Peck Is A Patriot.

It is amusing to witness the desperate efforts of [illegible] to misrepresent the meaning and intent of the famous mill [illegible] Sick Headache [illegible] effects of Commissioner Peck's report. It seems a majority of the party wish to convey the impression that they are not in favor of free trade—fearing, it seems, that it will again be the rock of their destruction as it was in the campaign of 1888. We cannot blame them, for a burnt child hates fire. Nevertheless, he who runs may read the plank adopted by the Chicago Convention, as follows:

"We denounce Republican protection as a fraud, taxing the labor of the great majority of the people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no power to impose and collect tariff duties except for the purposes of revenue only."

Now, how in the mischief are they going to get around this? Does it not declare as plain as the nose on a man's face that the Democratic party is in favor of a "tariff for revenue only."

If this is so, *and it is so*, are we to infer that the protection Democrats are better than their party, and that they are opposed to the very foundation stone of Democratic principles and yet are going to vote for it?

What is the use of devoting column after column of bosh to convince people that black is white and white is black, and muddle the understanding of the people like a devil-fish muddies the water when he tries to hide? "You can fool some people part of the time, and other people all the time, but you can't fool all the people all the time."

Labor Commissioner Peck's report "will not out." He is a Democrat, and evidently an honest one, for he gave the facts as they are without embellishment.

Think of it. In one year the McKinley law increased wages in New York State $6,000,000, and manufactured goods $31,000,000. If so in New York State, why not so in every other State in the Union? Mr. Peck must be a patriot or he would have held his report until after the 8th of November. But he didn't, and the feather that was plucked from the Democratic body to destroy the enemy served to direct the arrow that will prove its own destruction. The statement is as clear as crystal, as direct as a rifle-shot, and as crushing as a steam hammer.

Democratic statisticians are perplexed. They have been declaring that the McKinley law hurt the workingman and hurt American industries, and they have been flashing alleged facts and figures to prove it, but here comes Peck and refutes them all, and Peck is a Democrat. They ought to have a consultation before they start a campaign.

Peck is a patriot.

Questions for Free Traders.

If it is a proper course for a city like Birmingham, Alabama, to raise a fund of $100,000 in order to induce a cotton mill to establish itself at that place, is it not inconsistent for the same city to oppose Protection, which alone makes the establishment of such mills possible?

Was Abraham Lincoln a thief when he signed the Morrill Tariff bill?

Is it not strange that England, a country that never yet has lost an opportunity to slight our citizens or attempt to bully our government, should desire us to adopt Free-Trade merely because we are not prospering as fast as our British cousins would like to see us prosper, although we have already beaten them in all their most cherished fields of industry?

Can the Free Traders pose as patriots when their ticket is composed of two men, both of whom hired substitutes, and one of whom stumped his State to show that Lincoln was a fraud and the war a failure?

If the Mills bill was a farmer's measure, why did it abolish or greatly reduce the duties on nearly all the farmer's products, in the face of protests and petitions from agricultural societies all over the Union?

If reciprocity is a step "in the direction of Free-Trade," how can it also be a "scheme to untax foreigners only"? Is Free Trade a "scheme to untax foreigners only?"

Who is more worthy the support of our laws, the importer who benefits foreign capitalists and laborers, or the manufacturer who gives employment to our own citizens and causes money to circulate among our own people?

If Mr. Charles F. Peck, who, in his official capacity as Commissioner of Labor of the State of New York, reported that wages averaged higher for the year after than for the year before the passage of the McKinley Tariff, is a bold, bad prevaricator, utterly devoid of intelligence and honesty, as the [illegible] and Democratic p[illegible] make himself out to be since his report appeared—if he is all this, why did the "honest," "patriotic," "lofty-minded" Cleveland appoint him to the office he now holds?

Is the Democratic Superintendent of the New York State Banking Department a liar and a traitor, too, because he reported an extraordinary increase in savings bank deposits since the McKinley Tariff took effect?

With all due respect to Grover Cleveland, he cannot expect the support of a loyal north so long as such papers like the Dunham, North Carolina *Globe* is allowed to echo Democratic sentiments in language like this:

"The pension fraud is the greatest of the age—and Cleveland struck the beggars in the face. He should be given a chance to hit 'em again."

No wonder Gen. Sickles told the Chicago Convention that the 25,000 democratic Union veterans of New York State would not vote for Cleveland, their bitter enemy!

DR. R. A. SIMPSON'S
Office No. 846 E. Market St. York, Pa.
WILL BE AT
Home Office, Sep. 1 to 20
Eagle Hotel, Middleburgh, Pa., from Friday, Sep. 23, at 10 o'clock a. m. to Saturday noon.

Dr. Simpson will examine any one who may call upon him free of charge. Knowing that hundreds are living out a miserable existence with, out medical aid, some because they have passed through the "cold ordeal" without relief, and some perhaps, because they may not know where to apply, he feels justified in making these facts public. Satisfied that a number will seize upon these plain truths and be fully rewarded by a cure.

Our system of practice may need some explanation. The remedies are principally vegetable, discarding entirely the use of Calomel or Mercury, Tartar, Emetic, Arsenic and Antimony because they are disease creating agents of the worst discription. We are opposed to the use of general bloodletting in any case, believing it to be injurious to the constitution and often dangerous to life.

Dr. Simpson treats successfully chronic or long standing diseases of the Head, Throat and Lungs, Kidney and Heart complaints; inveterate diseases of the Stomach that have defied all other methods; those fearful diseases of the nervous system arising from whatever cause: Scrotula, Dropsy, Fits, Fever, Sores, Rheumatism, Neuralgia, Sciatica. Ill conditioned Ulcer, Cancers removed without the use of the knife and cured. Asthma, Hay Fever, Rose Cold, Winter Cough, Chronic Diarrhoea, etc. All may be cured by this wonderful System, if not too far advanced. Bone and blood diseases cured when all other methods have failed.

Ladies who are suffering with diseases strictly confined to their sex can consult the Doctor with the assurance of a speedy cure without suffering themselves to the very often unnecessary examination. The doctor particularly invites all cases that have been given up by other physicians.

TESTIMONIALS.

Mr. Reuben Grubb, of Liverpool, Perry county, Pa., had a cancer on lower lip for several months and was completely cured by the treatment of Dr. R. A. Simpson, of York, Pa.

Miss Annie Koch, of Liverpool, Perry county, Pa., had for may years a malignant ulcer on her limb near the ankle, and although under the treatment of different doctors, the sore grew worse. It was cured by Dr. R. A. Simpson, of York, Pa., in four months. No scraping of the bone or cutting.

For many years Mr. Charles Allison, of Glen Rock, York county, Pa., had a cancer on his face below the eye. Dr. R. A. Simpson, of York, Pa., removed it by his chemical process. He is now well.

☞ Dr. Simpson invites any one who doubts any of these statements to write to the parties and ascertain for themselves. These are only a few of the many testimonials obtained. The Doctor invites correspondence from a distance, if you will enclose 4 cents in stamps.

Remember the dates and call early.

SHOEMACKER CO.'S
Electro-Gold String Pianos.

AMONG the most important points of superiority of these magnificent Pianos is, that longer than those of other makes they remain in tune and that, while many instruments which at first give satisfaction, become flat and wiry, the Shoemacker Piano is still staunch and true. It is impossible to overestimate the advantages derived from the use of the Electro-Gold Strings. The ordinary iron-wrapped or so-called wire metal-plated strings, which all other makers are still compelled to use, are immediately affected by atmospheric action, gradually destroying the power of the string to prolong and sustain the tone, rendering them liable to easily snap and break. The remedy of this has been successfully accomplished by the use of the ELECTRO-GOLD STRINGS, which are proof against rust and emit a superior quality of tone.

I do not present the Shoemacker instrument in competition with the low-priced and absurdly misnamed "cheap" Pianos, this county and adjoining ones have been flooded with; but to those who appreciate a Piano insusceptible of further improvement—an instrument to do credit to the taste—I confidently offer the SCHOEMACKER PIANO as unexcelled by any in the world and at the lowest prices, which will yield me a just profit.
