the two great parties. Farmers let us try and send men to Harrisburg who look to our interest, when a Democrat or Republican has your vote that is all he cares. The farmer is to be pitied who claims to be a Democrat or Republican because his father belonged to that party. You need not change your name or creed, but vote for the man who takes an interest in your welfare, be he Democrat or Republican. Don't believe these two parties that the country will go to ruin if one or the other gets into power. If the tax question is properly handled and adjusted then we can farm wheat cheaper.

Why can't the farmers combine for their mutual interest—same as the working men of our large cities. The writer is ready to meet his fellow farmers half way and form farmers' clubs in each township throughout the county, irrespective of party ties, and demand of the member of Snyder county to vote for measures that will reduce or unburden the farmer of some of the taxes, or make them more equal. We have young farmers who are quite intelligent as far as book learning is concerned, but in their own business of farming they plod along the same as the most ignorant. They don't stop and inquire why is this so. They get no farm papers and think they know all. It is all right to read the paper of your creed, but they don't bother much about the farmers' business simply because it is not in their line. If the farmer don't attend to his own business himself, who will? Is it not, brother farmers, time to call a halt? Would you not like to see those dear to you well situated in life when you are gone? What is in store for us if we don't soon rise up and demand justice? Are we so dull and slothful or what is wrong? Farmers, think over this matter.

A FARMER.

Half-Rates to the Catholic Congress at Baltimore, via the Pennsylvania Railroad.

The Catholic Congress, to be held in Baltimore November 10th to 13th, promises to bring together a very large assemblage of the clergy, the laity, and the church organizations from the entire Union. The scope of the meeting has far out-grown the original indications, and in view of these considerations the Pennsylvania Railroad Company has arranged to sell excursion tickets to all visitors to Baltimore on this occasion at a single fare for the round trip. The tickets will be sold from all stations on the Pennsylvania system November 7th to 12th, valid for return until November 16th, 1889.
