**Who is Doctor Riegel.**

From the Shamokin Daily Dispatch.  
Do you know W. A. L. Reigel, M. D.? The doctor is a specialist. He took special delight in running an advertising bill of \$59.27 with this office and likewise special pains not to pay it.

He made a speciality of the ear. Two pair of ears were worn out in the DISPATCH office listening for his "footsteps on the stairs."

The eye was another great speciality of the doctor. Two pair of DISPATCH optics have been nearly blinded looking down Commerce street specially for the special optician.

The doctor also had a special hobby in diagnosing the nose. Two nasal organs have been entirely ruined trying to sniff his whereabouts.

The throat is what the doctor took special pride in. He would take a jeweler's magnifying glass and look down on your larynx for a few dollars and discover you had a special ailment. The doctor made a special Dr. Jekyll and Mr. Hyde transformation by the removal of an especially beautiful stock of sorel whiskers. The object of this enterprise has not been made public up to the hour of going to press. But the specialist has disappeared.

He took a special train for a special visit to special Snyder county friends to specially specify that he wanted special money to specially satisfy special Shamokin claims.  
Now he is basking on the western bank of the broad beautiful Susquehanna, within the jurisdiction of the Hon. Judge Bucher, presumably working in a special way.

It is possible that the doctor has clasped ethereal wings with Dr. Bowers the specialist, Professor Fabish the optical specialist and Professor Gleason, the manly educator and professional fake. That they are holding a mutual admiration society and gloating over their fine Italian work is the wish of the DISPATCH. Seriously, Dr. Reigel should come to Shamokin specially and give the DISPATCH office free special treatment.

**THE SUN**  
FOR 1890.

Some people agree with THE SUN'S opinions about men and things, and some people don't; but everybody likes to get hold of the newspaper which is never dull and never afraid to speak its mind.  
Democrats know that for twenty years THE SUN has fought in the front line for Democratic principles, never wavering or weakening in its loyalty to the true interests of the party it serves with fearless intelligence and disinterested vigor. At times opinions have differed as to the best means of accomplishing the common purpose; it is not THE SUN'S fault if it has seen further into the millstone.  
Eighteen hundred and ninety is the year that will probably determine the result of the Presidential election of 1892, and perhaps the fortunes of the Democracy for the rest of the century. Victory in 1892 is a duty, and the beginning of 1890 is the best time to start out in company with THE SUN.
