$100 Reward. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

COXEY'S ARMY OF PEACE.

ARRANGEMENTS BEING MADE

At Washington and Other Points For Its Reception.

The local agent of the "army of the unemployed," which is gathering for a march on Washington got introduced into the house the two bills for whose passage the "army" is to petition congress whe it reaches Washington. The first bill wa for the issue of $500,000,000 of treasury notes to be expended in road improvement and the second was to provide for a non-interest-bearing bond, treasury notes which are to be issued to any state, county or municipality upon application to the amount of one-half the assessed value of public and private property in such state or county

The bills were introduced by Representative Willis Sweat, of Idaho, who, seeing that they were "crank" documents, marked them "by request" and presented them without any thought of their connection with the gathering of unemployed workingmen. Later his attention was called to the fact that A. E. Redstone, at whose request the bills were introduced, was the local agent of the Coxey army, which is gathering at Massillon, O., and the Frye army, which is massing at Los Angeles, Cal. Mr. Sweat at once had the bills withdrawn.

Redstone, who is practically the originator of the idle army movement, is the editor of a small nationalist paper at Washington, "The Tocsin." In speaking of the movement Redstone said: "The preparations for receiving the army are going forward nicely. I have spoken to Senator Stewart of Nevada about getting the use of his tract of land at Chevy Chase for them to camp on and he says he has no objection if the people already living there have none. There will also be an an escort to go out from Washington to meet the travelers. It will be composed of workingmen and others and we count on 10,000.

MASSILLON, O.—The chiefs of the Coxey army addressed the populace at Buzzard's Glory, a rural town three miles from here. In the city peace prevails in spite of the alleged stampede into Massillon. The Oklahoma country is still the solitary place of recruit for the army of 100,000. Mayor Reed said that he anticipated no disturbance.

HOMESTEAD, PA.—The Coxey army has made all the preliminary arrangements to go into camp for a night at Whitehall, near this place. It is alleged that a company of 250 men from Homestead and Munhall have organized and will join the Coxey crowd at Whitehall. Members of the company say that another battilion has been formed at Braddock and still another at Wilmerding. The great majority of the Homestead and Munhall recruits are unemployed men.

CANTON, O.—The approach of the date when the army of peace of J. S. Coxey, of Massillon, will begin its march overland to Washington, is causing great uneasiness in Stark county, especially among the farmer community. The county is being overrun with tramps who have been committing depredations of various characters. They claim to be unemployed arriving here with the honorable intention of joining Coxey's great army of unemployed. It is the general impression unless the municipal authorities interfere with the mobilization that serious, if not disastrous, results will follow. There is a movement on foot here to have Mayor Cassidy prevent the proposed march through Canton.

TRAGEDY OVER A LAND SALE.

A Wealthy W. Va. Man Murdered and the Murderer Shoots Himself.

A month ago James Robinson, a prosperous farmer near Tyro, W. Va., sold his farm to Humphrey McDonald, the wealthiest man in Taylor county, and possession was to be given Thursday. Wednesday morning Robinson endeavored to back out of the sale. The men engaged in a fist fight, but suddenly broke apart, and McDonald turned as though starting for home.

Robinson pulled a revolver and fired five shots into McDonald's back, killing him instantly. He then got a shot gun and emptied the contents into the dead body, scattering the brains all over the road. After this he went into the house and barricaded himself.

The sheriff organized a posse of 25 citizens heavily armed and went to arrest Robinson, who shot and slightly wounded a deputy sheriff. Finding capture certain, Robinson then fired three shots into his own head, inflicting fatal wounds. The sheriff has possession of the house and the unconscious prisoner.

FIFTY PEOPLE DROWNED.

Result of a Collision in Chinese Waters Both Ships Going Down.

Oriental advices which have been received at Vancouver, B. C., state that a disastrous collision occurred recently in the strait between Bengalis and Cagal Two steamers, the Song Guan and Aing Hoo, collided while going at full speed. Those on board the Song Guan jumped in the water and were picked up by the crew of the Aing Hoo. Hardly had they reached the wreck when both steamers lurched and went down. About 50 people were drowned and as many saved themselves be swimming ashore, among them being two Americans, Captain Miller of the Song Guan and Chief Engineer Pierce.

A Tragedy After Mass.

[illegible] Brady shot and killed Mary Brady, his wife and then committed suicide in the church of the Immaculate Conception in Oakland, Cal. They had been separated about two years. He was much dissipated and appears to have harassed her a great deal. This morning Mrs. Brady went to mass. After the services she knelt down to pray near the altar. Brady took a seat behind her. Suddenly Brady drew a pistol and shot his wife in the head, killing her instantly. Then he pointed the pistol toward his own body, firing, the ball going through his right lung. With another shot he blew out his brains.

FOUR PERSONS PERISH.

Engineer and His Children Killed by a Boiler Explosion.

Nearly an entire family lost their lives in an accident at Vale's saw mill, in Somora township, near Dresden, Ont. The mill had just been shut down for the dinner hour, when the boiler exploded. Mr. Cornell, the engineer and three children, who had brought his dinner, were all killed The boiler was hurled through the roof and over an adjoining house.

Escaped To Be Lynched.

The negro, Purvea, in jail at Stroudsburg, Pa., for the murder of Chris Eilers escaped Friday night, but was recaptured soon afterwards in Cherry Hollow and lynched to a tree on Palmer's island by the citizens. He made a desperate fight.

Here's Genuine Prosperity.

The gingham mill at Haw River, Alamance County, N. C., built and equipped last year, has been so successful that preparations are being made to double the size of the building, and in a few months 10,000 spindles will be running.

THE statistics issued by Lloyds show that within the last three months twenty-eight vessels have been abandoned in the Atlantic. Nineteen of them carried cargoes of timber and must be dangerous derelicts

That Settled It.

A negro went into a newspaper office and said that he wanted to subscribe for the paper.

"What is your name?" the clerk asked.

"De Hon. Mr. Stephen Patterson, sah."

"Where do you want the paper sent?"

"Let me see. Send it down to de Jones plantation."

"Yes, but what is the name of the postoffice?"

"Dar ain't none."

"But we'll have to send it by mail. What is your nearest postoffice?"

"Er place called Hamilton."

"All right, I'll send it there."

"No, sah, doan do dat."

"Why?"

"Caze I'se ergin de postmarster at dat place an' I ain't gwine ter trade wid him."

"You wouldn't be trading with him."

"Yas I would, an' I has er mighty good cause not ter fling no bizness in dat man's hands. Come er 'lectioneering ergin me in de church, he did. I wanted ter be er deacon, an he beat me, an' I ain't gwine ter paternize his house. Send dat paper down to de Jones plantation."

"We can't do that."

"Wharfo! Ain't you got er boy roun' yere?"

"Yes, but we can't afford to send him all the way down there merely to carry one paper."

"All right, sah, den we kain't trade. 'Lowed dat you wanted ter sell yo' paper, but ef you don't, dat settle it. Good-mawnin'."—*Arkansaw Traveler.*

The Bible.

Do you know a book that you are willing to put under your head for a pillow when you are dying? Very well; that is the book you want to study when you are living. There is but one such book in the world.

For one, I have made up my mind not to put under my head when I lie dying anything written by Voltaire, or Strauss, or Parker. We are too scientifically careful when we choose a book for a dying pillow. If you can tell me what you want for a dying pillow, I will tell you what you want for a pillar of fire in life—that is the Bible, spiritually and scientifically understood by being transmuted into deeds. Sentiment is worth nothing until it becomes principle, and principle is worth nothing until it becomes action.

Good and Bad Luck.

Born on Monday, fair in the face;
Born on Tuesday, full of God's grace,
Born on Wednesday, the best to be had,
Born on Thursday, merry and glad.
Born on Friday, worthily given;
Born on Saturday, work hard for a living;
Born on Sunday, shall never know want.

Soot and Smoke.

A machine, designed to separate the soot from the smoke which the fires of manufactories yield, has been invented by a Mr. Elliott, of Birmingham, England, and tried successfully for several months past in the mint there. A correspondent has examined the device, and declares it to be perfectly simple and manageable.

A Big Nugget of Silver.

Supt. Read sent down from the Diamond Company's mine last Monday a nugget of ore weighing 2,280 pounds, which was shipped Wednesday to the Midwinter Fair in San Francisco, and which is to represent Eureka County. The nugget is 3 feet 10 inches long, 18 inches wide, and 18 inches thick. It assays 82 per cent. in silver per ton, and 18 per cent. in lead. The nugget when quarried out in the mine was about double its present size, but was too large to haul up the shaft, and had to be broken.—Eureka (Nev.) Sentinel.

Is Life Short or Long?

If life is so short as some think it is, it may be made to seem much longer and sweeter by a better care for our comforts. Minor troubles are much magnified by neglect and delay. We give too much time to hunting up causes when we ought to deal promptly with effects. This is much the case with pain, which should be cured at once and cause looked into afterwards. Miss Ida M. Fleming, 78 Carey Street, Baltimore, Md., states that for years she was subject to frequent attacks of neuralgia, and tried any number of remedies without avail. She was given quinine, which she says affected her nervous system. She suffered night and day during these attacks until she tried St. Jacobs Oil, which finally cured her.

A RECENT poet writes: "A song sleeps in my soul unsung." There is a place for that young man in the dime museum at a remunerative salary. He is the only one of his kind on record.—Atlanta Constitution.

Dr. Kilmer's SWAMP-ROOT cures all Kidney and Bladder troubles. Pamphlet and Consultation free. Laboratory Binghamton, N. Y.

France yearly consumes 4.40 litres of alcohol per head.

1110 Bus. Potatoes Per Acre.

This astonishing yield was reported by Abr. Hahn, of Wisconsin, but Salzer's potatoes always get there. The editor of the Rural New Yorker reports a yield of 535 bushels and 5 pounds per acre from some of Salzer's early potatoes. Above 100 bushels are from Salzer's new seedling Harvest-Full. His new early potato Lightning Express, has a record of 833 bushels per acre. He offers potatoes as low as $2.50 a barrel, and the best potato planter in the world for but $2.

IF YOU WILL CUT THIS OUT AND SEND IT with 6c postage to the John A. Salzer Seed Co., La Crosse, Wis., you will receive free his mammoth potato catalogue and a package of sixteen-day "Get There, Eli" radish. A

For the baby a dress with money saved on mail(d) articles in drug line. West's Nerve and Brain Treatment, 6(c.) Liver Pills, 12(c.) Prescription "200," Red Worm Remedy, 12(c.) Porous Plasters, 12c. Free catalogue. E. A. Hall, Charleston, S. C.

"I HAVE BEEN AFFLICTED with an affection of the Throat from childhood, caused by diphtheria, and have used various remedies, but have never found anything equal to *Brown's Bronchial Troches.*" *Rev. G. M. F. Hampton, Pilcton, Ky.* Sold only in boxes.

Sore throat cured at once by Hatch's Universal Cough Syrup, 25 cents at druggists.

Impaired digestion cured by Beecham's Pills. Beecham's—no others. 25 cents a box.

If afflicted with sore eyes use Dr. Isaac Thompson's Eye Water. Druggists sell at 25c per bottle

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion, or prostration, another with pain here and there, and in this way they all present, alike to themselves and their easy-going and indifferent, or overbusy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, then are all only *symptoms* caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms and instituting comfort instead of prolonged misery.

The lady whose portrait heads this article is Mrs. Ida Coventry, of Huntsville, Logan County, Ohio. She had an experience which we will permit her to relate in her own language. It illustrates the foregoing. She writes: "I had 'female weakness' very bad—in bed most of the time, dragging down pains through my back and hips; no appetite; no energy. The family physician was treating me for 'liver complaint'. I did not get any better under that treatment so I thought I would try Dr. Pierce's Favorite Prescription and his 'Golden Medical Discovery.' I felt better before I used one bottle of each. I continued their use until I took six bottles of each. In three months' time I felt so well I did not think it necessary to take any more. In childbirth it does what Dr. Pierce recommends it to do—lessens the pain and perils to both mother and child and shortens labor. I would like to recommend Dr. Pierce's Extract of Smart-Weed to those who have never tried it; it surely is the best thing for cholera morbus, or pain in the stomach I ever used; it works like a charm. I try never to be without it."

The following is from Mrs. Harriet Hards, of Montpelier, Idaho: "I have enjoyed better health since I began treatment with Dr. Pierce's Favorite Prescription, for leucorrhea and uterine debility than I have for sixteen years. I am cured of my trouble, and now weigh one hundred and sixty-six pounds, whereas my weight for many years stood at one hundred and twenty-five pounds. With pleasure, I remain,"

Yours truly,

Mrs Harriet Hards

The following is from Mrs. M. A. McAllister, of Lim Rock, Jackson Co., Ala.: "I was in bad health; age was working upon me, and I had ulceration of the womb; could not get about. I took Dr. Pierce's Favorite Prescription and it cured me; I felt ten years younger. I have not had any return of my trouble. I am the mother of thirteen children and I am fifty-three years old, have never seen a better woman's friend than your medicine. I have recommended it to my friends here, and it has never failed in any case, so let me thank you for the good it did me." Yours truly,

M A McAllister

For "worn-out," "run-down," debilitated school teachers, milliners, dressmakers, seamstresses, general housekeepers, and overworked and feeble women generally, Dr. Pierce's Favorite Prescription is the best of all restorative tonics. It is not a "cure-all," but admirably fulfills a singleness of purpose, being a most potent specific for all those chronic weaknesses and diseases peculiar to women. It is a powerful, general as well as uterine, tonic and nervine, and imparts vigor and strength to the whole system. It cures weakness of the stomach, indigestion, bloating, nervous prostration, hysteria, debility and sleeplessness. A Treatise (168 pages, Illustrated), on "Woman and Her Diseases," *sent sealed in plain envelope*, on receipt of ten cents to pay postage. Address World's Dispensary Medical Association, Invalids' Hotel and Surgical Institute, Buffalo, N. Y. It contains a vast number of testimonials with half tone, or phototype portraits of their authors and gives the full address of each.

DURING hard times consumers cannot afford to experiment with inferior brands of baking powder. It is NOW that the great strength and purity of the ROYAL make it indispensable to those who desire to practise economy in the kitchen. Each spoonful does its perfect work. Its increasing sale bears witness that it is a necessity to the prudent—it goes further.

CONSUMPTION

CLIP, SAVE AND SEND TO US

In the first year in which the Aermotor Co. did galvanizing it expended $50,000 in the work, and did not furnish galvanized goods for the entire year either. No extra charge was made for the goods into which this enormous sum was put.

Are you curious to know why this harsh expenditure was made? Are you curious to know how the Aermotor Co. came to make hot work hard times years long before hard times set in? The explanation is this. The Aermotor Co. foresaw that something better than painting was required and foresaw that hard times were coming.

THE AERMOTOR CO. FORESEES, IT LOOKS AHEAD, IT ANTICIPATES, IT KNOWS WHAT IS COMING, IT KNOWS WHAT SHOULD BE COMING, IT KNOWS IN ADVANCE WHAT IT SHOULD DO.

Because of this it has an enormous factory and turns out an enormous quantity of goods, and *good goods.* The other fellow is a used-to-be. He has been, or might have been, but he don't know. He knows. It is all in the past. His business is in the gone by. Ours is in the present, the future. His consolation is found in the donkey's statement "It's better to be a has been than a nether was. After we have done and are doing a thing, and it is known to be the only thing to do, certain little pipsy voices are heard saying "We can do it if you will put up enough money to do it."

We made the Steel Windmill business, made the model to which the best of our imitators can only hope to remotely approach and in their endeavors to approach it are still wonderfully experimenting at the expense of the user. But to return to our galvanizing outfay for galvanizing. Why did we do it? The reason is this. **WE BUILD THE BEST WE KNOW, REGARDLESS OF COST,** and we believe we know better than anybody. We know that thin metal, exposed to the air, will not last unless galvanized, but if properly galvanized, will last scores of years. Barbed wire galvanized will last 20 years, and be practically as good as new. How long does it last painted? But the barbed wire is an eighth of an inch thick, while some of the steel used in the vanes of windmills is from a thirty-second to a sixty-fourth of an inch thick, and therefore would last only from a fourth to an eighth as long as the barbed wire, other things being equal, but they are not equal, the sheet metal has holes punched through it and is riveted to thicker and more rigid pieces.

The vibration of the thin parts at once cracks the paint around the rivets and water at once gets in and rust quickly eats away the thin parts. Some have used galvanized metal set up in black rivets. This of course is a step in the right direction, but the cut edge of the galvanized metal is exposed and is in no way protected. **WE BUILD FOR THE AGES.** We wouldn't sell you a poor painted wheel, nor one painted before being put together in double order for it. We know, and know. If you would pay us double the cost to build the best thing that such money could buy, we have nothing to do with them. If they are practically worthless, we have nothing to do with them.

When the sections of the Aermotor Wheel are all riveted up complete and cleaned of rust and impurities, it is then immersed in melted zinc and aluminum and left there until it becomes as hot as the metal is and until every crack, crannny, crevice, pore and opening of every sort is filled, closed up and saturated with the molten metal and the whole 19 pieces composing the series become soldered and welded together as one piece, then you have something that is strong, enduring and reliable. It is expensive to do, and small shops cannot afford to do it. We keep 40 tons of zinc and aluminum melting from one year's end to another, but we have business enough so that we can afford to do it.

One word about the nature of galvanizing. The silvery white coating which fills every pore and covers every portion of the Aermotor Wheel, Vane and Tower is zinc and aluminum when it is first put on, but which, after standing for a time forms, with the steel, a chemical combination of alloy which cannot be melted and is practically indestructible.

The 5th advertisement in this series will show a 4 Wheel Steel Truck, weighing 175 lbs., which will carry 2 tons, and of which we use 500 in the Aermotor Factory. It will be found almost indispensable on any farm or in any warehouse. For 2 copies of this advertisement, which is No. 4 in the series and $1.00 cash, sent at once, or immediately after the appearance of adv. No. 5, we will deliver f.o.b. Chicago, one of these Trucks or forward from branch houses, freight from Chicago added.

Where we can, we shall make liberal offers to accept copies of these advertisements in part payment for Windmills. If you have any thought of using a windmill this year write us at once, stating what you will need, whether Pumping or Geared, and if possible we will make you a liberal offer.

The Aermotor Co. proposes to distribute $400. CASH, IN PRIZES for the best essays written by the wife, son or daughter of a farmer or user of a windmill, answering the question, "WHY SHOULD I USE AN AERMOTOR?" For conditions of competition and amounts and numbers of prizes send for pamphlets to the Aermotor Co., Chicago, or to its branches, at San Francisco, Kansas City, Lincoln, Neb., Sioux City, Iowa, Minneapolis, Buffalo, or 60 Park Place, New York City. Aermotors, Pumping and Geared same price, All Steel, all Galvanized after Completion, delivered free on cars at Chicago and shipped to any one, anywhere, at the following prices:

8-ft. $25. 12-ft. $50. 16-ft. $125.
