An Awful Accident in the Lake Superfor Mining Region.

A mine casualty without parallel in the annals in the minin ; industry in this conntry if not the world, occurre 1 at Mansfield, the only producer of Bessemer ore in the Crystal Falls mining district, and located six miles from Crystal Falls City, Mich., at 9 o'clock Friday night. The mine caved in from the top to the bottom, burying 28 workmen and entailing a loss of \$6.0,000. The Mansfield shafts are located on the west bank of the Michigammeriver and the working levels of the mine ran directly un-der the stream and parallel with it for a distance of several hundred feet. The first level was 35 feet telow the bottom of the river, and the lower levels, five in number, an marked to first the fort the term ran parallel to the first, the bottom being 428 feet below the surface of the water. The being 425 feet below the surface of the water. The five upper levels have been stoped out in the progress of the work leaving only tim-bers and pi lars of ore to bear the mighty weight of the floors of ore above. The accident is supposed to have been caused by the givile way of the timbers on the fifth level, allowing those above to follow, and at last the river to pour in upon

A PRESIDENTIAL LETTER.

President Cleveland's Views on the Monetary Situation.

In reply to a letter from Governor Northen, of Atlanta, Ga., asking the president to give his position on financial matters, Mr. Cleveland sent the following reply:

EXECUTIVE MANSION | WASHINGTON, D. C. ;

Hon. W. J. Northen: "My DEAR SIR-I hardly know how to

reply to your letter of the 15th inst, It seems to me that I am quite plainly on record concerning the financial question. My letter accepting the nomination to the presdency, when read in connection with the message lately sent to Congress in extraordinary session, appears to me to be very explicit. I want a currency that is stable and safe in the hands of our people. I will not knowingly be implicated in a condi ion that will justly make me in the least degree answerable to any laborer or farmer in the United States for a shrinkage in the purchasing power of the dollar he has received for a good dollar's worth of work, or for a good dollar's worth of the product of his toil. I not only want our currency to be of such a character that all kinds of dollars will be of equal purchasing power at home, but I want it to be of such a characttr as will demonstrate abroad our wi-dom nd good faith, thus placing upon a firm toundation our credit among the nations of the earth. I want our financial conditions and the laws relating to our currency so safe and reassuring that those who have money will spend and invest it in tusiness and new enterprises instead of hoarding it.

FORTI-SEVENTH DAY. SENATE-In the Senate to-day two of the most distinguished Senators on the Demo-cratic side, Harris, of Tennessee, and Mor-gan, of Alabama, made vigorous attacks on the silver purchase repeal bill. After fur-ther discussion of the bill the Senate attourned 'You cannot cure tright by calling it foolish and unreasonable, and you cannot prevent the frightened man from hoarding his money. the House as the denate on the Federal elections repeal bill was continued to-day, and after a brief session the House adjourn-"I want good, sound and stable money,

I am a friend of silver, but I believe its proper place in our currency can only be fixed by a readjustment of our financial legis lation and the inauguration of a consistent and comprehensive financial scheme I think such a thing can only be entered upon profitably and hopefully after the repeal of the law which is charged with all our financial woes. In the present state of the public mind this law cannot be built upon or patched in such a way as to relieve the situation.

"I am therefore opposed to the free and unlimited coinage of silver by this country alone and independently, and I am in favor of the immediate and uncondi ional repeal of the purchasing clause of the so-called

"I confess I am astonished by the opposition in the senate to such prompt action as would relieve the present unfortunate situation.

"My daily prayer is that the delay occasioned by such opposition may not be the cause of plunging the country into deeper depression than it has yet known, and that the Democratic party may not be justly held responsible for such a catastrophe.

Yours very truly, "GRO7ER CLEVELAND."

INDIANA DAY AT THE FAIR.

Ex President Harrison Stops a Panic in the Indiana State Building.

Indiana's celebration at the world's fair, Chicago, was nearly marred by a serious accident Wednesday afternoon and to the cool-headetness of ex-president Harrison is due in large measure the fact that it was averted.

General Harrison's presence at the Indi-ana building drew a large number who were turious to see him. When he had been speaking but a few minutes the people surged forward in their eagerness to hear

Suddenly there was a scream from a por tion of the crowd. A panic was threatened. The ex-president realizing the danger, ceassd speaking and with perfect coolness urged the people to remain quiet, at the same time indioning them back. A fainting woman was assisted by General Harrison and Com-missioner Havento the platform, and the *x-president mounted a chair so the people could see him and continued his speech. The crowd soon ceased struggling two other women who were on the point of fainting were carried out and cared for by ambulance surgeons and the panic which had threatened to assume serious proportions was over.

was over. In point of enthusiasm and possibly in numbers, Indiana can lay claim to the most successful state day at the Fair. A MANIAC AND HIS PISTOL:

A Terrible Occurrence in the Chicago Board of Trade.

Cassius Belden, an insane carriage painter. entered the south gallery of the Chicago Board of 1 rade about noon Wednesday, and drawing a revolver, deliberately fired twice toward the ceiling and three times into the crowded pits of the floor below, and the opposite gallery.

A panic immediately ensued, everybody seeking safety in flight or concealing them-selves behind bulletin boards and other objects on the floor.

Toree persons were struck by flying bul-lets. They were: Amri M. Bennett, Board of Trade operator, shot through the neck; Charles W. Rosewell, assistan chief opera-tor of the Board of Trade telegraph, Jaw broken by bullet; Mrs. W. W. Lewis, of Thinsville, Pa., World's Fair visitor, a severe flesh wound.

The man who did the shooting refused to give any name but "Chicago" at first but subsequently he said he was Cassius Beld-en, a carriage painter, living at 365 La Salle ivenue. His incoherent talk and apparent ndifference to the decd made it evident that he was insane.

HOW THEY FINISHED.

End of the Greatest Season in Baseball History.

For the sixth time since 1876 the Boston eam has been voted the champion baseball players of the country, which puts them on an equality with the Chicagos, who have also won the penant on six occasions in that time. The finish of the first six clubs in the race is very interesting, being equally divided between the East and the West. Cincinnati crept into the first division at the last wag of the hammer on a miserable fluke. The Brooklyns had fought for and won their place in the first division, but when they came to Chicago, where they would have undoubtedly have clinched matters, the rain knocked them out of the games until Cincinnati tied them. To make it all the easier for Cincinnati, on Saturday Washington did not show up at the grounds and so the game was given to the porkesters without lifting a hair. They line up as follows at the close of the season of 1893:

W. L. P'et. W. 1. P'et. Boston ..., 16 43 .607 Brooklyn, 65 61 .508 Pittsburg, 81 48 .628 Baltimore 60 70 .402 Clevel nd. 73 55 .570 Chicago..., 16 71 .441 Philadel'a 72 57 .558 St. Louiss' le. 20 75 .432 New York 68 64 .515 Louiss' le. 20 75 .4 0 Clacin'ta. 66 63 .512 Wash'n... 40 90 .208

Business has not entirely answered ex pectations, Many works which have re-sumed operations do not find orders as lar, a or the demand as vigorous as they anticipated, and with some it is a question wheth-er they will not close again. While money on call has been sbundant and chesp, and about \$4,500,000 Clearing House certificates have been retired, there is perceptible great er caution in making commercial loans here and at some Western points.

Ratiroad earnings for September show a decline of 13 per cent. co spared with last year, which is not better than the August report. Eastbound shipments from Chicago show a decrease of 14 per cent, for the last week

The cotton manufacture is gaining more than any other and there is a stronger mar-thet for print cloths and prints. Sales of wool last week were 4,629,450 pounds, again-st 6.648,600 last year, and for four weeks 14,474,275 pounds, against 31,080,500 last year, but it is believed that many purchases are for investment rather than for manufacture

While 78 manufacturing concerns are re ported as starting wholly or in part, against 20 closing or reducing force, more than a third of the increase has been in cotton mills and another third in machine shops tail mills, manufacturers of stoves and hardware, tools and cars, while in the iron manufacture proper only seven concerns have started, against three that have stopped, and the outlook does not seem bright

In foreign trade exports again exceed last vear's and for the month about 24.6 per cent, while imports show a decrease for the month of about 3) per cent. The return of money from the interior continues large, nd plainly reflects less activity than at this season in domestic trade and indus-

ry. The total clearings of the United States were \$772,068,725, a decrease of 27 per cent: the clearings, exclusive of those of New he clearings, exclusive of those of New York were \$358,187,192, a decrease of 23 per went.
