There are a great many people in the world who, when a question is brought before them, never stop to consider the right and the wrong of it, but the first thing that pops into their noggin is, which side will strike the popular current?

It is very unkind of subscribers who owe us on subscription to move outside of the county without settling for the same and then request the post-master to order the paper sent to them. We only send the Post to people outside of the county when paid in advance, and only to those inside of the county whose honor we trust. To betray such confidence is the next meaning to pasturing your cow on your neighbor's grave.

In response to an urgent appeal from the Russian famine relief committee of the United States, Governor Pattison on Monday issued a proclamation to the people of Pennsylvania, recommending a prompt and generous response to the appeal for aid of the Russian famine relief committee of Washington.

Once in eight years all the locks on United States mail bags must be changed, if not oftener. This is because after a while a good many lost keys get around, and they are not very safe to have so distributed. Just now the equipment division of the postoffice department is making over 250,000 locks, merely for the purpose of rendering them different.

A prominent citizen of Auburn, DeKalb county, Ind., Col. Watson, comes out in last week's Dispatch with the following card: "Feeling the disgrace to my family and friends, as well as to myself, I do hereby notify that any one who buys, sells, or gives me any liquor, will be prosecuted to the full extent of the law, knowing that my appetite at certain periods is such that I have no control over it."

The weighing of the United States mails, which takes place every four years, will be commenced about the middle of February, and will be continued thirty days. The purpose of this weighing is to form an estimate on which to base the contract with the railroads for carrying the mail. The time mentioned is selected as being about the average, the heaviest period being during December and January, and the lightest during August. Weighers are employed by the department who weigh all mail handled.

Mr. Ground Hog saw his shadow early on Tuesday morning and immediately retired to his quarters for a six weeks' snooze.

A census bulletin gives the Lutheran communion in the United States, which represents four general bodies, twelve independent synods and many independent congregations. There are 1,169,214 communicants, connected with 8,427 organizations, with church property valued at \$34,218,234. The largest number are found in Pennsylvania, in the eastern part of which the Lutheran element predominates.

J. K. OBERHOLTZER, Millintown, Juniata county, Pa.

Hundreds of persons suffering with frosted feet, chilblains and similar ailments, will thank us for the following recipe, which is a sure cure: Put half a pound of alum in six quarts of water, put the feet in while it is warm, leave them in for ten minutes, and then retire. The bath should be repeated every night for a week. Persons so desiring can use the same water every time by adding one pint of fresh boiling water at each subsequent use.

What a wonderful age do we live in and what a wonderful half century we have just left behind. One can hardly realize how little there was in the world 50 or 75 years ago. No ocean steamships; no railroads; no street cars; no telegraph; no ocean cable; no phonograph; no sewing machines; no photographs; no electric lights and not even kerosene; no steam fire engines. We wonder how people carried on business half a century ago.

Last week we addressed superintendent Moss of the S. & L. road for free transportation of wheat for Russia over his line from the sender to the mills where it is to be ground. The following is his reply, which, though unsatisfactory so far as our request is concerned, still shows that he is in sympathy with the movement and would most gladly grant the privilege were it in his power to do so:

T. H. HARTER: Referring to your favor of the 26th instant, would state, that there are many questions involved in the matter of furnishing free transportation for the object you desire, although we appreciate the motive which influenced you in the worthy undertaking you can at this time hardly cooperate with you in the matter. Although later something may be done, as the entire Pennsylvania system may be called upon to do something in the matter. Yours truly, A. W. Moss, Sup't.

Old Abe Lacy, the prince of tramps, has at last found a home. The authorities of Juniata county have removed him to the Insane Asylum at Harrisburg. Abe's history is interesting. He was "Old Abe Lacy" fifty years ago. His life is a practical demonstration that "the world owes every man a living." The change did not suit Abe at all, but it suited the people whom he had been pestering. It is said that Abe came from a wealthy family that resided in Northampton county and that the cause of his nomadic life was disappointment in love. Doubtful, very doubtful. Did Abe ever love anybody well enough to break his heart? Hardly. His notoriety was acquired upon the principle of being positively good for nothing known to man or beast, and the people who were the sufferers from his devilment in years gone by will be only too glad to learn that he will never annoy them again. Shakespeare says: "The good men do is buried with their bones" and it is our private opinion that Abe's bones will not be crowded for room.

Wickersham Memorial.

TO THE TEACHERS OF SNYDER CO: It affords me great pleasure to call your attention to the plan of the Wickersham Memorial proposed by a committee appointed by the State Teachers' Association at the last session. In order to bring this matter prominently before the schools of the State, and increase the general interest in the subject, the committee recommend the observance of March 25, 1892, the first anniversary of his death, as Wickersham Day. They have in preparation leaflets containing suitable matter for that purpose, which will be furnished at cost to any teacher wishing to use them, upon addressing the Secretary of the committee, Miss Elizabeth Lloyd, Newton Square, Delaware Co., Pa.

Dr. J. T. Wickersham was long and prominently identified with the common school system of Pennsylvania and the Memorial contemplated by the committee is a fitting tribute to him who spent his life in ennobling and perfecting a system of public instruction of which the State may be justly proud.

The proposed scheme of establishing a "Wickersham Memorial Library of Pedagogical Works" meets my cordial approval and I hope that Snyder county will contribute her full share in making the plan most eminently successful.

CHAS. W. HERMANN, County Supt.

Nathaniel Walter Dead. 1872 — JAN. 30

Nathaniel Walter, died at his home three miles north of Middleburgh on Saturday morning, from injuries sustained in the runaway accident on Tuesday evening before, recorded in last week's Post. The injuries were internal, and it is said he suffered excruciating pain for six hours before death relieved him. He was aged 53 years, 4 months and 28 days. The funeral took place on Monday forenoon at the Salem church—Revs. Stoyer and Berger officiating. Mr. Walter leaves a widow and large family to mourn his loss. He was a well-to-do and prosperous farmer; hard-working and honest—a kind father and good neighbor.

Communicated.

On Friday the Troxelville hunting party tried their skill once more on a two days' bear hunt. They climbed the beautiful hills and hunted through "The Spruce," and by 4 p. m. they had made bruin their prize. W. F. Ettinger, the famous young bear slayer, wears the belt now—it being his third victim for this fall. Two weeks ago this same party had been out, wounded a bear, and their dogs chased him across the valley until he came in contact with Keister & Bro., who had him clubbed to death, when a certain individual came upon the scene and shot the animal in the head while Mr. Keister was sitting on the animal's neck. He got his share and that is what he wanted. T. H. P.
