THE NATIONAL GAME.

BOSTON released Catcher Merritt.
MERRITT is New York's star pitcher.
PITTSBURGH has the baseball fever very badly.
HERCHERSON is leading the Chicago Club in batting.
DOYLE is hitting the ball harder than any other New York player.
St. Louis has gone wild over Breitenstein's work as a pitcher.
The Philadelphia have had harder luck than any other team on account of rain.
In his first fifteen games Turner, of the Philadelphia, had a batting per centage of .450.
BALTIMORE is entitled to the first triple play made in an 1894 League championship game.
WARD, of the New York, has struck out but once this season. Last year he fanned out three times.
Tax accident to Pitcher Wayhizer, of the Philadelphia, is likely to keep him off the field for some time.
SHORTSTOP GEORGE SMITH, of the Cincinnati, has played in fourteen consecutive games without an error.
The Bostonians have but one really reliable pitcher, Nichols. Lovatt has done well, but he is pitching in great luck.
With half a dozen of the Chicago stars in going over six feet in their stockings, it is a misnomer to call them the "colts."
How has made a hit with Cincinnati. The newspapers declare that the dead mute is the only outfielder who plays his position properly.
BOSTONIANS have never ceased to expect the release, two years ago, of Outfielder Brodie, who is doing such splendid work for Baltimore.
The Chicago Club has tried fifteen men at second base in two years. Each of these men cost as much as \$100,000 and a few have cost more. The grand loss in this respect alone is \$750,000.
MELLANE, of Baltimore, is distinguishing himself. He was the first pitcher in the League this season to hold a team down to one hit and also holds the strike-out record of the season to date—eight.
This ablest strategic pitcher in the League this season is pitching the game of his life this season, and that player is John Chick, of Cleveland. The "cyclone" class of pitchers are nowhere in comparison.
In fielding, up to date, Zimmer leads the League catchers, Tucker the first basemen, Bonner the second basemen, Nash the third basemen, George Smith the short stops, Kelly the left fielders, O'Connor the centre fielders and Duggan the right fielders.
On the seventy-four pitchers in the League this season are listed. Many made their debut in the big League this season, thirteen during last season, and only eleven were in the major organization before 1900. The stars of the old association number fourteen.
Bad throws are very costly on the new Cincinnati grounds. If a ball gets by the first baseman there is nothing to stop it inside of 100 feet, and even then chances must be taken of its coming off on an angle.
Base-runners can take two or three bases in such cases.
The work of Baltimore's young pitcher, Brown, is the surprise of the year. He is a green boy taken off the lots around Baltimore, without even any experience with a first-class amateur club, much less with a semi-professional or minor League team. He knows very little about baseball, but he has a steel-ribbed left arm.
ANSON'S team may not be very high in the race, but his own personal triumph is overwhelming, says Sporting Life. He has demonstrated that without him at first base his club is like a ship in a storm at sea without a rudder. It will probably be a long time before the sage papers set up another bowl for him to "net out of the game."

How They Stand.
 The following table shows the standing of the different clubs composing the National Baseball League:

PROCLAMATION TO STRIKERS.

Gov. Pattison in an Official Notice Warns the Idle Men to be Orderly.
 Gov. Pattison received from Sheriff W. H. Wilhelm, of Fayette county, a letter recounting the murders and depredations committed in the Connellsville coke country during the present strike, the resistance offered his deputies by strikers and the armed mobs of strikers patrolling the region. He concluded thus:
 Considering all the circumstances, I regard the situation as critical, and, as an emergency may at any moment arise which will make it necessary to call for the aid of State troops, I communicate to you these facts that you may in some degree understand the situation and the necessity for prompt action.
 Gov. Pattison telegraphed the sheriff as follows:
 Your communication relative to disturbances in your county has been received. I have issued the following order, which I wish you to post conspicuously throughout the sections of your county affected. Communicate to me details as to any further disturbances.
The proclamation follows:
 In the name and by authority of the Commonwealth of Pennsylvania—Proclamation:
 Whereas, It had been reported to me by the proper authorities of Fayette county that riotous demonstrations exist in various sections of said county, whereby the lives and property, peace and safety of the people are threatened, which the civil authorities are unable to suppress; and
 Whereas, The Constitution and laws of this Commonwealth authorize the Governor whenever, in his judgment, the same may be necessary, to employ the militia to suppress domestic violence and preserve the peace;
 Now, therefore, I, Robert E. Pattison, Governor of the said Commonwealth, do hereby command all good citizens and all persons within the territory and under the jurisdiction of the Commonwealth against adding or abetting such unlawful proceedings, and I do hereby command all persons engaged in the said riotous demonstrations, to forthwith disperse and retire peaceably to their respective places of abode, warning them that a persistence in violence will compel resort to such military force as may be necessary to enforce obedience to the laws.
 Given under my hand and the great seal of the State at Harrisburg this 20 day of May, in the year of our Lord one thousand eight hundred and ninety-four, and of the Commonwealth the one hundred and eighty-fourth.
 (Signed,) Robert E. Pattison.
 The Governor received the following dispatch from Sheriff Wilhelm:
 Your proclamation received and will have a good effect. Five hundred strikers were being led by Kyle works but committed no violence.
At Madison, Mo., the city marshal blows a horn at 9 o'clock p. m. to warn the young scoundrels on the street to retire to their homes.

A Thirty-four Year Old Letter.
 "It is an exceedingly rare thing nowadays in any civilized country for a letter, properly stamped, sealed and addressed, to fail to reach its destination," said a Government official. "Sometimes letters are written which are never received, but the great number of letters which go to the dead letter office because they are not properly addressed, or not addressed at all, serve to explain the greater part of these rare disappearances. Now and then, however, some one somewhere in this country is astonished to receive a letter that was written and posted years before. Not long ago a lady in Vermont received a letter which was written and bore evidence of having been mailed in 1860. The stamp on the letter was obsolete, but the post office department forwarded it to its destination as the stamp was good at the time it was first mailed. Where the letter had been all these years was never explained, but it may be surmised that it had slipped into some crack or crevice in the course of transmission, and remained there until the making of certain repairs revealed it. It was then put in the mail again and nothing said about it."—St. Louis Globe-Democrat.
