THE PICTURE OF HEALTH

ood's Sarsaparilla Made Her Strong and Healthy.

-Hood's Sarsaparilla has been of great bene- to our little girl, and also to myself and hus- nd. When she was 3 years old Mabel was ted with stomach trouble, like cramps or in- mmation. I was taking Hood's Sarsaparilla r my blood, and as the doctor's prescription d not help her, I occasionally gave her a lit- e of my own medicine. I soon realized that ood's Sarsaparilla was

WANTED.—A position on a farm or near a suburban resi- dence as an ornament, and to pump water, sprinkle lawns, carry up stairs, cut wood, cut feed, run a dynamo for electric light purposes, and do a great variety of odd jobs. For a week I have been a galvan- ized-after-completed Aermotor; provoked to that I was only steel, Zinc and Aluminum, malleyed and unmade up. My services can be had very cheap, if taken now, during the slack season. Ap- ply to my parents, the Aer- motor Company, Ltd., Rock- well and Fillmore streets, Chicago, Ill. P.S.—I am always at home and steady. Ours is the largest family of its kind in the world, and never has one of us gone wrong. We are also a most powerful family, with marvelous endur- ance. We have iron con- stitutions (or rather Steel ones) but are very sensitive, being vis- ibly affected by a breath of air. We stand high and have great in- fluence, being able to persuade water to run up hill. In fact, we are superior beings, hav- ing been placed by our creator between the earth and heavens. Our blood has been tried in many a tilt and towers above every- thing everywhere. We are industrious beyond anything ever known, since we work 26 hours a day and more than 365 days in the year. We are watch- ing in our vigilance —we never rest. We are going on the earth or in the heavens, as we take into our systems absolutely nothing but this air. Write quick, we are going fast.

SUBURBAN JOBS

Like this which delight the eye and add innumerable comforts to any home, are furnished at prices within reach of all. Cypress, Pine or Galvanized Steel Tanks, with grace- ful galvanized steel substructures a spec- ialty. We furnish gal- vanized steel Stock tanks that do not leak and make mud holes at less than wooden ones cost.

The Bullfrog's Stolen Dinner.

Here is the queerest bullfrog story on record: A youth who lives at High Shoals says that his father's cows frequently came up at night with the appearance of having been milked. His father got tired of it and sent him to the pasture with the cows to catch the thief. He spent the day near enough to the cows to watch them, he thought, but at night it was still evident that the cows had been milked again. He was scolded and sent back with them the next day. About 11 o'clock, he says, this cow went into the canes near a small lake and lowed. He crept through the brush and caught the thief in the act, and he proved to be a bullfrog as large as a hat. The frog was hanging on to the cow's udder and seemed to be enjoying his dinner immensely.—Savannah News.

Color Cure for Insanity.

In the hospital for the insane at Aliessandria, Italy, two special rooms have been arranged, one fitted up with windows of red glass and red paint on the walls, the other in blue throughout. A violent patient is first taken to the "blue room" and left to see what effect that color will have on his nerves. One maniac was cured in less than an hour; another, raving and furious, was at perfect peace after passing a day in the calming shades of his cerulean surroundings. The "red room" is used for the commonest forms of dementia, especially melancholy and refusal to take food. The first patient was one who had fasted seven days. After only a three hours' stay in the red room he became quite cheerful and asked for food.—St. Louis Republic.

.. House in a Fret.

Let the mother become sick and helpless, and the house is all in disorder. When both father and mother are down, you may as well close the shutters. Order is brought out of chaos often very easily, and Mrs. John Malin, of South Butte, Mont., Feb. 17, 1893, found an easy way out of her difficulties, as she writes thus:—"My husband and I took very bad rheumatism from severe colds, and my arms were so lame I could not raise them to help myself. I sent at once for a bottle of St. Jacobs Oil, and before the bottle was half empty, I could go about my work. My husband became so lame he could not get out of bed. Two and a half bottles completely cured him. I will always praise St. Jacobs Oil and you may use this as you see fit." KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A STRIKE DECISION.

Attorney General Defines a Mail Train —Hard on the Strikers.

service at St. I ... has received the following opinion ... attorney-general

Washington, April 21st, 1894.

To the Postmaster-General:

Sir—I have the honor to acknowledge the receipt of your communication of to-day relating to the stoppage of passenger trains carrying the mail on the Great Northern railroad. The statutes of the United States makes it an offense for any person to knowingly and willfully obstruct or retard the passage of the mails. It has been decided by the courts that it is an offense for any person knowingly and willfully to obstruct or retard the passage of a train carrying the mails and that it is no excuse that such person is willing that the mail car be detached and run separately. All parties to the conspiring against the United States are liable to a penalty of not less than $1,000 and not more than $10,000 and to imprisonment of not more than two years.

Acting Attorney-General.

THIS YEAR'S WHEAT CROP.

Reports That It Will Be Larger Than the Average One.

C. A. King & Co., of Toledo, O., the past few days have received replies from 3,248 reliable dealers and millers, covering every important wheat county in the six principal winter wheat states, which raise two-thirds of the winter wheat crop of the United States.

Present prospect is that the next wheat crop in the six states will be somewhat larger than an average one. Four hundred and sixty-six dealers report the outlook excellent, 1,478 say good, 796 an average and 478 a trifle below an average; 144 say poor, while only 36 say half a crop. Indiana has the best and a very good prospect, especially in some of the larger wheat counties. Ohio promises nearly as well, while Missouri and Illinois follow, each saying above an average. Michigan and Kansas have fully an average prospect.

LOCUSTS PLOWED UP.

Pests Discovered By Hundreds By Illinois and Missouri Farmers.

J. A. Pollard, a farmer living seven miles south of Sedalia, Mo., brought to that city a gallon jar filled with live locusts. He says farmers in the southern parts of this county are plowing up millions of Pharoah's pests, and fears are entertained that their appearance so early in the spring will result in a devastation of the tender crops.

A dispatch from Mowequa, Ill., says in turning the soil in this vicinity a number of farmers have discovered large numbers of locusts of extraordinary size. This appears to confirm the rapidly spreading belief that we are to have the seventeenth-year locust this year.

Robber Got $2,000.

An unknown robber entered the office of the county treasurer in the court-house at Portland, Ore., shot the cashier in charge, Charles B. Mallarky, and then jumping through a window made his escape with about $2,000 of the county funds.

MANY PERSONS KILLED.

THE EARTHQUAKE IN GREECE.

So Far as Reported 227 Lives Were Lost, and the Number May be Larger.

Many reports from the towns which have suffered most severely from the earthquakes of the last two days were received at Athens, Greece. The loss of life and property is much greater than was at first supposed. In the Loeris district 227 persons are known to have been killed by falling walls, and many others are missing. A parish church in Proskino collapsed during vespers, and 30 men and women were killed outright while several who were dug out alive from the ruins are likely to die. Ninety persons were buried in the ruins in Malesina and 60 of them were killed. The others may recover. In many towns whole households have disappeared without leaving an inkling of their fate. In Martino 39 persons were killed by falling timbers. Most of them died within the walls of a church, whose roof fell in during services.

Although there has been small loss of life in Athens and its environments, the damage to property has been enormous. The buildings in which the Austrian Lloyd and Florio Rubattino companies had their offices were wrecked completely. The roof collapsed, the floors broke and the walls are rent. Hardly a whole piece of furniture was left in either building. For years the work or restoring the famous Byzantine church at Daphne has been in progress. The dome and walls had been repaired, but they were cracked and crumbled and the beautiful mosaics were disfigured beyond hope of restoration.

Appeals for help come in hourly. But little can be done toward alleviating the prevalent distress. In dozens of towns the houses have been deserted, the inhabitants are camping unsheltered, and almost unfed, in the fields, and cannot be persuaded to return to their homes. The King, accompanied by the Minister of the Interior, has begun visiting the districts which have suffered most keenly.

The total number of deaths reported is now 227, of which 130 were killed at Malesina alone. The king and Prince Nicholas, accompanied by their suites, arrived at a village near Atlanta. They proceeded on horseback in order to visit several of the ruined villages.

A later telegram from Athens says: there were several slighter shocks of earthquake Sunday and Monday. Telegrams received from the shaken districts represent an appalling aspect of affairs. Whole villages are in ruins and the survivors are camping out, in many cases entirely without food.

Housekeepers Should Remember.

The Government Chemists, after having analyzed all the principal brands of baking powder in the market, in their reports placed the "Royal" at the head of the list for strength, purity and wholesomeness; and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Avoid all baking powders sold with a gift or p ize, or at a lower price than the Royal, as they invariably contain alum, lime or sulphuric acid, and render the food unwholesome.

Large "Gobblers."

The American bronze is the largest of all turkeys. Some of the weights attained by it are almost fabulous. Birds have been known to reach more than fifty pounds, and a "gobbler" was imported some time ago by the secretary of the Turkey Breeders' Club of Peterborough which weighed forty-five pounds and was a magnificent specimen of his race. The records of the great Birmingham show tell of old turkey cocks exhibited there weighing nearly forty pounds, of hens thirty pounds, of young cocks twenty-nine pounds, and of young hens nineteen pounds; but these are birds fed up for the purpose, and are exceptional

Preserving Timber from Insects.

Experiments made in France have shown that the reason the sap wood in timber is worm-eaten is because of the existence of starch in it. It is the starch that the insects are after, and they do not attack the hard wood because it contains no starch.

The experimenters have devised a method of preserving timber from such attacks. In the spring they cut a ring through the bark around the upper end of the trunk, and suppress all buds that are developed there. By autumn the starch has disappeared from the sap-wood and the tree is ready to be felled. Timber thus prepared, it is said, does not become worm-eaten.

If your nearest, best and most esteemed neighbors had written the following letters they could be no more worthy of your confidence than they now are, coming, as they do, from well known, intelligent and trustworthy citizens who, in their several neighborhoods, enjoy the fullest confidence and respect of all.

Mrs. F. L. Inman, of Manton, Wexford Co., Mich., whose portrait heads this article, writes as follows: "I began taking Dr. Pierce's Favorite Prescription about a year ago. For years I have suffered with falling and ulceration of the womb, but to-day, I am enjoying perfect health.

I took four bottles of the 'Prescription' and two of Dr. Pierce's Golden Medical Discovery. Every lady suffering from female weakness should try the 'Prescription' and 'Golden Medical Discovery.'"

Miss Mary J. Tanner, North Lawrence, St. Lawrence Co., N. Y., writes: "I was sick for four years. For two years I could do no work. I had five different physicians, who pronounced my case a poor or impoverished condition of the blood, and uterine trouble. I suffered a great deal with pain in both sides, and much tenderness on pressing over the womb. I bloated at times in my bowels and limbs; was troubled with leucorrhea. I could not sleep, and was troubled with palpitation of the heart. Suffered a great deal of pain in my head, temples, forehead and eyes. I had a troublesome cough, raised a great deal and at times experienced a good deal of pain in my chest and lungs. My voice at times was very weak. I suffered excruciating monthly, periodical pains. Since taking seven bottles of Dr. Pierce's Favorite Prescription some time ago, I have enjoyed better health than I have for more than four years previously; in fact, for several months past I have been able to work at sewing. I have gained in weight thirty-nine pounds since taking your medicines; the soreness and pain have disappeared." Yours truly,

Mary J. Tanner

Mrs. Alex. Robertson, of Half Rock, Mercer Co., Mo., writes: "For twenty years, I suffered with womb disease and most of the time I was in constant pain which rendered life a great burden. I cannot express what I suffered. I had eight doctors and all the medicine I had from them failed—the one after the other.

I was in nervous, cold hands and feet, palpitation, headache, backache, constipation, leucorrhea and no appetite, with bearing-down pains. I got so weak I could not walk around. I had to keep my bed, thinking I would never get my health.

One day my husband got one of your little books and read it to me. He said there was nothing doing me any good. I said I would try Dr. Pierce's Favorite Prescription. I did try it. After the first few weeks my appetite was better; I was able to sit up in bed. I wrote to the World's Dispensary Medical Association, at Buffalo, N. Y., and described my case; they sent me a book on women's diseases. I read carefully and followed the directions as near as I could and took the medicine for two years. With the blessing of God and your medicines, I am entirely cured. That was three years ago."

Yours truly,

Mrs. Alex. Robertson
