FIFTY-FIRST CONGRESS.

The Senate summarily disposed of the Montana election contest Wednesday by seating Sanders and Powers, the Republican claimants. During his speech in behalf of the Democratic claimants Mr. Kenna recalled a remark of Mr. Sherman when the admission of Mr. Mahone as a Senator from Virginia was before the Senate to the effect that "anything that will beat down that party and build up our own is justifiable in morals and in law" and reminded Republican Senators that when they raped Montana, the youngest maid in the sisterhood of states, and before maturity, they did it under the damning and damnable pretext that "Anything that will beat down that party and build up our own is justifiable in morals and in law."

A resolution declaring the Republican claimants entitled to the seats was adopted by a strict party vote, yeas 32, nays 26. Messrs Sanders and Powers were immediately escorted to the clerk's desk by Senators Hoar and Washburne; the oath of office was administered to them by the Vice President and, after a brief executive session, the Senate adjourned.

It is understood that Maginnis and Clark, the Democratic claimants from Montana, will go into the courts to test the legality of the decision of the United States Senate by which they were refused seats.

The McKinley Tariff bill, which has been so long delayed, and whose presentation has been so often postponed, was presented to the House Wednesday afternoon, and with it the reports of the majority and minority of the Ways and Means committee.

The majority prepared a surprise for the country at the last moment by deciding to place sugar below No. 16, Dutch Standard, on the free list, and providing a bounty for sugar manufactured in the United States. This is a concession to those Republicans who insisted on having free sugar or nothing. It will probably secure the passage of the bill, although Mr. McKenna, one of the Republican members of the committee, refused to sign the majority report with the free sugar clause, and the Louisiana sugar interests are protesting vigorously.

The demand of the tanners and shoe manufacturers for free hides was also conceded, hides being placed on the free list.

The reports of the majority and minority members of the committee are regarded as among the strongest documents ever prepared on the tariff problem. The debate on the bill will begin in a few days and will be cut as short as possible.

Friday, Mr. Platt introduced a bill for the admission of New Mexico, and said that he did not in doing so intend to commit himself one way or the other. Mr. Payne introduced a bill for a monument to Commodore Perry, at Put-in-Bay, Ohio. On motion of Mr. Plumb, the Senate voted to take up for consideration the Senate bill to forfeit certain railroad lands.

In the House, Mr. Enloe of Tennessee, rising to a question of personal privilege, sent to the Clerk's desk and had read an article from the New York *Press*, declaring that a gigantic job had been discovered in the Southern War Claims bill introduced by him.

The article further states that Mr. Thomas, of Wisconsin, chairman of the committee on war claims, had denounced the bill as one of the most infamous which had ever been foisted upon Congress.

Mr. Thomas said he had not censured any member of the committee. He had stated that if the bill passed the House it would be infamous, believe he thought he could prove that a number of the claims in the bill were the claims of persons notably disloyal.

Mr. Enloe said that the charge in the article that he had brought the bill before the House in a surreptitious manner was a falsehood made by the correspondent, or a falsehood made for him and repeated by him. His action in regard to the bill had always been straightforward, and he denounced the article as a slander on the bill and on the members of the committee.

Mr. Thomas reiterated his statement that a number of the claims in the bill were those of disloyal persons, and that a number of them had never been examined by the committee.

Mr. Butterworth, of Ohio, moved that the House go into Committee of the whole for consideration of the Legislative Appropriation bill, but the friends of the private calendar mustered sufficient force to defeat the motion—Yeas, 112, nays, 116.

Mr. Cannon, of Illinois, submitted a disagreeing conference report upon the National Zoo bill. The report having been agreed to, Mr. Cannon moved that the House insist upon its amendment, which requires the District of Columbia to bear one-half the burden of the expense of the maintenance of the park.

In the Senate, among the bills reported Monday from committees and placed on the calendar were the following: Senate bill to provide for an additional Associate Justice of the Supreme court for Territory of Arizona. House bill to amend the act to extend the fees of certain officers over the Territories of New Mexico and Arizona.

Mr. Reagan introduced a bill to repeal all laws for the retirement of army and navy officers from active service and pay, and gave notice that he would on next Wednesday address the Senate on the subject.

Mr Plumb introduced a concurrent resolution directing the Secretary of the Treasury to increase the treasury purchase and coinage of silver bullion to the maximum amount authorized by the act of February 28, 1878, and gave notice that he would ask for its consideration to-morrow.

On motion of Mr. Hawley the Senate proceeded to consider the House bill to provide for celebrating the four hundredth anniversary of the discovery of America by Christopher Columbus, by holding an international exhibition of arts, industries, manufactures and product of the soil, mine and sea, in the city of Chicago, in the State of Illinois.

The only amendment reported by the Senate Committee is the insertion of a new section providing for a naval review in New York harbor in April, 1892, and for the unveiling of a statue of Christopher Columbus at Washington.

Mr. Hale inquired of Mr. Hawley whether it was intended that the Government should furnish the statue of Columbus.

Mr. Hawley replied in the affirmative, and stated that a bill for that purpose had already passed the House and was now pending in the Senate.

Mr. Vest said that it seemed to be assumed that, because the House had passed the bill, the Senate was under coercion to pass it. He protested against such an assumption. The bill would probably pass the Senate by an overwhelming majority, but no measure would ever pass the Senate with his vote on the assumption that the judgment of the House was coercive on the Senate. That would be for the Senate to abrogate its constitutional functions.

Mr. Farwell asked whether such a claim had ever been authoritatively made.

Mr. Vest said that as a matter of course it had not been authoritatively made because such an idea would cover the author of it with confusion. But it seemed to be assumed in other places than the Senate. He knew that his opposition to the bill would be ascribed to the fact that the city of St. Louis had been aspirant as a site for the World's Fair. That was a post mortem proceeding and he did not propose to introduce ghosts to disturb the equanimity of the Senate or the tranquility of the city of Chicago.

In the House, Mr. Dorsey, of Nebraska, introduced a joint resolution that the Secretary of the Treasury be and he is hereby directed to increase the Treasury purchase of silver bullions to the maximum amount authorized by an act "to authorize the coinage of the standard silver dollar and to restore its legal tender character," which act was passed over the veto of the President and became a law February 1878. Referred.

On motion of Mr. Struble, of Iowa, a bill was passed amending the act authorizing the construction of a high wagon bridge across the Missouri river at Sioux City, Iowa.

On motion of Mr. Thomas, of Wisconsin, a bill was passed providing that soldiers who lost their limbs during the war shall be entitled to receive an artificial limb every three years. [The present law permits him to recive it every five years.]

THE NATIONAL GAME.

OHIO is the banner baseball State.

YALE has a great catcher in Poole.

A BOYS' LEAGUE has been organized in Chicago.

BASEBALL is getting a firm hold in England and Scotland.

THE young players in the big clubs are showing up strongly.

ROSEMAN, of the old "Mets," is now playing ball for St. Louis.

THE veteran Crowley is with the Philadelphia Players' Club as captain.

LOUISVILLE has two college graduates in its team—Taylor and Shinnick.

THE balk rule will be rigidly enforced in all of the Players' League games.

THE length of the Cleveland Brotherhood grounds is 335 feet. They are 335 feet wide.

THE first serious accident of the season due to base-stealing was reported from the Texas League.

JOHN HUNT, the American Association umpire, has resigned on account of throat trouble.

SECOND BASEMAN BIERBAUER made the first home run on the Brooklyn Players' ground.

THE New York League team will be uniformed in white and black "Nadjys" again this season.

A NEWEL baseball league has been formed at Brantford, Canada, the deaf mutes of the province organizing.

JACK GLASSCOCK has been formally installed as Captain of the New York National League baseball team.

GEORGE WASHINGTON BRADLEY, the veteran pitcher, is scoring baseballs at Reach's factory in Philadelphia.

THE Brooklyn National League Club has practised at least twenty-five young pitchers without satisfactory results.

A CLEVELAND League Club player was the first this season to fall victim to the ancient ruse, the ball-under-the-arm trick.

EVERY League and Association player now with the Players' League is on the look-out. The order went in force on April 1.

OHIO Van Haltren and Gerhauer are playing phenomenal ball for the Brooklyn Players' League team. Joyce is also showing up well.

DIRECTOR LEMON is given as the authority for the report that Beckley is to get $4,000 salary from the Pittsburg Players' League Club.

CHAMBERLAIN, the crack pitcher of the St. Louis Club, recently suspended by Von der Ahe for alleged insubordinancy, has been reinstated.

WHEN George Wood met his defeat in the League in 1885 he received a salary of $875. Last year he was paid $2,700 by the Philadelphia League Club.

BANDIE RICHARDSON and Dan Brothers are now playing together in the same club, the Boston Players' League for the tenth consecutive season.

ONEONTA, N. Y., has a baseball nine composed of young ladies, that intends to astonish the world this coming season by making base hits and "scoring one" for fun.

WHILE practising before a game in Lowell Joe Quinn, of the Boston Players' League Club, had his nose broken by a thrown ball. Dick Johnston is laid up with a sprained ankle.

THE New York team of last year, exclusive of Murphy, Welch and Tiernan, cost John B. Day $45,000, and the team is will put in the field this year will be a much more expensive one.

JACK NELSON, who is now the oldest player in active service, still plays a fine game at short field for the Metropolitans of New York city. He still does the "scratching-for-gravel" act at bat.

ARTHUR IRWIN has been elected a director of the Boston Players' League Club. The other players on the Board are Kelly, Brouthers and Richardson. The club sold its scorecard privilege for $2,500.

HATFIELD seems to be a worthy successor of John Ward as the New York Brotherhood Club's short stop. He has been playing a very clean fielding game, and his batting has been timely, though not heavy.

ONE of the most important corners at Brotherhood Park, in New York city, will be the "cranks' box." Its location will be in the northeast corner of the grand stand balcony, and fifteen seats only will be inclosed.

PETE BROWNING, of the Cleveland Players' League, says he is going to slide this season if it breaks his neck. During Browning's long experience as a baseball player he would never slide on a bet, and not a few games have been lost by Louisville which were directly attributable to that.

JIM HART leaves for Europe in a few days to better organize the National Baseball League of Great Britain. The teams are composed of cricketers and have adopted a schedule for the season. Hart will take with him players Maskrey and Prior, who will also teach the American game to the Britishers.

LIVE-STOCK MARKETS.

Movements and Prices at the Central Drove Yards, East Liberty.

Prime 1,400 to 1,500 lb. cattle may be quoted at 4 75@5 00, while there was nothing sold at 5c for the right sort of stuff. The prime-quoted rule is one to have been very good. Light to fair 1,000 to 1,200 lb. cattle sold at 4 to 4 40, and the lowest 1,000 to 1,200 lb. steers from inferior points who had not been fed before for several weeks, and the prices demanded almost took the breath away from some of them. There were lookers for stockers and feeders, with but few on sale, and for these prices ruled higher. The former weighing 700 to 800 lb. brought 3 to 3 25, and feeders averaging 1,000 lb. 3 60 to 3 75. These prices are for natives, those from the far West are not wanted, as buyers are suspicious lest they be infected with the much dreaded western cattle fever. Dry cows and bulls, common to good, 2 to 3 50.

Wolves are very troublesome on Beaver creek, in the northeast part of Jackson county, Michigan. They have driven wood-men into the river, and it is said has not brought help they would have otherwise had. Also a panther they have followed several times for months, coming within a few rods of the log woodsmen.

A man who has practiced medicine for 40 years ought to know salt from sugar; read what he says:

TOLEDO, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience, have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in concussion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours Truly,

PAT'S DILEMMA.

Shure, docthor, this pain is the awfull!
Be jabbers! I'm all of a sweat!
I hope you will thry to relave it,
For I belave me, I can't lay me shet!

Well, Pat, I will try and relieve you, directly,
(With a smile which Pat's speech had in-
And if you can't "lay" nor "set" rather,
Perhaps you had better just roost?

But, Pat, for the pain you complain of,
Surely there is relief, I think I would try Dr. Pierce's Golden Medical Discovery, too.

For Liver Disease, Biliousness, Indigestion, Scrofula or any blood taint or disorder, the "Golden Medical Discovery" is the only remedy possessed of such superior curative properties as to warrant its manufacturers in selling it, through druggists, under a positive guarantee that it will either benefit or cure in every case, or money paid for it will be refunded.

It's a legitimate *medicine*, not a beverage; contains no alcohol to inebriate, no syrup or sugar to derange digestion. As wonderful in its curative results as in its *peculiar* composition. It stands alone—*incomparable*. Therefore, don't be fooled into accepting something instead, said to be "*just as good*," because the substitute pays the dealer a better profit.

The equal of the "Golden Medical Discovery" has not been invented; if it were so, it won't be sold for less price than what the "Discovery" costs, viz: $1.00, or six bottles for $5.00. It's a concentrated vegetable extract. Dose small and pleasant to the taste. Equally good for adults or children.

To invigorate the liver, sharpen the appetite, improve digestion, and build up both strength and flesh, when reduced below the standard of health, it ranks *pre-eminent*. Has the largest sale of any medicine in the world, *without a parallel*.

For all itching, scaly, festering, burning, tormenting Skin and Scalp diseases, it is especially efficacious. Salt rheum, Tetter, Eczema, Erysipelas, Pimples, and all humors, from a common pimple or eruption to the worst Scrofula, vanish under the use of this world famed remedy, if continued for a reasonable length of time. Scrofulous Sores and Swellings are cured, and the most tainted systems are built up when this persistent now cleansed from the vicious virulent blood poisons and completely eliminated and built up anew. World's Dispensary Medical Association, Proprietors, Buffalo, N. Y.
