

BEAVERTOWN.

J. Middleswarth has been very sore foot caused by a nail. He is better again. Jacob A. Freed fell off the horse some time ago, sustaining a severe shock that disabled him some time. Prof. A. E. principal of Central Penn at New Berlin, recently in the Evangelical church place. Now it is Post W. M. Keller. Miss Sallie of Colorado, accompanied sister, are visiting their friends here. A. W. has built a new summer house. A. H. Bowersox has built a barn on Centre Street which is quite an improvement to that town. The Band picnic on a week was rather a small account of the farmers because of the haying, with haying work as fast as the other would permit.

LOWELL.

Fourth of July here was a affair. The sky was ablaze from Patriotic fire works. It was successful in his balloon ascension on wheels. Johnigner has put up as fine a barn as to be found in the county. H. bester, builder. Jacob Erb seen on our streets daily. The farmers are busy harvesting. Some are storing away hay, others are cutting any grass yet. Any need of galvanized potato can have their orders filled by Powell merchant. John Erb Robert Goss were seen on our streets with their blooded horse. A party of nimrods from Sunbury were here last week trying to catch snipes. It was all in vain. Lewistown was in a bit of trouble last week as the and their friends had become nervous on account of their boss shot. No doubt they would get the law in their own hands if they got the chance. U. No.

TROXELVILLE.

Calamity wail is now coming. Next year's wheat will sell at or 20 cents per bushel—all because of the drought. James A. Wagner has taken agency to sell Samuel H. Houtz's fertilizers. If Jim is as successful at selling these goods, he is raising potatoes on the rear of his pantaloons, and a Cleveland tariff reduction you may truly look to see these things come to pass. Henry W. is the new mail carrier at place. Most of our people are in the hay fields. Our band was to Laurelton on Fourth, and the "boys" are elated with their treatment. Robert Middleswarth & Co., putting their threshing outfit in class order, and you can cock your ear soon to hear the toot of a whistle. Very little grain is yet at this writing, (Monday morning). On Saturday the trout season closes, which was the poor recollection of our oldest fishermen, and just what I had predicted at the opening. I don't believe there were more than 1200 trout caught all told, this season. CAL. JOE.

KRATZERVILLE.

Saturday afternoon's rain storm made the wheat shocks fly in all directions. Grand-pap J. C. Ulrich still on the sick list. An abundance of hay was made in this section and the grain is just as good. B. F. Herman one day last week caught a fine lot of bass. The large weighed two pounds. Let's hear from some other part. Frank is the fisher in the county. The Evangelical church festival was a grand success. All the boys were home over Sunday and report the hay crop good. John Walborn, who had his hand badly burned some time ago by a piece of hot iron, is again at his post. A certain young lady comes to town every Saturday night with horse and buggy to fetch her lover, but he has to walk home. John, if she fetches you make her take you home also. Our town had fireworks on Independence day. Let the day hereafter always be thus observed. On the 4th, Mrs. John Reichley fell from a cherry tree, breaking her collar bone and several ribs. Wm. P. Fetter is appointed post master. The people all seem well satisfied with the appointment. Mr. Fetter will make a good officer. Peter Hermer, our jolly landlord, has adorned his parlor with a fine cabinet organ. The public will find the best of accommodation at Mr. Horner's. CAESAR.

Bicycles were invented as a toy. Gun-powder was first made with a view to making a noise. Out of gun-powder grew more of the equal rights of man than sprung from any other one thing or influence. Now the inventing of bicycles may not be of as great importance as the making of gun powder, but it has already gone far beyond the expectations of its promoters. It is the leading influence in the movement for good roads and streets. Bicycle makers and bicycle riders are vitally interested in smooth highways. They have agitated the subject. Most of the recent literature on the subject of good roads and how to make them, if not directly from bicycle men is directly called forth through their efforts. As the patents expire bicycles will become cheaper, there will be more makers and more riders and the road improvement agitation will grow faster and extend farther.
