On one of the scats four little girls were observed the other day indulging in the feminine-masculine, also -propensity for quarreling. The most self-assertive of the group was a diminutive damsel whose head was adorned with a hat of monstrous red plumage. Sarcastic comments on her part had evidently irritated her companions:

"She's a sassy thing, Sally. wouldn't speak to her no more," observed a young miss on the right. The sarcastic damsel sniffed, but

said nothing. "Don't let's 'sociate with her no

more," remarked a second. The three little girls arose, and the third one had her say. "You can just keep away from our party. Mary Baum," she said. "We ain't a-goin' ter look or speak to you no

Grisly Legislation.

Two most extraordinary bills were introduced in the Ohio Legislature. The first bill provided for the abolishment of hanging as a penalty in cases of capital punishment, and substituted the use of anæsthetics and vivisection. The murderer was to be turned over to the doctors, who would deprive him of consciousness by the use of anæsthics and then experiment with him to their hearts' content. The other bill was similar to the first, but less radical, and gave the murderer the choice between death by electricity and death by anæsthetics and vivisection.

GREAT FIRE IN THE WEST.

MANY PEOPLE HOMELESS.

Details of the Conflagration that Destroyed the City of Phillips.

During more than a week forest fires have been raging in various sections of Wisconsin, and have been causing great losses. Of 700 buildings in Phillips, the county seat of Price county, all have been burned except 39. Of its inhabitants 3,0.0 are homeless. The property loss is estimated at \$1,250,000. Many of the poor people carried no insurance and so lost everything. At Mason the houses of the town proper are still standing, but the loss will reach \$700,000. The White River Lumber company lost 30,000,000 feet of lumber. A special train consisting of 16 cars and locomotive was burned.

The fire reached Phillips at two o'clock Friday afternoon, and continued to burn until midnight. Among the buildings destroyed was the county jail, containing 13 prisoners, of whom three escaped when released from confinement. A number of people sought refuge from the fire in a boat house on Elk Lake adjoining the town. The house began to sink and they betook themselves to the boats. Fifteen of them were drowned. Saturday morning Mrs. Cliss was found floating on the opposite side of the lake, clinging with desporation to a boat.

Many record were taken on a train through

Many people were taken on a train through fire to Prentice 12 miles distant. A relief committee was organized and provisions consisting of bread, butter, coffee and canned goods were received from neighboring towns. Governor Peck visited the town Sunday orning bringing with him large quantities of sheating, bammers and natis.

The fire played some queer freaks. The house of Clerk of Court Wm. Nelson was the only structure on the main street not burned. It is a frame dwelling and not even his fence was scorched, while ruins surrounded it on The furniture which he moved out

in order to save was destroyed.

Relief trains fairly poured into Phillips Sunday and there are supplies of food now sufficient to last the fire sufferers a month. The relief committee asks especially for clothing and money, and these will be amply provided by the people of the state without

outside help.

Men were set to work building a large mess tent, where the homeless people will be mess tent, where the homeless people will be fed, and putting up temporary structures where they can sleep. The sale of liquor has been stopped, owing to the arrival of parties of tramps and rough characters who threaten-ed trouble. A box car has been turned into a jail, special deputies sworn in, and all law-lessness will be suppressed. An empty box car on a siding, which the fire failed to ch, has been turned into a morgue. None of the county records have been destroyed. The vaults in the court house are intact.

An Alligator Story.

"Of all the inhabitants of the great rivers of India the alligator is the most formidable," said Captain L E Ballou, of London, England, at the Luclede last evening, says the St. Louis Globe-Democrat. "While I I saw a sight the thought of which always causes a shudder to creep over me. A lady near where I had lived sent a little native boy with a letter to a friend at some little distance,

with the request to send a reply. Being a trustworthy little fellow some surprise was felt when he did not return after a reasonable absence. After waiting several hours with no sign of the messenger, a Lady of the house-Certainly. Apseaching party of which I was a plicant-Then there'll be no need of m mber, was made up to try to discover his wherealt uts.

After scouring the country for some time we came to the river bank, and a short distance away saw a dead alligator lying on the shore with its great jaws extended to their utmost. On examining it to discover the cause of so strange an appearance we found to our horror that it had devoured the missing boy, and had attempted to swallow his head whole. This, however, it was unable to do, and had been suffocated in the attempt. The boy's head was still covered by his turban, which, when removed, disclosed the answer to his mistress' letter, which he was faithfully bringing back. It was supthe river he had been seized by the alligator, as those huge reptiles are very clever in concealing themselves antil their victim is well within their reach, and then pouncing on

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, hendaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drug-gists in 50c and \$1 bottles, but it is man-ufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Odd Church Collections,

A survival of the old custom of payment in kind exists in a viriage in Kent, England. One Sunday afternoon in the spring there is an offertory of fresh eggs at the church, and last year the number of contriwas stationed there several years age butions amounted to 610, or an average of nearly one egg apiece from the inhabitants of the village. The collection, carefully packed, is sent to the sick and the very poor of a London parish.

Clean them with Pearline. You can't get them so thoroughly sweet and pure in any other way. Besides, it's easier for youquicker, more economical.

"The box and barrel churn are not hard

to keep clean. A little hot water and a little Pearline will clean any churn or do away with any bad odor."- The Dairy World, Chicago. Perhaps you think that some of the imitations of Pearline, that you'd be afraid to use in washing clothes would do just as well in work like this. They wouldn't

hurt tinware, certainly. But they wouldn't clean it, either, half as well as Pearline-besides, "don't play with the fire." If your grocer sends you an imitation, be honest—send it back. JAMES PVLE, New York.
