What They Are For

Business indigestion sailow skin
Dyspepsia bad taste in the mouth pimples
Headache foul breath torpid liver
Nervous headache loss of appetite depression of spirits

When these conditions are caused by constipation; and constipation is the most frequent cause of all of them.

One of the most important things for everybody to know is that constipation causes more than half the sickness in the world; and it can all be prevented. Go by the book.

Write to B. F. Allen Company, 365 Canal street, New York, for the little book on CONSTIPATION (its causes, consequences and correction); sent free. If you are not within reach of a druggist, the pills will be sent by mail, 25 cents.

SAPOLIO
Like a Good Temper, "It Sheds a Brightness Everywhere."

The teeth.
In examining men desirous of joining the Royal Marines of the English army recruiting officers are directed to pay special attention to the condition of the teeth of a candidate. Seven defective teeth, or even less if they impair the biting or grinding capacity, will render a candidate ineligible, and the examining medical officer is directed to take into special consideration the probability of the teeth lasting.

AIR is a meal of which we are constantly partaking—hence it should always be pure.

A Means Out of the Difficulty.
Any strain or bending of the back for any length of time leaves it in a weakened condition. A means out of the difficulty is always handy and cheap. Do as was done by Mr. Herman Schwegel, Aberdeen, S. D., who says that for several years he suffered with a chronic stitch in the back, and was given up by doctors. Two bottles of St. Jacobs Oil completely cured him. Also Mr. John Lucas, Elmora, Ind., says that for several years he suffered with pain in the back, and one bottle of St. Jacobs Oil cured him.

King Oscar II of Sweden has composed an ode to the memory of Goinoid.

Dr. Kilmer's SWAMP-ROOT cures all Kidney and Bladder troubles, Pains and Inflammation, etc. Lathrop & Co., Binghamton, N.Y.

The Rev. Dwight L. Moody is a poor man.

When Traveling
Whether on pleasure bent, or business, take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectively on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50-cent and \$1 bottles by all leading druggists.

London's foreign population is 270,000.

Hall's Catarrh Cure is a liquid and is taken internally, and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free. Sold by Druggists, etc. F. J. CHENEY & CO., Props., Toledo, O.

The average life of a ship is about 25 years.

SUFFERERS FROM COUGHS, SORE THROAT, etc. should try "Brown's Bronchial Trochees," a simple but sure remedy. Sold only in boxes. Price 25 cents.

Manuel Garcia, who taught Jenny Lind, is still teaching in his 90th year.

Shiloh's Cure
Is sold on a guarantee. It cures Incipient Consumption; it is the Best Cough Cure; 50c., 50c., \$1.

If afflicted with sore eyes use Dr. Isaac Thompson's Eye-water. Druggists sell at 25c per bottle.

A Ruddy Glow
on cheek and brow is evidence that the body is getting proper nourishment. When this glow of health is absent assimilation is wrong, and health is letting down.

Scott's Emulsion
taken immediately arrests waste, regardless of the cause. Consumption stops yield to treatment that stops waste and builds flesh anew. Almost as palatable as milk.

Prepared by Scott & Bowne, N. Y. All druggists.

POPULIST SYMPATHIZERS.
Senator Allen Defends the Rights of Coxyites.
In the Senate at Washington Mr. Allen, (Neb.) offered the following resolution, for which he asked immediate consideration:
Whereas, It is currently reported that unarmed, law-abiding and peaceably disposed but unemployed citizens of the United States are about peacefully to assemble in Washington to petition Congress for relief from their existing condition;
Whereas, The acts of arresting such persons have been made on their entering the District of Columbia and the city of Washington, therefore, be it
Resolved, First, that under the Constitution of the United States, citizens of the United States, regardless of their rank or station in life, have an undoubted and unquestionable right to peaceably assemble and petition the government for a redress of their grievances at any place within the United States, where they do not create a breach of the peace, menace any person or property or disturb the transaction of public business, or the free use of streets and highways, by the public; second, that such persons have an undoubted right to visit the assembly in the city of Washington for any and all peaceable purposes as in other portions of the territory belonging to the United States, at all times being amenable to the law for any violation thereof; third, that such persons have a right to enter on the capitol grounds of the United States and in the capitol itself as fully and to as great an extent as other citizens or persons as long as they do not disturb or hinder the transaction of the public business, menace the public peace or rights of persons and property, and any threat of violence to such person under such circumstances would be a clear violation of their Constitutional rights; fourth, that we commend the prompt enforcement of all just Constitutional laws looking to the preservation of the public peace and the prevention of crime, but under pretense of preserving the public peace and the prevention and punishment of crime peaceable and law-abiding citizens must not be disturbed in the full and free exercise of their Constitutional rights.

THE NATIONAL GAME.
ENGLAND has organized her first baseball team.
FARRELL is the tallest man on the New York team.
The cry all along the line is, anything to beat Brooklyn.
SOUTHERN practices trips will be in vogue again next spring.
LATHAM has been appointed field captain of the Cincinnati team.
MILLER will play third base and captain the St. Louis Browns.
THERE are twenty-five players on the payroll of the Washington Club.
The New York Club intends to carry seven men throughout the season.
JENNINGS, REITZ and McGRAW are playing phenomenal ball for the Baltimore team.
The Chicago Club has returned to the use of the old and famous white stockings.
EDMUND CLARENCE STEEDMAN, the poet and broker, is an enthusiastic baseball fan.
BOSTON has the three shortest outfielders in the League in McCarthy, Duffy and Bannon.
THAT great American query, "What's the score?" has gone on duty for the season of 1904.
THE mascot crane that was so prevalent in baseball a few years back has died out entirely.
THERE are four players among the Chicago team who measure six feet one inch in height and two who are six feet tall.
It is a noteworthy fact that every man on the Baltimore team began his baseball career either as a pitcher or a catcher.
MURPHY, the New York player, will make his mark in the League. He has showed up strongly in batting, fielding and base running.
EX-PRESIDENT JOHN B. DAY, of the New York Club, thinks that this will be the most successful year for baseball in the history of the game.
The Dickinson College baseball team has two Indian pitchers, and the Harvard baseball Club also possesses an Indian warrior named Mackey.
BOSTON'S infield is well high perfect. The four men play almost as one, the best of town work resulting. They all seem to be at the right place all the time.
McPHEE, of the Cincinnati, and Tony Mulane, of the Baltimore, are the only players in the big League who played with the American Association in its inaugural year.
The Baltimore right field fence has been moved in about thirty feet, and the oranges in the Monumental City are already figuring on the number of home runs Dan Brouthers will make this year.
The old battery of Bennett and Balbourne has been singularly unfortunate this year. Bennett lost both legs and Balbourne had an eye destroyed by a charge of shot. Manager Frank Selee, of the Boston, has already begun to make preparations for a grand testimonial for the benefit of Bennett to take place during mid-summer.
ADRIAN C. ANSON has been the marvel of the baseball profession. No other man who ever played ball can point to twenty-three years of successful life as a player on the ball field. Anson has done with the game as a player, that is sure, and while in a great emergency he may jump in for a day or so, still he will not be called a player in record of any sort. As a matter of fact, it is a physical impossibility for Anson to continue playing. He is thirty pounds over his play line weight at present.

IN ACCORD WITH COXEY.
Greeting Extended to the Ohion by the Universal Peace Union.
The following letter was received at Coxe headquarters, New York.
OFFICE OF THE UNIVERSAL PEACE UNION, 218 Chestnut Street, PHILADELPHIA, Pa.)
To J. S. COXEY:
DEAR SIR—We are in accord with the leading purposes of your movement, and feel the greatest anxiety that you will hold out to the end, firm in the assertion of your right to peaceable assembly and petition to the representatives of our Government. As members of the Universal Peace Union, realizing the value and power of good roads, entire disuse of deadly force, and temperance in all movements simply and purely for the rights of man, round and urge you to adhere to your first, and so far continuing purpose, to preserve these in all the emergencies and trials to which you may be subject until the work you have set out to do is accomplished. Cordially,
ALFRED H. LOVE, President.

Georgia's Rich Negroes.
A census taken of the colored business men in Atlanta, Ga., shows that they are worth \$1,000,000. There are eight men worth \$50,000 each, while a large number are placed at sums between \$10,000 and \$20,000. The provision business seems to be in which they make the greatest success.

HORROR ENDED THE SERVICE.
Twenty-Eight Children Worshipers Killed by Earthquake Shocks.
Full details of the loss of life and damage to property caused by the earthquakes that occurred in Greece last week have been slow in coming to hand. The London Times' correspondent now at Martini, near Atlanta, says: "I have visited several villages in this district, and everywhere a scene of terrible destruction presents itself. Kiparissa, a small village near Atlanta, was leveled completely to the ground. The people built huts of pine branches, and later obtained a few tents from the authorities. The village of Proskyna was totally destroyed. Nothing remains of the village save heaps of stone and piles of broken timbers.
"Forty children of Proskyna were in church at the time the shock that destroyed the village occurred. The church had a stone roof, which fell upon the worshippers below. Twenty-eight of the children were killed and the others were injured. The priest from whom I obtained a description of the scene escaped with severe injuries. The number of dead here was 43. The scene at Malesina, some eight miles away, was absolutely appalling. This place was completely wiped out of existence; that in most cases even traces of the house walls have disappeared, they having been swallowed in the chasms that opened in the earth. The dead here numbered 136. Most of the bodies have been recovered from the ruins and buried."

IDLE MEN, DULL BUSINESS.
Strikes and Labor Disturbances Prevent Improvement in Trade.
R. G. Dun & Co.'s Weekly Review of Trade, New York, says: When accounts of great strikes and labor disturbances crowd all newspapers, it is idle to look for much improvement in business. That every week of idleness for so many men must appreciably lessen the aggregate power to purchase products of labor, is evident, but in spite of all some improvement still appears. The iron and steel works in regions where bituminous coal or coke is used as fuel may be seriously interrupted if the struggle is prolonged, but the immediate effect is to give the look to prices of some products in those regions.
The volume of foreign trade does not materially alter, exports for the month being 10 per cent. larger than last year, while imports at New York have been 47.7 per cent. smaller. The decline in customs receipts, indicating the decrease in dutiable imports, is 45 per cent. of some products in those regions, however, and money continues to accumulate here. This state of facts clearly indicates the general depression of trade and industries.
The failures this week have been 180 in the United States, against 216 last year, for the first time in many months showing a decrease, and in Canada 26 against 22 last year. The list includes none of great importance.

Why not, indeed?

When the Royal Baking Powder makes finer and more wholesome food at a less cost, which every housekeeper familiar with it will affirm, why not discard altogether the old-fashioned methods of soda and sour milk, or home-made mixture of cream of tartar and soda, or the cheaper and inferior baking powders, and use it exclusively?

ROYAL BAKING POWDER CO., 106 WALL ST., NEW-YORK.

Beet with Danger.
Amateur photographers do not thrive in Russia. The fascinating pursuit is beset with many difficulties. In the first place, it is necessary to communicate with the police and obtain a license. This having after considerable delay been granted, it is advisable for one to be very careful where he or she is seen photographing. If one happens to be in proximity to a fortress when discovered by the Secret Intelligence Department, he stands a chance of being dispatched on a free excursion to Siberia, where return tickets are not supplied. Of every picture made a copy must be sent to the police authorities and another must be filed by the photographer for reference. The police have also the right, at any time of the day or night to enter your dark room and examine everything therein, and to search all of your photographic paraphernalia. Nor is this all the unfortunate amateur has to put up with. All of his dry plates have to be imported—as they are not manufactured in Russia—and each box is opened and every plate examined. It is a wonder they do not immerse each one in a developer as well, to ascertain if there are any nihilistic communications latent in the film. Poor, suffering amateur photographers!

A thin man likes to have his picture taken in a cape overcoat.

If the following letters had been written by your best known and most esteemed neighbors they could be no more worthy of your confidence than they now are, coming as they do from well known, intelligent and trustworthy citizens, who, in their several neighborhoods, enjoy the fullest confidence and respect of all who know them. The subject of the above portrait is a well known and much respected lady, Mrs. John G. Foster, residing at No. 33 Chapin Street, Canandaigua, N. Y. She writes to Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., as follows: "I was troubled with eczema, or salt rheum, seven years. I doctored with a number of our home physicians and received no benefit whatever. I also took treatment from physicians in Rochester, New York, Philadelphia, Jersey City, Binghamton, and received no benefit from them. In fact I have paid out hundreds of dollars to the doctors without benefit. My brother came to visit us from the West and he told me to try Dr. Pierce's Golden Medical Discovery. He had taken it and it had cured him. I have taken ten bottles of the 'Discovery' and am entirely cured, and if there should be any one wishing any information I would gladly correspond with them, if they enclose return stamped envelope."

Not less remarkable is the following from Mr. J. A. Burton, a prominent merchant of Jackson, N. C., who says: "I had been troubled with skin disease all my life. As I grew older the disease seemed to be taking a stronger hold upon me. I tried many advertised remedies with no benefit, until I was led to try Dr. Pierce's Golden Medical Discovery. When I began taking it my health was very poor; in fact, several persons have since told me that they thought I had the consumption. I weighed only about 125 pounds. The eruption on my skin was accompanied by severe itching. It was first confined to my face, but afterwards spread over the neck and head, and the itching became simply unbearable. This was my condition when I began taking the 'Discovery.' When I would rub the parts affected a kind of branny scale would fall off."

Your Heart's Blood

Is the most important part of your organism. Three-fourths of the complaints to which the system is subject are due to impurities in the blood. You can therefore realize how vital it is to

Keep It Pure

For which nothing equals S. S. S. It effectually removes all impurities, cleanses the blood thoroughly and builds up the general health.
