REVIEW OF TRADE.

SOME SIGNS OF A REACTION.

Heavy Speculation Absorbing the Ready Cash.

R. G. Dun & Co.'s weekly review of trade says. The stock market has rushed ahead until it has absorbed all the money within reach, and now some signs of reaction appear with a little selling by foreign holders. Substantially the same phenomena have been observed in the wheat and corn markets and in the market for pork products. Each has at command a limited supply of money. When that supply is obsorbed, whether by accumulation of stocks carried or by advancing prices, a reaction is natural. The tendency of prices during the past week has been downward. wheat declining 2 cents on sales here of only 24.0 0.000 bushels, corn 12 cents on sale of 12 to .000 bushels, while oats are steady. The trade begins to comprehend that inside file days a new crop of wheat will begin to come into the market, and while winter wheat is certain to be short the re, orts from springswheat States indicate great increase in acreage and good condition. The cotton market is sluggish. Oil is to cents higher, without definable reason.

UNSATISFACTORY TROV MARKETS. The market for iron is weaker and the increased production is sufficient explanation The Philadelphia market is "waiting." the produced market is less strong in tone, and sales of Southern iron continue to push down prices in New York. Steel rails have been a lel this week at \$30 fer, and \$31 is freeir quoted. The structural iron market shows no improvement, but plates are in fair demand, and her iron is thought to be at the bottom. he key of the iron businow is that railroad building does not increase, and the demand for structural from is cut down by the concession of the eighthour day to the building trades in many cities. Coal is still weak, but copper and

nn are firm and rising.

ENCOURAGING THADE HUPORTS. The reports from other cities are almost uniformly encouraging. At Philadelphia, in the leather and boot and shoe trades there is activity, while the wool manufacture is hindered by apprehension of higher prices, and spinners take for immedia e wants only, This is true of Boston also, though the prices realized at the recent flannels' auction here have a depressing influence. At Chicago dry goods sales exceed last year's and payments are fair, but the clothing trade is dull, and the fact that bank clearings are larger than ever before finds explanation in speculative activity in the grain and pork markets. St. Louis reports a good trade, and supplies of money equal to the demand, while at Pittsburgh trade is rather dull, at Cleveland fairly active, causing some monetary stringency at Milwaukee, only fair at St. Paul, improved by recent rains in the Northwest, where drought began to be feared at Kansas City rather quiet, and ar . -ha good with easy money.

THE MONEY MARKET. The monetary situation at New York has not been altogether satisfactory. The foreign trade of the post is more satisfactory than was expected, showing an increase over last year of \$1.9 .000 in exports for half of May, or more than 40 per cent.

Confiding Relative. J. H. Wallace, editor and proprietor of Wallace's Month y, has been robbed of \$50, 000 by a relative named Robert L Wallace, a young man less than twenty years old. who had been employed by the elder Wallace. Leslie E. MacLeod, an associate editor of the publication, was arrested charged with being an accomplice in the robbery. He will have a hearing next Monday. Young Wallace has left and detectives are looking for him. The facts in the case are suppressed.

ROBBED OF \$13,000.

A Stock Dealer Leaves That Amount on a Car Seat.

Andrew Freeman, a stock and grain dealer of Herrick, Ill., alighted from a train at Delaware, O., leaving a hand satchel, with the key in it, containing \$13,000 on the car seat. When he re-entered the car he found the cash abstracted and the satchel filled with bricks and paper. The money represented the proceeds of the sale of several car loads of stock in New York. He refused to make complaint to the local police and left for home at once.

Petitions to the Czar.

If the Czar does not take steps to modify the workings and effects of the prison system in Siberia it will not be because the existing evils are not called to his attention, or at least to the notice of his Ministers and others around him. Private letters and dispatches from St. Petersburg state that petitions from England, America, Germany, France and other countries are arriving at the respective embassies and legations in great profusion, with requests that they be laid before the Czar immediately.

A Stricken Town.

Red flags are fluttering on every street in Easthampton, Mass. It has an epidemic of dphtheria. Over 100 cases are reported and \$0 deaths have resulted. John Messer has lost four children within five days. The hotel has been closed and placed under quarantine, several cases being there. A corps of physicians from the Massachusett. General Hospital took charge of the epidemic. The blame is laid to the lax enforcement of sanitary laws by the Board of Health and the non-quarantining of cases in rich fami-
