

Clean Domestic Animals.

Recent Mexican news of the latest kind of clean domestic animals. The llama and seemingly undesirable for all purposes. From the bison and goat they derive little or no benefit. The dog has always been an animal with the Mexicans, and he has been used as a beast of burden to carry their tents and draw their baggage, and the savage Comanches of North America. In the days before Cortez's conquering hosts invaded the Kingdom the natives kept only the dumb dog, which they fattened for food. The Spaniards introduced cattle and horses, which subsequently roamed wild, and to this day herds and droves occupy the plains of Mexico, Durango, Zacatecas and Guahua.—St. Louis Republic.

Not a Futuro.

Johnny Gibbs is a youthful philosopher. He believes that life would be amplified if people would be content to do one thing at a time. The other day Johnny was hard at work with paper and pencil. His sister looked over his shoulder. "Why, Johnny," she exclaimed, "spelling is perfectly dreadful!" "At that—sitting in a chair," I'm afraid of you!" "But, mamma," said the little boy, "surprisingly, 'this isn't a spelling book.' It's a composition."

What becomes of the money won in a lottery?

Somebody always wins a round table. It must be loaned to the fellows who lose, and is never paid back.

A Complete Newspaper For One Cent.

The Pittsburgh Chronicle-Telegraph is sold by all News Agents and delivered by Carriers everywhere, for one cent a copy or six cents a week. It contains daily the news of the world, receiving as it does the reports of both the Associated Press and the United Press. No other paper which sells for one cent receives both of these reports. Its sporting, financial, fashion and household departments are unequalled. Order it from your News Agent.

Four Physicians Failed
A Running Sore Five Years

Hood's Sarsaparilla Perfectly Cured
"Taunton, Mass., Jan. 9, 1893."
I was troubled with a running sore on my ankle, the doctors pronouncing it salt-rheum. For 5 years during which time I employed 4 different physicians, I received very little, if any, benefit, and it continued to increase in size. I then commenced taking Hood's Sarsaparilla, and using Hood's Olive Ointment, and at the end of 2 years I was completely cured, and have had no trouble with it since."
SIMON STAPLES, EAST TAUNTON, MASS.

HOOD'S Sarsaparilla CURES

parilla, and using Hood's Olive Ointment, and at the end of 2 years I was completely cured, and have had no trouble with it since."
SIMON STAPLES, EAST TAUNTON, MASS.

Unlike the Dutch Process No Alkalies — OR — Other Chemicals
are used in the preparation of
W. BAKER & CO.'S Breakfast Cocoa
which is absolutely pure and soluble.

It has more than three times the strength of Cocoa mixed with starch, arrowroot or sugar, and is far more economical, costing less than one cent a cup. It is delicious, nourishing, and easily digested.

Sold by Grocers everywhere.

All drugists, ATLANTA, GA.

LATER NEWS WAIPS.

LEGISLATIVE.

The Ninth General Assembly of Colorado adjourned sine die. The assembly was neither strictly Republican, Democratic nor Populist, but was a mixture of these political creeds, the members of which seemed to change their belief whenever the influence was sufficient. They enacted no laws of special benefit to the people, except one giving aid to educational institutions of the State, and possibly one or two others. They generally fought and defeated all bills regulating corporations, lawbrokers and insurance companies, and in these matters open charges of bribery have been made against many members, none of which have ever been denied. All appropriation bills were passed readily. With the exception of the notorious Seventh, the last Assembly goes on record as the cheapest and most useless in the history of the State.

The Nebraska senate adopted a resolution impeaching ex-Attorney General Lease for misdemeanor in office. Lease was attorney for four years, and is now a leader of the Populists.

W. A. MacDonald, leader of the opposition party in the Manitoba Legislature, was unseated by the courts, for bribery during the late election.

WASHINGTON.

By the direction of Secretary Carlisle the regulations of the Treasury department in relation to the registration of Chinese laborers were to-day modified, dispensing with the attaching of photos to applications of Chinese laborers (or Chinese persons other than laborers) for certificate of residence under the act of May 12, 1892, and rendering the affidavit of only one credible witness of good character to the fact of the residence and lawful status of the applicant within the United States.

The Treasury Department is informed that \$500,000 in gold was taken Saturday for export to Europe from the sub-Treasury at New York. During the week the gain in gold has been nearly \$1,000,000.

The usual proclamation prohibiting the taking of seals or other fur-bearing animals in Alaska or in Berin's Sea in the season of 1893, was promulgated by President Cleveland on Saturday.

FINANCIAL.

The Northwestern State Bank of St. Louis, Mo., closed its doors. Parties representing the creditors state that the liabilities are fully \$150,000, and that the assets will not exceed \$75,000.

DISASTERS, ACCIDENTS AND FATALITIES.

At Fall River, Mass., Frank Davis, of Somerset, and John Schofield, of Providence who were in the habit of sleeping aboard their yacht, lying in the harbor, were found dead, having been asphyxiated by coal gas.

At Stanberry, Mo., two men, Lee Newell and Leon Styles, were burned to death in the calaboose. They had been arrested for drunkenness late in the evening, and it is supposed they fired the building in order to attract attention and gain their liberty, but relief came too late.

FIRE.

The business portion of the town of Pataha, Wash., was destroyed by fire. Loss \$40,000; insurance \$25,000.

Fire broke out at Saterville, W. Va., destroying a long trestle of the Ohio River railroad. The loss is about \$3,000.

CRIMES AND PENALTIES.

Andrew Campbell, a well-known farmer of Bangor, Mich., shot and killed his divorced wife on Sunday and took his own life. The couple had been living in the same house and became involved in a quarrel.

At a German settlement, three miles southeast of Fairbury, Ill., A. Burkhardt seized the 18-month-old child of Mrs. Winger, his sister and held it on a red-hot stove. The child cannot recover. Citizens may lynch Burkhardt.

CAPITAL AND LABOR.

The employees of the Carnegie Steel Company at Homestead (Pa.) received an unanticipated heavy pay on Saturday. About \$110,000 was divided among the men.

AN ANTI-PINKERTON LAW.

The Wisconsin Assembly passed an anti-Pinkerton bill providing that the employment of bodies of armed men to act as militia men, policemen or peace officers who are not duly authorized or empowered to act in such capacity under the laws of the state, is prohibited and declared to be unlawful, and no person, firm, company or corporation shall use or employ any such body of armed men for the protection of person or property, or for the suppression of strikes.

FOREIGN.

A severe earthquake was felt in many parts of Serbia on Sunday. The village of Veliki Popovitch was tumbled into ruins and several inhabitants were killed. Deaths in wrecked houses are reported from other villages in the kingdom.

MISCELLANEOUS.

A magnificent Mormon temple which has been forty years in building was dedicated at Salt Lake City, Utah, Thursday. The structure is 180 1/2 feet long and 90 feet wide and cost more than \$50,000,000. With granite walls ranging from 9 feet thick at the bottom to 6 feet thick at the square the building promises unusual permanency.

THE U. S. SENATE ON STRIKES.

The Rights of Laborers to be Protected.

In the Senate at Washington, Mr. Voorhees, Democrat of Indiana, offered a preamble and resolution on the subject of the recent decisions of the United States Judges at Toledo, as to the refusal of railroad employes to perform service. It instructs the Interstate Commerce Committee to inquire into the question and report to the Senate what action may be necessary, either by the repeal of the tenth section of the Interstate Commerce act of February 4, 1887, or by the enactment of additional legislation, for the better protection of the laboring people of the United States in their natural and inalienable rights and for their greater security from the encroachment of corporation power. The resolution was ordered printed and was referred to the Committee on Interstate Commerce.

Is It "Coal Oil"?

The "average man" (and you will find him everywhere in the proportion of about ninety-nine to one) speaks of petroleum—refined—as "coal oil." This is done primarily because of the general impression that the oil comes from coal, and that coal is of vegetable origin. Geologists and scientists in general, however, take a different view of the matter. To them the oil is a relic of past geological ages, as well as of animals that lived when the earth was young. In referring to the genus of "coal oil" they never think of it except as an animal oil. They argue that the great upheavals and downfalls of the earth's crust, which resulted in burying billions of tons of vegetable matter, which subsequently turned to coal, also covered millions of gigantic animals with hundreds and thousands of feet of sediment. This sedimentary deposit, in the ages which have elapsed since old nature was raked with those rock-rending convulsions which geologists are so fond of telling us about, have turned into great strata of sandstone, limestone, etc., the oil compressed from the great aggregation of animal remains settling in basins, to be tapped by the ingenious well-sinkers of the last half of the Nineteenth Century. Thus even past ages are made to contribute to the welfare and comfort of present generations.—St. Louis Republic.

Friendly Advice.

A duchess now often dresses no better than her lady's-maid. A lady of this rank, who, apparently, did not dress up to her title, went into a London shop and ordered a dozen pocket-handkerchiefs, and asked to have them embroidered with a 'T' and a duchess coronet. "Oh, ma'am," said the friendly shopwoman, "if I was you, I wouldn't have a duchess!"

The Argument Used

BY the makers of the second-class baking powders to induce the dealer to push them off on Royal consumers is that they cost less than Royal and afford the dealer much more profit.

But you, madam, are charged the same price for them as for the absolutely pure Royal, which is perfectly combined from the most highly refined and expensive materials. The lower cost of the others is caused by the cheap, impure materials used in them, and the haphazard way in which they are thrown together.

Do you wish to pay the price of the Royal for an inferior baking powder, made from impure goods, of 27 per cent. less strength? If you buy the other powders, insist upon having a corresponding reduction in price.

THE KIND THAT CURES

Scrofula and Salt Rheum Of 25 Years Standing. A BLOOD PURIFIER THAT CURES.

DANA'S Sarsaparilla

For all who wish a Blood Purifier that Cures. Sold by all Druggists on a Guarantee.

Send for prospectus at once. It is the only medicine for Catarrh of the Eye, Nose and Throat. Sold by all druggists.

"August Flower"

"I am happy to state to you and to suffering humanity, that my wife has used your wonderful remedy, August Flower, for sick headache and palpitation of the heart, with satisfactory results. For several years she has been a great sufferer, has been under the treatment of eminent physicians in this city and Boston, and found little relief. She was induced to try August Flower, which gave immediate relief. We cannot say to much for it." L. C. Frost, Springfield, Mass.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

JUMBO, the Atlantic Improved Crown Separator, capacity 2500 to 4000 pounds per hour. It separates all kinds of oil and grease from any kind of water. Also separates all kinds of oil and grease from any kind of water. It is a small size. A medicine always all over the world. Write for details.
