TROXELVILLE.—I see in the POST that it's editor has been informed that some scoundrel has been dynamiting the fish in Swift Run. Upon making inquiry, and as far as I am able to learn, no dead fish are found above Aumillers' Saw-mill, but from there down the creek is strewn with dead fish of all sizes. The Aumillers throw all their saw-dust into the creek to get it out of their way, and that is what is killing the fish in Swift Run, and not dynamite. I am also told that they say they will continue to throw it into the water as long as they are not notified to stop it. If such a reckless killing is to be tolerated then we had just as well discontinue our custom of planting trout fry every spring—which we have done for the last four or five years.

Our hearts were made glad on Friday noon when we saw it commence to snow, but our gladness was of short duration, and it commenced to rain that night, and on Saturday morning a good slush, and our hopes for a sleigh ride were doomed.

THE SUN

FOR

1890.

Some people agree with THE SUN'S opinions about men and things, and some people don't; but everybody likes to get hold of the newspaper which is never dull and never afraid to speak its mind.

Democrats know that for twenty years THE SUN has fought in the front line for Democratic principles, never wavering or weakening in its loyalty to the true interests of the party it serves with fearless intelligence and disinterested vigor. At times opinions have differed as to the best means of accomplishing the common purpose; it is not THE SUN'S fault if it has seen further into the millstone.

Eighteen hundred and ninety is the year that will probably determine the result of the Presidential election of 1892, and perhaps the fortunes of the Democracy for the rest of the century. Victory in 1892 is a duty, and the beginning of 1890 is the best time to start out in company with THE SUN.
