Sugar at Retail.

Grocers everywhere assert that there is little or no profit in reta ling sugars, and housekeepers confirm this by saying that there is small economy in buying sugar by the keg. The tradition touching the small profit in handling sugar at retail is certainly more than 100 years old, for a writer in the middle of last century affirmed that London grocers of that day were often out £60 to £70 a year for paper and packthread used in wrapping up sugar, and some grocers would not sell sugar to a customer who did not at the same time purchase some other article.-Chicago Herald.

less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid viole laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting

in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kid-neys, Liver and Bowels without weakening them and it is perfectly free from

RIOTOUS MOB IN CLEVELAND ASSAULT INNOCENT MEN.

Police Were Lenient, But Will Now Draw the Line.

Headed by two labor leaders 5,000 idle men and strikers marched through the streets of Cleveland and created consternation throughout their line of march. Street cars were stopped and stoned, wagons seized and their contents thrown into the street. A motorman was knocked insensible by a stone thrown by one of the men in the mob. As yet no arrests brive teen made.

At 10 o'clock in the morning the crowd At 10 o clock in the morning the clowd formed in the public square as has been their custom every day for almost two weeks. Speeches were made by several leaders, and the men were cautioned to commit no acts of violence. An Anarchist made several vain efforts to promulgate his doctrines, but was forced from the speaker's stand by the cool-headed men headed men.

After listening to several addresses the mob marched down Superior street, across the Su-perior street viaduet to Pearl street on the Westside. Several flags and banners containweiside, several lags and called scontab-ing various legends were flaunted in the breeze, and when the crowd reached the west end of the viaducet a train approached. The men hooted and jeered and waved their handker-hiefs and banners. Many of the men gathered bricks and stones from the streets. They waited for the car.

As it drew near them they hurled their mis-siles at it. A brick struck E. J. Butterfield, the motorman on the head, knocking him insensible to the platform of the car A deep would was inflicted on his forehead. There was the wildest excitement among the pas-sengers of the car, but none of them were in-

sengers of the car, but none of them were in-jured. Butterfield was taken away in an am-bulance. The crowd appeared satisfied with its work and proceeded on its way. When crossing the viaduct a dozen team-sters and drivers were stopped. One was con-veying a barrel of apples. It was taken from the wagon and the fruit dumped in the street. The crowd marched across the Central via-duct and demolished every window in a mo-

tor car that was passing. At the corner of Pearl and Abbey streets they ordered a motorman to stop his car. He refused to do so. A policeman got on the platform, revolver in hand, and ordered the men to fail back. Not a man moved. The policeman fired into the air and his shot was answered by a dozen others from the crowd, Nobody was hurt. The men finally allowed the cur to proseed. At the corner of Pearl street and Franklin

avenue a motorman who refused to stop his par was hit with a stone, but was not seriously injured. A teamster in the employ of Wm, Edwards & Co, was hit with a brick, as were several others, but none were badly hurt.

After parading along other thoroughfares the rowd made its way back to the public square. There they listened to more speeches and finnity dispersed.

At night the Socialists marched through the streets. Their cheers washeard for blocks. A dram corps headed the line. A large de-tachment of police was held in reserve at the Central police station, but no outbreak occur-red. The police authorities, who have been entent with the mobs which have been creating excitement in this city, will adopt sum-mary measures to prevent further scenes of

TOOK THE SAMPLE.

Didn't Fit Him Q lite, But He Wanted It Anyhow.

"Thirty-dollar overcoats for \$10," was the way the advertisement ran. In the windows hung some really handsome articles of clothing, which were calculated to make the passerby begrudge the \$50 spent for an "order-coat" before the blessing of a closing-out sale came in view. On the tables within the shop were piled coats almost innumerable. On the front table and on the top of the pile was a coat which the prospective customer regarded with great favor. It seemed to be a "\$30 coat for \$10" in truth. It was the first one he picked up on entering the store. He put it on, but before he had had time to see himself in it the salesman had dragged it off with the remark. "That won't do at all." and offered him a garment of faded blue. which tooked like a \$5 coat for \$10. The visitor asked for a coat similar to the one first noticed. "Sorry, but these are broken lots, and we can't just fit you in that," was the reply. "Now what do you want in this line?" and another cheap coat was brought on. The customer tried on several and then came back to his first love. want to try that on again," he said. "Oh, that won't fit you at all." said the clerk, but he helped the visitor to don the coat and the latter thought it fitted very well. Then the discovery was made that it was already sold. The customer didn't see it in that light, and in conseuence a conference of clothiers was held in the back part of the store. A man came forward and said: "There's a man in the backroom that wants that coat."

Sewage in Villages.

In the course of an excellent article on sewage, in the Century, Col. George E. Waring, jr., says:

The method of disposal by irrigation or filtration is an extremely dexible one. It is susceptible of modifications that will make it suit. able for a great variety of circumstances, and for a wide range of soil and of surface conformation.

It is e uaily available for a single house, for a village, or for a town, and its processes are so nearly automatic that its use on a small scale entails no material cost or care in ma ntenance. With a small area for surface distribution near the house, it is only necessary to provide a simple intermittent flush-tank, with an outlet that can be changed to either of the two or three alternate sections into which the area is divided each large enough to absorb a few hundred gations of water. Little attention will be needed beyond the periodic directing the flow to one section or to the other. It is desirable that this ground should be withdrawn from full sight, but only for esthetic reasons: there will be no odor.

In like manner the sewage from a large hotel, or from a dozen houses, or from a village or a town, may be controlled with only such increase of cost and attent on as the larger service entails. The important recent improvements in methods of application have been in the direction of simplicity, and the following facts are now fully established:

i. House drainage is practically oforless when first produced. I: does not become o ensive unless retained until it putrelles-only after a day or more.

. If applied when fresh to the surface of suitable ground, its water is removed in a condition fit even for safe drinking, and its impurities are completely destroyed, both in winter and summer, without offense or d inger of any kind.

In short, the bugiear of sewage disposal has been done away with. and we are now in a position to adopt simple and unob ectionable methods, which will produce a perfeetly satisfactory result in all but very exceptional cases.

A KENTUCKY MIRACLE.

JUDGE JOHN M. RICE TELLS HOW HE WAS CURED OF RHEL.

Same MATINA. rippled for Six Years With Sciation In Its Worst Form. He Expected to Die. But Was Saved in a Marvelous Manner.

(From the Covington, Ky., Post.)

The Hon, John M. Rice, of Louisa, Lawrence County, Kentucky, has for the past wo years retired from active life as Crimnal and Circuit Julge of the Sixteenth Judietal District of Kentucky.

He has for many years servel his native county and state in the legislature at Frankfort and at Washington, and, until his retirement, was a noted figure is political and Judicial circles. The Judge is well known throughout the state and possesses the bast qualities which go to make a Kentucky gentleman honored wherever he is known.

About six years ago the bodily troubles which finally caused his retirement at a time when his mental faculties were in the zenith of their strength, began their encroachment Highest of all in leavening strength .- Latest U. S. Gov. Food Report.

Economy requires that in every receipt calling for baking powder the Royal shall be used. It will go further and make the food lighter, sweeter, of finer flavor, more digestible and wholesome.

ROYAL BAKING FOWDER CO., 106 WALL ST., NEW YORK

There is a kind of swearing, which many people are given to, when they are angry. Instead of giving yent to their feelings in oaths, they slam the doors, kick the chairs, stamp on the floor, throw the furniture about and make all the noise they possibly can. It is practically the same thing as swearing-springs from the same kind of feelings exactly, but avoids saying those awful words. They force the furniture to make the

noise, and so I call it wooden swear-

ing.-Texas Siftings.

Not Evidence Enough. In a Washington County town a little while ago the local champion liar was brought up before the justice for stealing hens. "Twas a pretty plain case, and, by the advice of his lawyers, the prisoner said: "I plead guilty." This surprising answer in place of the string of lies expected, staggered the justice. He rubbed his head. "I guess-I'm afraid-well, Hiram," said he, after a thoughtful pause. "I guess I'll have to have more evidence tefore I sentence you."-Lewiston Journal.

-A Chicago baby fell from the third story of a flat yesterday into a perambulatorstand-ing on the sidewalk. The little one escaped ajury.

ipon his naturally strong constitution. few days ago a Kentusky Post reporter called upon Judge Rice, who in the following words related the history of the causes that led to his retirement : "It is just about six years since I had an attack of rhoumstism, slight at first, but soon developing into Sciatic rheumatism, which began first with neute shooting pains in the hips, gradually extending downward to my feet.

"My condition became so had that I eventually lost all power of my legs, and then the liver, kidneys and bladder and, in fact, my whole system became deranged. I tried the treatment of many physicians, but receiving no lasting benefit from them, I had recourse to patent remedies, trying one kind after an-other until I believe there were none 1 had not sampled. "In 1888, attended by my son John, I went

to Hot Springs, Ark. I was not much bene-fited by some months' stay there when I re-turned home. My liver was actually dead, and a dall, persistent pain in its region kept me on the rack all the time. In 1890 I was reappointed Circuit Judge, but it was impofor me to give attention to my duties. In 1801 I went to the Silurian Springs, Wake shaw, Wis. I stayed there some time, but without improvement. "Again I returned home, this time feeling

no hopes of recovery. The muscles of my limbs were now reduced by atrophy to mere strings. Sciatic pains fortured me terribly, but it was the describered condition of my liver that was, I feit, gradually wearing my life away. Doctors gave me up, all kinds of remedies had been tried without avail, and there was nothing more for me to do but re-sign myself to fate.

"I lingered on in this condition sustained almost entirely by stimulants until April, 1893. One day John saw an account of Dr. Williams' Pink Pills for Pale People in the Kentucky Post. This was something new, Kennicky Post. This was something new, and as one more drug after so many others could not do so much harm. John prevailed upon me to try the Pink Pills. It was, I think, in the first week in May the pills ar-rived. I remember I was not expected to live for more than three or four days at the time. The effect of the Pills, however, was manufactors and I could down an heartily a marvelous, and I could soon eat heartily, a thing I had not done for years. The liver Without doubt, the pills saved my life, and, while I do not crave notoriety. I cannot re-fuse to testify to their worth.

The reporter called upon Mr. Rughes, the Louisa druggist, who informed him that Dr. Williams' Pink Pills have been very popular since Judge Rice used them with such benefit. He mentioned several was have found relief in their use. An analysis of Dr. Williams' Pink Pills for

Pale People shows that they contain in a contensed form, all the elements necessary to give new life and richness to the blood and restore abattered uerves. They are an un-failing specific for such diseases as locomo-tor araxis, partial paralysis. St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palheadache, the after effects of in grippe, pai-pitation of the heart, pale and sallow com-plexions, all forms of weakness either in male or female, and all diseases resulting from vitiated humors in the blood. Dr. Williams' Pink Pills are sold by all dealers, or will be seent, post paid, on receipt of price (50 cents a box, or 6 boxes for \$2.50-they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Co., Scheneolady, M. X.

Few husbands and wives are so af fectionate and trusting that they say "our meney."

From away up in British North America comes the following greeting to Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, at Buffale, N. Y. Mrs. Allen Sharrard of Hartney, Selkirk Co., Manitoba, whose portrait, with that of her little boy, heads this article, writes as follows: "I take great pleasure in recommending Dr. Pierce's Favorite Prescription for 'falling of the womb.' I was troubled with bearing down pains and pains in my back whenever I would be on my feet any length of time. I was recommended to try Dr. Pierce's Favorite Prescription, which I did with happy results. I feel like a new person after taking three I feel like a new person after taking three ottles of it

I feel like a new person after taking three bottles of it." As we have just heard from the frigid North, we will now introduce a letter received from the Sunny South. The follow-ing is from Mrs. J. T. Smith, of Oakfuskee, Cleburne Co., Ala. She writes: "I was afflicted and suffered untold pains and misery, such as no pen can describe, for six years. I was confined to bed most of the time. I expected the cold hand of death every day. I was afflicted with leucorrhoa-with crocessive flowing-falling of the womb -bearing down senation-pain in the small of my back-my bowels costive-smarting, itching and harning in the vagina, also pal-pitation of the heart. When I began taking your medicine I could not sit up, only a few minutes at a time, I was so weak. I took Dr. Pierce's Favorite Prescription three times per day, I also took his 'Golden Medical Discovery' three times per day and one of Dr. Pierce's Floasant Fellets every night. I have taken seven bottles of the 'Discovery, seven bottles of the 'Prescription' and five bottles of the 'Pellets.' I took these medi-cines seven months, regularly, never missed a day. These medicines curred me. I feel as bottles of the 'Felleta.' I took these medi-cines seven months, regularly, never missed a day. These medicines curred me. I feed as well as I ever did in my life Four of the best doctors in the land treated my case four years. They all gave me up as hopeless-they said I could not be curred, and could not live. Through the will of God, and your medicines. I have been restored to the best of health." Yours truly,

"I had been suffering from womb trouble for skillful physicians, but finding only tempo-rary relief from medicines prescribed by them. I was advised by a friend to take Dr. Pierce's Favorite Prescription, which I did, and found, in taking six bottles of the 'Prescription' and two of the 'Golden Medical Discovery,' that it has effected a positive cure, for which words cannot express my gratitude for the relief from the great suffering that I so long endured." Yours truly,

W. O. Sunchel.

As a powerful, invigorating, restorative tonic "Favorite Prescription" improves digestion and nutrition thereby building up solid, wholesome flesh, and increasing the strength of the whole system. As a soothing and strengthening nervine "Favorite Pre-scription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasns, Chorea, or St. Vitus's Dance, and other dis-tressing, nervous symptoms commonly atten-dant upon functional and organic disease of dant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency. Even insanity, when dependent upon womb disease, is cured by it.

Dr. Pierce's Favorite Prescription is scientific medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condi-tion of the system. For morning sicknew, or muses, due to pregnancy, weak stomach, in-digestion, dyspepsia and kindred symptoms its use will prove very beneficial.

Dr. Pierce's Book (168 pages, illustrated) on "Woman and Her Diseases," giving suc-cessful means of Homo Treatment, will be mailed in plata cavelope, securely sealed from observation on receipt of ten cents to pay postage. See the Doctor's address to pay postage. See the I near the head of this article.
