Time and Season.

All things have their time and season, and the changeful temperature of a closing winter rheumatism flourishes. The best treatment is referred to in a letter from Miss Ida Gunckle, Trenton, O., Feb. 22nd, 1893, who says: "I suffered for several years with rheumatism, but was cured by St. Jacobs Oil. I am now well and never feel anything of it. Better get the Oil in time and there will be no season of trouble afterwards.

DEATH IN THE FLAMES.

TEN MEN PERISH IN A

Burning Theatre in Milwaukee. The Roof Fell in and a Score of Fireman Were Carried Down Into a Seething Furnace.

The Davidson Theatre, the finest playhouse in Milwaukee, Wis., and one of the handsomest and costliest theaters in the country, was destroyed by fire Monday morning. The scenery carried by the Lilliputians is all gone. Manager Rosenthal, of the company, says it was worth $25,000.

Immediately on the arrival of the firemen ladders were run up and the men rushed up on the roof, six stories from the ground. In doing so, Allie Reese, one of the men slipped and fell to the ground, being killed by the fall. All the men were directed to the rear portion of the roof over the stage, where the fire was the worst. These firemen and others took their stations and began work, when without warning the roof under them gave way, precipitating nine of the men eighty feet below into the fire on the large stage of the theater, all of whom were either killed by the fall or burned or suffocated to death.

These firemen are missing and it is certain they were burned to death or killed in the fall: George Jansen, Assistant Chief August Sattem, Archie Campbell, Thomas Morgan, Frank McGurk, James Freeman, —— O'Neil, —— Crowley, Captain Lindham.

The following firemen went down with the roof and were rescued. They were taken to the Emergency hospital: Lieutenant Cuzan, Fred Marsh, Fred Schroeder, John Yeo.

The original cost of the entire structure and contents was between $450,000 and $500,000. The chief loss is, of course, on the interior and will probably be half the cost of the structure, or about $200,000. The theatre will be rebuilt.

MORE TARIFF CHANGES.

Senator Vest Offers Amendments Agreed Upon by the Committee.

Senator Vest submitted to the Senate a number of amendments to the tariff bill, which had been considered by the finance committee, and which will be brought forward in the senate as committee amendments designed to perfect the bill reported.

The amendments include some minor changes in the chemical schedule. Cast, polished plate glass, etc., 24 by 60 inches square is increased from 20 to 22 cents per square foot and the same article above this size is increased from 35 to 37 cents.

Anchovies, sardines, etc., 20 per cent advalorem, instead of 25, in the reported bill. The same change is made on fish in cans.

Meats—Fresh beef, mutton and pork reduced from 25 to 20.

Spirits—In paragraph 239, in lines eight to fourteen, strike out the words "upon all compounds or preparations containing alcohol there shall be levied a duty at the rate of $1.80 per proof gallon upon the distilled spirits contained therein in addition to the duty provided by law upon the old ingredients contained in such compounds or preparations" and in lieu thereof to restore the provision as it passed the house.

The duty on fur hats and bonnets is increased from 35 to 40 per cent advalorem.

The glove schedule is entirely rearranged, reading as follows—

Gloves—Kid or leather, of all description, wholly or partially manufactured, 40 per cent ad valorem.

Smokers' articles—The wording of the paragraph concerning tobacco pipes is changed so as to read as in the bill passed by the house.

Fruits, pine apples and bananas are placed specifically on the free list.

Canned shell fish are also added to the free list.

There are also changes in the income tax part of the bill. One of these changes adds the word "assessed" at the beginning of section 54 and it is afterwards provided that this assessment shall be made by the commissioner of internal revenue. A proviso is as follows: "That all non-resident corporations shall be subject to a tax of 2 per cent upon all undistributed sums sent abroad, which sums for the purposes of this act shall be held to be dividends to foreign stockholders or policy holders and the resident agent, or manager of such foreign corporations, shall withhold said tax of 2 per cent from all such undistributed sums and make return thereof and pay therein."

The senate provision requiring corporations to make returns in accordance with the requirements of section 3,713 of the revised statutes, is stricken out and the house provision restored.

An amendment is also made providing that corporations shall not only give the amounts paid to employes who receive more than $4,000 per annum, but also their names and addresses and the amount paid them.

Internal revenue tax on spirits, section 95, is amended so as to read as follows—"That no distiller who has given the required bond and who sells only distilled spirits of his own production at the place of manufacture, or at the place of storage in bond, in the original packages, to which the tax paid stamps are affixed, shall be required to pay the special tax of a wholesale liquor dealer on account of such sales; provided, that he shall be required to keep the books prescribed by section 3,318 of the revised statutes of the United States, or so much as shall show the date when he sent out any spirits; the serial number of the packages containing the same, the kind and quality of the spirits in wine gallons and taxable gallons, the serial numbers of the stamps on the packages and the names and residences of the persons to whom sold and the provision of section 5 of an act entitled, 'An act to amend the laws relating to internal revenue,' approved March 5, 1879, as to transcripts, shall apply to such books. Any failure by reason of refusal or willful neglect to furnish the transcripts shall subject the spirits owned or distilled by the distillery to forfeiture."

CRUSHED IN THE RUINS.

Four Person Killed, Five Wounded and Seven Missing.

At Memphis, Tenn., four cheap coffins laid in a row in the morgue, and five bandaged forms reposing on cots at the city hospital represents the dead and injured taken from the debris of a tenement building which collapsed Sunday morning.

The list of the dead is as follows: John Morgan, Amy Simmons, Will Cook, alias Henry Gray, Tottie Marks.

The injured are: Andrew Harris, Catherine Boyd, Lavinia Perkins, Georgia Guy, Cora Murphy. The chances for the recovery of Cora Murphy and Catherine Boyd are extremely doubtful. All the persons taken from the ruined building are colored. Seven persons missing.

Fair Buildings Sold.

At Chicago, all of the big world's fair buildings were sold at private sale by the South Park Commissioners. L. C. Garrett, a St. Louis contractor, bought the lot for $75,000. The purchase includes the great Manufactures Building, Machinery Hall and the buildings of Administration, Electricity, Mines, Agriculture, Fisheries and Transportation. The only structures not named in the purchase are the Art Building, now the property of the Field Columbian Museum, the Convent La Rabida, the two service buildings, into which the Exposition camp has gathered its effects and the Forestry Building. The purchaser will begin the demolition of the buildings at once.

THE NATION'S FINANCES.

Regular Monthly Statement of the Treasury for March.

The regular monthly Treasury statement for March shows receipts as follows, cents omitted:

Customs, $11,358,984; internal revenue, $12,808,427; miscellaneous $675,385.

The total receipts were therefore $24,842,797, as against $34,115,809 for March, 1893. The disbursements during the month were as follows: Civil and miscellaneous, $9,656,907; war, $3,770,427; navy, $3,723,230; Indians, $709,607; pensions, $13,372,500; interest, $246,211; total disbursements $31,137,520, as against $31,633,482 for March 1893, having a deficit of $6,294,763 for March and for the nine months of the present fiscal year of $55,432,027.

As compared with March of last year there was a falling off in the receipts from customs of over $8,300,000; from internal revenue of $122,500 and from miscellaneous sources of $844,622.

In the expenditures there was a decrease of $540,941 on Indian account and $466,714 on account of pensions. There was a falling off in the interest account of $432,734.

The Rhode Island Election.

The returns of the election as corrected give the total vote 54,655. The vote last year was 54,679. The vote for Governor gives Brown, 28,846; Baker, 22,808, and Metcalf (Prohibitionists) 2,185. Brown's plurality is 6,038, and his majority 3,853, which is larger than any Governor has received in many years. The corrected returns show that there will be three Democrats in the House of Representatives and two Democrats and one Independent Democrat in the Senate.

BETTER SHOWING IN TRADE.

Decrease in the Number of Important Failures.

R. G. Dun & Co.'s review of trade says: The improvement in business has continued since the President's veto, which has been sustained in the house. But the best news of the week is the great decrease in number and importance of failures. The number was 2,090 in January, 1,202 in February and 1,005 in March. The commercial liabilities were $31,320,687 in January, $17,580,419 in February and $14,730,893 in March. Nearly half of the commercial liabilities were of firms failing during the first month; much more than half of the trading liabilities 54 per cent, as the full statement shows, 42 per cent of the manufacturing liabilities and 49 per cent of the other commercial liabilities.

Moreover, nearly two-thirds of the banking liabilities were of failures in the first month and over half of the railroad liabilities. Though the number of commercial failures, 4,207 in the United States, was never equaled in any quarter until the third of last year, the average of liabilities is only $14,850, which is lower than has appeared in the records of 28 years at any time closely preceding any serious reverse. The degree of commercial soundness and health thereby indicated gives ground for hope that the liquidations consequent upon the disasters of 1893 have been in large measure accomplished.

Wheat has been lifted about 4 cents by reports of serious injury to the plant, but the accounts are more than usually conflicting, and there is much uncertainty about the extent of the injury. Western receipts were 1,711,147 bushels for the week against 3,170,971 bushels last year, but exports from Atlantic ports were but 759,445 bushels against 1,042,265 bushels last year. Corn has declined 1½c. with western receipts of 2,596,139 bushels. Pork illustrates the contrariness of the hog by rising half a dollar with lard a shade. The cotton market approaches stagnation with spot steady at 7¼c, but receipts for the week exceed last year's and still indicate a crop much above 7,000,000 bales.

The failures for the past week have been 249 in the United States against 195 last year, and 26 in Canada against 28 last year.

Five Persons Killed

Joseph Kollas, a German, his wife and three children, living in the northern part of Oil City, Pa., were killed, the result of an explosion in the Kollas house.

The cause of the accident is a mystery, some saying it was a partly empty can of nitroglycerine, while others say it was a dynamite cap which Kollas was examining, the latter being the generally accepted theory.

Promptly Signed the Bering Sea Bill.

The president received the bill to carry into effect the report of the Bering sea arbitration commission and immediately affixed his signature to it. The bill will now go the state department and a proclamation setting forth its provisions will probably be issued.

Royal Baking Powder

ABSOLUTELY PURE

What Sort of Repentance Francis Murphy Awakened in a Drunkard.

Judge Corwin's famous temperance address recalls an incident which occurred during one of Francis Murphy's blue-ribbon addresses. A drunken man sat in the audience and listened with owlish gravity to the remarks. Murphy was telling of a fearful occurrence alleged to have happened in a distant State—where such things always happen.

"And, my friends," said he, "this poor wretch was so filled and saturated with alcohol that he fairly breathed alcohol, and one night when he tried to blow out a candle the flames set the alcohol fumes afire and the miserable sot was burned alive."

The drunken man rose to his feet and huskily demanded:

"Ish thassho?"

"It is most assuredly so, sir."

"Got er—hic—got er Book?"

"Yes, right down here in front."

The horrible example walked uncertainly down to the front. The audience was on tiptoes of expectancy. Here was another brand plucked from the burning.

"I solemnly shwear," said the inebriate, "that, never, sho long's I live, will I—hic—will I ever blow out another candle."—*Washington Post.*

It Was the Hat.

"I never realized the truth of Shakspeare's saying that 'the apparel doth oft proclaim the man' till I made my first trip to New York City," said Editor McAdams, who prints the Chickasaw Chieftain away down in the Indian Nation, to some friends at the Ebbitt.

"You see the sombrero I have on now—well, the brim is pretty wide, but not a marker to the one I wore that day on my pilgrimage up Broadway. I must have looked pretty verdant, for there were just seventeen sharpers that struck me between the Astor House and the Fifth Avenue Hotel. When I reached that point the thing got monotonous, and I went into a hat store and bought a derby. Then I resumed my sauntering and walked a mile further, but never a 'con' man reached out his hand and with an insinuating smile pretended to know me."—Washington Post.

It will, perhaps, require a stretch of the imagination on the part of the reader to recognize the fact that the two portraits at the head of this article are of the same individual; and yet they are truthful sketches made from photographs, taken only a few months apart, of a very much esteemed citizen of Illinois—Mr. C. H. Harris, whose address is No. 1,022 Second Avenue, Rock Island, Ill. The following extract from a letter written by Mr. Harris explains the marvelous change in his personal appearance. He writes: "Dr. Pierce's Golden Medical Discovery saved my life and has made me a man. My home physician says I am good for forty years yet. You will remember that I was just between life and death, and all of my friends were sure it was a case of death, until I commenced taking a second bottle of 'Golden Medical Discovery,' when I became able to sit up and the cough was very much better, and *the bleeding from my lungs stopped*, and before I had taken six bottles of the 'Golden Medical Discovery' my cough ceased and I was a new man and ready for business.

I now feel that it is a duty that I owe to my fellow-men to recommend to them the 'Golden Medical Discovery' which saved my life when doctors and all other medicines failed to do me any good.

I send to you with this letter two of my photographs; one taken a few weeks before I was taken down sick in bed, and the other was taken after I was well." These two photographs are faithfully re-produced at the head of this article.

Mr. Harris's experience in the use of "Golden Medical Discovery" is not an exceptional one. Thousands of eminent people in all parts of the world testify, in just as emphatic language, to its marvelous curative powers over all chronic bronchial, throat and lung diseases, chronic nasal catarrh, asthma, and kindred diseases.

Eminent physicians prescribe "Golden Medical Discovery" when any of their dear ones' lives are imperilled by that dread disease, Consumption. Under such circumstances only the most reliable remedy would be depended upon. The following letter is to the point. It is from an eminent physician of Stamps, Lafayette Co., Ark. He says: "Consumption is hereditary in my wife's family; some have already died with the disease. My wife has a sister, Mrs. E. A. Cleary, that was taken with consumption. She used Dr. Pierce's Golden Medical Discovery, and, to the surprise of her many friends, she got well. My wife has also had hemorrhages from the lungs, and her sister insisted on her using the 'Golden Medical Discovery,' and it cured her. She has had no symptoms of consumption for the past six years. People having this disease can take no better remedy." Yours very truly,

W. C. Rogers, M. D.

From the Buckeye State comes the following: "I was pronounced to have consumption by two of our best doctors. I spent nearly $500, and was no better. I concluded to try Dr. Pierce's Golden Medical Discovery. I bought and used eight bottles and I can now say with truth that I feel just as well to-day as I did at twenty-five, and can do just as good a day's work on the farm, although I had not done any work for several years."
Truly, your friend,

William Dulaney

"I had catarrh in the head for years and trouble with my left lung at the same time. You put so much faith in your remedies that I concluded to try one bottle or two, and I derived much benefit therefrom. I used up three bottles of Dr. Sage's Catarrh Remedy, five bottles of your "Golden Medical Discovery," and in four months I was myself again. I could not sleep on my left side, and now I can sleep and eat heartily. So long as I have your medicines on hand I have no need of a doctor; I do not think my house in order without them. Yours truly,

A. H. Heard

If it would be any more convincing, we could easily fill the columns of this paper with letters testifying to the cure of the severest diseases of the throat, bronchia and lungs, by the use of "Golden Medical Discovery." To build up *solid flesh and strength* after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make *fat* like cod liver oil and its nasty compounds, but *solid, wholesome flesh.*

A complete treatise on Throat, Bronchial, and Lung Diseases; also including Asthma, and Chronic Nasal Catarrh, and pointing out successful means of home treatment for these maladies, will be mailed to any address by the World's Dispensary Medical Association of Buffalo, N. Y., on receipt of six cents in stamps, to pay postage.
