The Coming Struggle with Anarchists.

Before snow falls in Chicago, says the Washington Star, the people of the United States and of several other deeply interested countries will have an opportunity to gauge the power of anarchy in the Lake-side City. A month ago and there was no appearance of anti-peaceful influences, but since Governor Alt-geld gave liberty to three rabid "reds," the unkempt head has come into full public view, proud of the distinction conferred upon it by the openly expressed friendship of the Governor of Illinois. But anarchy in Chicago is still an unmeasured quantity, and it will continue to be until after the election, at which either Judge Gary or his successor will be chosen. Now, Judge Gary,

How Uncle Sam Buys Gold.

This is from the St. Louis Globe: A place seldom visited by the public is the Assay office of the United States, where gold is bought for the Government. There are but four such offices in the United States, one in St. Louis, one in Helena, Mon., one in Boise City, Idaho, a fourth at Charlotte, N. C., and the fifth at the branch mint in Denver. The office here is in charge of Mr. Elliot Jewett, with two assistants. It is as complete an office as can be found in the world, being equipped entirely new since its location in the Old Custom House. As the agent of the government, Mr. Jewett, buys all gold offered in amounts above \$100, paying for the same as soon as it can be melted and assayed. A great many people are ignorant of the fact that the Government buys gold outside of the mints. The moment the assayer begins to drum trade, too, that moment he drives it away. By such action he causes the public to believe that he represents a private company, speculating on its purchases. This idea is encouraged by the gold buyers, jewelers, pawnbrokers and others who would prefer a field clear of the United States. As a matter of fact, it makes no difference to the assayer whether he receives one ounce or 1,000,000 ounces, as he is paid a certain fixed salary. He receives any-

thing in the shape of gold, whether it be the so called retorts, bars, dust or jewelers' scraps. Whatever shape it is in, he takes it for what it is worth. The Government pays the expenses of ascertaining this worth. The process of receiving and depositing of the gold is of considerable interest. On delivery it is deposited on scales capable of weighing 5,000 ounces Troy, though so delicately balanced that Mr. Jewett uses them to weigh letter mail. Gold brought in early in the morning can be disposed of so the seller may receive his check in the afternoon. On being weighed a check is made of each separate lot, designating the weight, name of seller, origin, etc. When the melting is completed and the gold turned out in bars and assay made, a complete record is made, showing the origin, where it is possible to learn it, and the degree of fineness of the metal. The bar is then stamped ready for shipment to the mint at Philadelphia. This stamp is protected from counterfeiting by the same penalties provided against counterfeiting coin.

Wanted a Change.

Previous to the change in the administration the Democrats continually asserted that the country was going to the dogs, the only way to remedy matters was to have a change. They harped on this so long and loud that a misguided majority believed them and voted for a change. And what do we see as the effect of this change. This: Depreciation of \$2,000,000,000 in the value of American securities. All the plate glass factories in America shut down for an indefinite period. Blast furnaces banking fires every day in the week, curtailing the output of pig iron enormously. Textile mills of all sorts in New England either shutting down or preparing to do so. All the large iron mines in the Michigan districts shut down or running with a short force. Wool at the lowest figure ever known. Wheat at the lowest price in two generations. Balance of foreign trade heavily against us. Money tied up in vaults and banks with no accommodations to any but regular custom. A few new loans of any kind men out of work than at any time since the panic of '73.

PORT TREVORTON.

Our farmers are patiently waiting for the refreshing rain to do their plowing for seeding. Potatoes will be a scarcity in this place on account of the dry spell. The Witmer's Sunday school held their picnic on Saturday and has been reported a failure. It's supposed it was played to death by the Port Trevorton band which furnished the music. Politics have been quite hot here this week and unbecoming language has been used by some of our people who propose to be civilized. There are a few offscourings from Selinsgrove who come to our town every Saturday evening and are on the streets all night yelling and running their horses up and down the road disturbing the people in their rest. They would better stay at home or they will find themselves in the hands of the law. If this is not plain enough, the next time I will give the names of the parties. The ferries at this place will have half rates on Sunday to Herndon.

LOWELL.

Colored campmeeting was well patronized yesterday (Sunday) by the good people of this end of town. L. C. Wagner of Siglerville, was visiting over Sunday with his many friends of Snyder county, he also took in campmeeting. Some of our twenty-four hour soldiers, who are drawing pension and are never satisfied, made the remark "it would be right enough to take some of the old soldier's pension," no doubt they are alluding to some of the four year men. Some of our farmers have threshed and report 29 bushels of oats from almost five acres of ground. Our jolly Irish table cloth man C. Hower says he would take a job of wheeling a keg of beer to Chicago, but would not insure the keg to be full when he arrives. He says he could wheel a hundred lbs. forty miles a day easily. It will not be long until you can hear the toot at the cider mill as every thing is being put in good order and will be ready for work shortly.

U. No.

PENNSYLVANIA RAILROAD, Sunbury and Lewistown Division. Time Table, in effect May 21, 1893. Table with columns for Westward and Eastward, listing stations like Lewistown, Main Street, Lewistown, and Sunbury with corresponding times.
