One of the noblest things in the world is the self-sacrifice which leads a woman to toil to the utmost of her strength, and beyond it, in support of a sick or crippled husband. But when you look at a strong, healthy man who permits his wife to earn the family living while he loaf around bar-rooms and rails about the wrongs of labor, you don't feel any inspiration, unless it be to kick the fellow.

The Fetterolf boy, bitten by a rattlesnake, last week, is out of danger. His wrist was wound with a cord to prevent circulation, and cut onions placed on the wound, and a heavy dose of whiskey administered internally—all, fortunately soon after the snake had struck his finger. The finger and hand had swollen some, and considerable pain had been felt from the effect of the bite.—Centre Hall Reporter.

Men with money are denounced as fossils and enemies of progress when they put it on interest and settle down to enjoy a life of elegant leisure. If they build mills and factories and employ large numbers of workmen they must be prepared to hear themselves described as monopolists, plutocrats, oppressors to the poor, beneficiaries of protection, and much more of the same sort. This is hardly just.

Judge Middleswarth Dead. Hon. Aaron J. Middleswarth died on Friday afternoon, Sept. 9th, in Beavertown, near the place where he was born and lived nearly all his life. He was conscious to the end, and suffered very little pain. For the last few years he had been very much enfeebled by his age, but the immediate cause of his death was a malignant disease of the stomach (something like cancer) which caused him to take his bed two weeks before he died. The deceased was one of the twelve children of Hon. Ner Middleswarth, dec'd, and a twin brother to A. K. Middleswarth, of McClure. He was born Jan. 22, 1815, raised on the farm and followed farming for a great many years. For the last eighteen years he lived in town—the life of a respected and honored well-to-do retired farmer. He held in his life various township offices, the office of Associate Judge of Snyder county for one term. Before the late civil war and during the days of Battalia, he served as Major, Lieutenant Colonel, and Brigadier General. He was married three times. With his first wife he had eight children; and with the second four, of which one son and one daughter are dead. His third wife and five sons and five daughters survive him. He was for many years a member of the Lutheran church. Rev. D. M. Stetler, of Mahanoy, and Rev. W. M. Landis, of the Reformed church, officiated at the funeral, which took place on Tuesday and was very largely attended. His age was 77.

Charles Heimbach Killed. Charles Heimbach, of Pardee, was killed at that place on Tuesday night of last week. He was engineer on the dinkey and at a curve in descending from Treaster mountain the ties gave way and engineer, engine and all went down among the trees and rocks with fearful effect. Heimbach was instantly killed, and the engine was broken and twisted out of recognition. Pardee seems to be a fated place for lumbermen. A death occurred there on the 29th of August. The victim was Isaiah Bell, who slipped and fell in front of a moving truck and was cut in two.

PORT TREVORTON. Boating is dull, but from the shocked appearance of the corn fields along the canal banks the choppers must at least have been keen. The other evening we were treated to a sight that bore a most striking resemblance to a snow squall of living flakes. The air was literally filled with white flies wafted about by the evening breeze. Where they came from remains a question, but that the countless millions that fell into the river became food for the fishes we haven't the least doubt. The union ferry steamboat, in order to have its bottom calked, was lifted out of water. This was rather a weighty undertaking and some advocated the use of an applejack. This jack possesses the raising tendency of a hydraulic jack, but is applied directly to the bottom instead of to the keel. While the boat was being raised, it can often raise a row. The river has fallen several feet below low water mark; sand bars, gravel beds, and grass patches are peeping out almost everywhere. The fishermen now invade Bassdom with turned-up trousers. Game fish, however, seem to be scarce, but many suckers come in early in September. While most farmers are predicting that the scarcity of the crop will cause potatoes to be worth one dollar per bushel, Sylvester Flanders, one of our scientific potato growers, says this must be a mistake, for he will have an exceedingly large crop. This yield is, perhaps, only the result of his systematized cultivation, and therefore, not general; so we would advise poor people to purchase their necessary tubers in advance of an advancing price.

ELDEN. KRATZERVILLE. Our farmers are about done sowing and have commenced cutting corn, and report only a half-crop. Prof. I. L. Herman, moved his family to Union county, where he is employed as a teacher. Examination day is over and our schools of Jackson are all supplied with teachers except the Kratzerville. J. C. Klingler who has been sick for the last three months is slowly convalescing at this writing. Our band has organized again and is preparing for the campaign. Dr. Sheller, of the Capitol City, is in our vicinity curing all manner of sickness, and collecting herbs and roots. Let some one make the move to organize a Harrison club. Our band furnished the music for the Miller Sunday school picnic. CAESAR.

The national encampment of the Grand Army of the Republic will be held at Washington September 19th to 24th, 1892. The occasion will undoubtedly attract the largest number of veterans ever assembled on a similar occasion, and the review will be the most imposing demonstration ever witnessed in this country since the historic review of the army in 1865. It will be the event of a lifetime, as never again will there be so large a gathering of old soldiers in any city of the land. In order that every one may witness the grand spectacle the Pennsylvania Railroad Company will sell excursion tickets to Washington from all principal ticket stations on its system, September 13th to 20th, valid for return until October 10th, 1892, at a single fare for the round trip. Ample facilities will be afforded for the prompt movement of all visitors.

HOFFER. It is estimated that 3,300 people witnessed the sham battle at Mahanoy on Sept. 3d. Andrew Mailick of Shamokin visited at this place last week. Misses Emma Portzline and Rebecca Ush of Shamokin, spent a week in this vicinity. The old-fashioned picnic held by the Troutman Sunday School was a grand—especially the table which was set out for the speakers and the bar. But river-tag was ruled on. Actam Samuk Wagner, New York, guest of Samuel Leffler's on Sunday night. Miss Lizzie Neiman, of Williamsport is visiting her uncles at Alimo. The K. C. Band will play for her last call on Saturday, Sept. 17, in Lebkichler's grove, Pfoutzes Valley. Where was Gallagher on Friday night? Among those that were found.
